

Soil and Water Research

Volume 9, No. 2

2014

CONTENTS

ZÁDOROVÁ T., ŽÍŽALA D., PENÍŽEK V., ČEJKOVÁ Š.: Relating extent of colluvial soils to topographic derivatives and soil variables in a Luvisol sub-catchment, Central Bohemia, Czech Republic	47
TATARKOVÁ V., HILLER E., HALKO R.: Retention characteristics of acetochlor in soils collected from different depths in relation to soil properties (Žitný ostrov area, SW Slovakia)	58
LU H.-Y.: Characterization of extractable metals from the aquifers with arsenic contamination in the Tsengwen Creek, Taiwan	66
IWARA A.I.: Evaluation of the variability in runoff and sediment loss in successional fallow vegetation of Southern Nigeria	77
PATEL J., PATEL H., BHATT C.: Generalized calibration of the Hargreaves equation for evapotranspiration under different climate conditions	83
ČERNOHOUS V., ŠVIHLA V., ŠACH F., KACÁLEK D.: Influence of drainage system maintenance on storm runoff from a reforested, waterlogged mountain catchment	90
