

CONTENTS

<i>Preface</i>	xi
----------------	----

SECTION I: *Introduction and Planning*

1. Place of Meta-analysis among Other Methods of Research Synthesis	3
<i>Julia Koricheva and Jessica Gurevitch</i>	
2. The Procedure of Meta-analysis in a Nutshell	14
<i>Isabelle M. Côté and Michael D. Jennions</i>	

SECTION II: *Initiating a Meta-analysis*

3. First Steps in Beginning a Meta-analysis	27
<i>Gavin B. Stewart, Isabelle M. Côté, Hannah R. Rothstein, and Peter S. Curtis</i>	
4. Gathering Data: Searching Literature and Selection Criteria	37
<i>Isabelle M. Côté, Peter S. Curtis, Hannah R. Rothstein, and Gavin B. Stewart</i>	
5. Extraction and Critical Appraisal of Data	52
<i>Peter S. Curtis, Kerrie Mengersen, Marc J. Lajeunesse, Hannah R. Rothstein, and Gavin B. Stewart</i>	
6. Effect Sizes: Conventional Choices and Calculations	61
<i>Michael S. Rosenberg, Hannah R. Rothstein, and Jessica Gurevitch</i>	
7. Using Other Metrics of Effect Size in Meta-analysis	72
<i>Kerrie Mengersen and Jessica Gurevitch</i>	

SECTION III: *Essential Analytic Models and Methods*

8. Statistical Models and Approaches to Inference	89
<i>Kerrie Mengersen, Christopher H. Schmid, Michael D. Jennions, and Jessica Gurevitch</i>	
9. Moment and Least-Squares Based Approaches to Meta-analytic Inference	108
<i>Michael S. Rosenberg</i>	

10. Maximum Likelihood Approaches to Meta-analysis	125
<i>Kerrie Mengersen and Christopher H. Schmid</i>	
11. Bayesian Meta-analysis	145
<i>Christopher H. Schmid and Kerrie Mengersen</i>	
12. Software for Statistical Meta-analysis	174
<i>Christopher H. Schmid, Gavin B. Stewart, Hannah R. Rothstein, Marc J. Lajeunesse, and Jessica Gurevitch</i>	
SECTION IV: <i>Statistical Issues and Problems</i>	
13. Recovering Missing or Partial Data from Studies: A Survey of Conversions and Imputations for Meta-analysis	195
<i>Marc J. Lajeunesse</i>	
14. Publication and Related Biases	207
<i>Michael D. Jennions, Christopher J. Lortie, Michael S. Rosenberg, and Hannah R. Rothstein</i>	
15. Temporal Trends in Effect Sizes: Causes, Detection, and Implications	237
<i>Julia Koricheva, Michael D. Jennions, and Joseph Lau</i>	
16. Statistical Models for the Meta-analysis of Nonindependent Data	255
<i>Kerrie Mengersen, Michael D. Jennions, and Christopher H. Schmid</i>	
17. Phylogenetic Nonindependence and Meta-analysis	284
<i>Marc J. Lajeunesse, Michael S. Rosenberg, and Michael D. Jennions</i>	
18. Meta-analysis of Primary Data	300
<i>Kerrie Mengersen, Jessica Gurevitch, and Christopher H. Schmid</i>	
19. Meta-analysis of Results from Multisite Studies	313
<i>Jessica Gurevitch</i>	
SECTION V: <i>Presentation and Interpretation of Results</i>	
20. Quality Standards for Research Syntheses	323
<i>Hannah R. Rothstein, Christopher J. Lortie, Gavin B. Stewart, Julia Koricheva, and Jessica Gurevitch</i>	
21. Graphical Presentation of Results	339
<i>Christopher J. Lortie, Joseph Lau, and Marc J. Lajeunesse</i>	

Contents	ix
22. Power Statistics for Meta-analysis: Tests for Mean Effects and Homogeneity <i>Marc J. Lajeunesse</i>	348
23. Role of Meta-analysis in Interpreting the Scientific Literature <i>Michael D. Jennions, Christopher J. Lortie, and Julia Koricheva</i>	364
24. Using Meta-analysis to Test Ecological and Evolutionary Theory <i>Michael D. Jennions, Christopher J. Lortie, and Julia Koricheva</i>	381
SECTION VI: Contributions of Meta-analysis in Ecology and Evolution	
25. History and Progress of Meta-analysis <i>Joseph Lau, Hannah R. Rothstein, and Gavin B. Stewart</i>	407
26. Contributions of Meta-analysis to Conservation and Management <i>Isabelle M. Côté and Gavin B. Stewart</i>	420
27. Conclusions: Past, Present, and Future of Meta-analysis in Ecology and Evolution <i>Jessica Gurevitch and Julia Koricheva</i>	426
<i>Glossary</i>	433
<i>Frequently Asked Questions</i>	441
<i>References</i>	447
<i>List of Contributors</i>	487
<i>Subject Index</i>	489
