**News**

**4 World News**

**Spotlight**

**8 Making collaboration work**

Detailing the latest research on cross-border collaboration in hydropower.

**Construction**

**12 A large undertaking**

Update on construction work being carried out or recently completed at selected large dam projects.

**18 Building value**

Salini Impregilo shares its experience of dam construction projects worldwide, including the Grand Ethiopian Renaissance Dam and Ingula pumped storage project.

**Pumped storage**

**22 Pumped up power**

Refurbishment plans for existing pumped storage plants, together with news from projects in the development and construction stage in Europe and the US.

**Show preview**

**28 Focus on flexible operation**

Looking towards the 19th International Seminar on Hydropower Plants.

**Fish passage**

**30 Fish passes and their impact on river flow measurements**

Work has been undertaken to determine the potential impact of fish passage structures on river flow.

**32 Improvements planned for Spey Dam**

What plans are underway to improve fish passage at Spey dam in Scotland?

**Sustainability**

**34 Hydropower vision**

The societal, environmental and economic benefits of sustainable hydropower development have been highlighted in a recent report by the US Department of Energy.

**Project development**

**37 Full steam ahead for Manolo Fortich project**

With construction now over halfway complete, the Manolo Fortich project in the Philippines is on track to generate an additional 68.8MW of hydropower to the Mindanao grid.

**Cover:** Gibe III hydroelectric project in Ethiopia. Photograph courtesy of Salini Impregilo. Read more about the Italian firm's work on the large dam project, and other projects worldwide, on p18.
