

**Contents:**

<b>Evaluation of a new remote sensing methodology for detailed international mapping in the V4 region</b>	
Jakub Mirijovský, Monika Šulc Michalková, Milan Trizna .....	7
<b>The importance of Black alder (<i>Alnus glutinosa</i> (L.) Gaertner) to stability of the banks of water flows</b>	
Mariana Jakubisová, Matúš Jakubis .....	14
<b>Trees and shrubs along the banks of rivers - information on the use – part 1</b>	
Miloslav Šlezinger .....	19
<b>Soil water regime of agricultural areas in small experimental catchment</b>	
Luboš Jurík, Tatiana Kaletová, Dušan Húska .....	25
<b>Water Infiltration in Model Sandy Substrate with Various Levels of Rooting</b>	
Radek Dymák, Henek Michal, Kinc Miroslav, Kravka Miroslav .....	31
<b>Stabilization of the banks from the effects of rainfall – reservoir Bilovec</b>	
Miloslav Šlezinger, Petr Pelikán .....	37
<b>Use of geosynthetic Networks for stabilization of the slopes from the effects of torrential rains (examples of experimental areas)</b>	
Miloslav Šlezinger, Pavla Pilařová, Jana Marková .....	41
