

"This is a book that simply exudes authority. It is an excellent buy that will satisfy a broad readership within and outside political geography from advanced undergraduate level upwards."

Reference Reviews

"I encourage anyone with an interest in political geography to purchase this book ... There is a need for more books like this in political geography."

Progress in Human Geography

"This book brings together some of the best writers currently working in political geography. It offers a wonderful array of challenging and provocative ideas. It pushes the boundaries of the subject by engaging with many of the key debates in contemporary social and political theory and research. Agnew, Mitchell, and Toal are to be congratulated on setting an exciting and innovative agenda for the development of political geography in the future."

Joe Painter, University of Durham

A Companion to Political Geography presents students and researchers with a substantial survey of this active and vibrant field. The volume contains specially written essays by prominent scholars from around the world and covers a wide variety of crucial themes in contemporary critical political geography.

Each contributor not only charts the important work that has been done in the past, but also helps to define directions for future research. The material is organized thematically, but within this structure key debates and controversies are addressed from a range of theoretical viewpoints, including the most cutting edge. In this way, the *Companion* not only introduces the best thinking on political-geographic issues, but also supplies readers with a sense of the relevance and possibilities of the subject.

John Agnew is Professor of Geography at UCLA. His books include *Human Geography* (Blackwell, 1996), *American Space/American Place*, and *Place and Politics in Modern Italy*.

Katharyne Mitchell is Associate Professor of Geography at the University of Washington.

Gerard Toal (Gearóid Ó Tuathail) is Professor of Geography at Virginia Tech in Northern Virginia. His books include *Critical Geopolitics* and *The Geopolitics Reader*.

Cover illustration: Siegfried Rischar, *Der Rosengrass*, 1989, from the exhibition 'Overcoming the Wall by Painting the Wall', organized by the museum at Checkpoint Charlie, Berlin.
