Preface and acknowledgements

v

Part 1: What is evidence-based teaching?

In which we get rational about how to teach, and look at evidence on how we learn

- | | | |
|---|--|----|
| 1 | We need evidence-based practice, not custom and practice | 1 |
| 2 | Learning is making sense, not just remembering | 8 |
| 3 | Motivation | 41 |

Part 2: What methods work best?

In which we find out what teaching methods work best and how we know this – and that teachers make the difference, not their bosses or policy makers

- | | | |
|---|--|----|
| 4 | Effect sizes: finding what works | 53 |
| 5 | John Hattie's table of effect sizes | 60 |
| 6 | Marzano's theory-based meta-analysis | 71 |
| 7 | Extracting general principles from effect-size studies | 82 |

Part 3: The top teaching methods

In which we look closely at the best teaching methods, to see how to use them and what we can learn from them

- | | | |
|----|--|-----|
| 8 | Feedback or 'assessment for learning' (effect size 0.81) | 85 |
| 9 | Whole-class interactive teaching (effect size 0.81) | 103 |
| 10 | Graphic organisers and other visual representations (effect size 1.2 to 1.3) | 115 |
| 11 | 'Decisions, decisions' (effect size 0.89) | 136 |
| 12 | Cooperative learning | 143 |
| 13 | Reciprocal teaching (effect size 0.86) | 154 |

Part 4: Seven principles for evidence-based teaching

In which we extract from the research seven general principles that seem to explain what makes teaching methods work, and use them to improve our teaching

- | | | |
|----|---|-----|
| 14 | The seven general teaching principles and PAR | 165 |
|----|---|-----|

Part 5: Choosing and using teaching methods

In which we look in detail at an ideal plan to teach a topic, looking at alternative teaching methods and how to use them

- 15 Feedback through interactive dialogue: the self-correcting classroom 175
- 16 Teaching methods for the 'orientation' phase: setting the scene 194
- 17 Methods to present new material 207
- 18 Methods for the 'apply' phase: deep meaning from hard thinking 234
- 19 Feedback methods: assessment for learning 246
- 20 Methods for the 'review' and homework phases 277

Part 6: Teaching intelligence

In which we see that intelligence is a range of skills that can be taught, and consider strategies to teach them

- 21 Teaching thinking skills and intelligence 285

Part 7: What do the best teachers, schools and colleges do?

In which we see how expert teachers and the best schools get their incredible pass rates

- 22 What do the best teachers, schools and colleges do? 311

Part 8: Your own evidence

In which we see how to improve our teaching, and find it's a bit scary, but fun

- 23 Your own evidence: reflection and experimentation 319

Part 9: The rational curriculum

In which we see what 'they' ought to tell us to teach, and find that if we teach it anyway, students do much better. But we find teachers have an awesome responsibility. You create the future

- 24 The rational curriculum 325

Part 10: Management and leadership

In which we find out how to improve the teaching of others in our team

- 25 Management and leadership 355
- 26 Evidence-based classroom management and discipline
