Part I Describing and Explaining Health in Geographical Settings

1

Chapter 1 Introducing Geographies of Health

3

Health and Geography: Some Fundamental Concepts	6
---	---

<i>Concepts of health</i>	7
---------------------------	---

<i>Geographical concepts</i>	10
------------------------------	----

Geographies of Health: Five Case Studies	15
--	----

<i>Neighborhoods and obesity in New York City</i>	16
---	----

<i>Public places after the introduction of “smoke free” legislation</i>	18
---	----

<i>The health of Aboriginal populations in Canada</i>	19
---	----

<i>Habitus and heart health: The collision of place, body, and health</i>	21
---	----

<i>Mental health in Australian immigration detention centers</i>	23
--	----

Concluding Remarks	25
--------------------	----

Chapter 2 Explaining Geographies of Health

29

Positivist Approaches to the Geography of Health	30
--	----

<i>Positivist explanation</i>	30
-------------------------------	----

<i>Further examples of positivist approaches</i>	31
--	----

Social Interactionist Approaches to the Geography of Health	37
---	----

<i>Social interactionist explanation</i>	38
--	----

<i>Further examples of social interactionist approaches</i>	39
---	----

Structuralist Approaches to the Geography of Health	41
<i>Structuralist explanation</i>	42
<i>Further examples of structuralist or conflict-based approaches</i>	43
Structurationist Approaches to the Geography of Health	50
<i>Structurationist explanation</i>	50
<i>Further examples of structurationist approaches</i>	52
Post-structuralist Approaches to the Geography of Health	53
<i>Post-structuralist explanation</i>	54
<i>Further examples of post-structuralist approaches</i>	54
Concluding Remarks	59
Chapter 3 Quantitative Methods and Geographical Information Systems (GIS)	65
Visualizing and Exploring Health Data in a Spatial Context	66
Modeling Health Data in a Spatial Setting	78
Geographical Information Systems and Health	86
Concluding Remarks	96
Chapter 4 Qualitative Approaches to Interpreting the Geography of Health	101
Interviews	102
Focus Groups	110
Other Qualitative Methods	112
Qualitative Data Analysis	113
Rigor in Qualitative Research	116
Concluding Remarks	117
Part II Health and the Social Environment	123
Chapter 5 Health Inequalities I: Global Patterns and Regional Contrasts	125
Health Inequalities in the Global South	126
<i>Health inequalities: Africa</i>	130
<i>Health inequalities: The BRIC countries</i>	132
Health Inequalities in the Global North	139
<i>Regional divides in the global north</i>	139
<i>Explaining inequalities in health outcomes in the global north</i>	145
Concluding Remarks	152
Chapter 6 Health Inequalities II: Neighborhoods and Health	157
A Chicago Story	159
Neighborhood Context or Social Composition?	161
The Obesogenic Neighborhood	163
Psychosocial Health and Well-being	167
Housing and Health	169

Infectious Disease	170
Neighborhoods and Access to Care	174
Concluding Remarks	178
Chapter 7 Systems of Health Care	184
Principles of Health Service Delivery	185
<i>Levels and types of health care provision</i>	185
<i>Promoting health, preventing illness</i>	186
Health Care Systems	190
<i>Geographies of rationing</i>	192
<i>Efficiency and equity</i>	193
<i>The need for health care</i>	195
Inequalities in the Provision of Health Services	196
<i>Health care provision in the global south</i>	196
<i>Health care provision in the global north</i>	202
Geographies of Care	205
Concluding Remarks	208
Chapter 8 Inequalities in the Utilization of Health Services	214
Use of Primary Health Care Services	215
Use of Secondary and Tertiary Health Care Services	226
Do Provision and Utilization Affect Outcome?	231
Concluding Remarks	238
Chapter 9 Ageing and Place	244
What is Age?	245
Ageing Populations: Global and Regional Perspectives	246
The Distribution of Ill-Health and Disability Among Older Adults	249
Health Inequalities in Older Adults	254
Healthy Ageing “In Place”	258
There’s No Place Like Home	264
Concluding Remarks	268
Chapter 10 People on the Move: Migration and Health	273
Migration, Disruption, and Health	274
<i>Voluntary migration and mental health</i>	274
<i>Forced displacement</i>	276
The Impact of Migration on the Spread of Disease	280
Migration and the Incidence of Disease and Ill-health	283
<i>Direct effects</i>	283
<i>Longer-term health impacts of migration</i>	285
<i>Migration as a confounding variable</i>	290
Impact of Health Status on Migration	295
The Relationship Between Migration and Access to Health Services	298
Concluding Remarks	301

Chapter 11	On Airs, Waters, Places	309
Air		311
Area sources		314
Linear sources		320
Point sources		324
Water		329
Cholera		331
Schistosomiasis		334
Gastroenteritis		335
Chemicals in drinking water		337
Concluding Remarks		342
Chapter 12	Health Impacts of Global Environmental Change	349
Stratospheric Ozone Depletion		352
The Science of Climate Change and Its Role in Human Health		356
Health Impacts of Climate Change		358
Air quality		360
Contamination of food and water		360
Temperature extremes		363
Extreme weather events and natural hazards		364
Impacts on infectious vector-borne disease		367
Concluding Remarks		370
Chapter 13	Emerging, Re-emerging, and Neglected Infectious Diseases	375
Disease Transmission: The Role of Vectors		376
The Drivers of Emerging, Re-emerging, and Neglected Diseases		378
Ecosystem change		378
Political upheaval, conflict, and disaster		382
Mobilities of people and goods		385
Antimicrobial resistance		387
Socioeconomic determinants and consequences		388
Concluding Remarks		391
Index		395
