

THE NEW EUROPEAN UNION SERIES

Series Editors: John Peterson and Helen Wallace

The 'new' European Union has been in a state of constant evolution since the mid 1980s, and it shows no sign of standing still. Virtually the only constant is the EU's institutions, which are both unique and time-honoured after 50 years of European integration.

The institutions of the EU, individually and collectively, perform multiple tasks: providing the EU with political direction, managing policies, and integrating interests.

This new edition of *The Institutions of the European Union* will be the key text for any reader wishing to understand the functions, powers, and compositions of EU institutions. The book has been fully updated and includes a new chapter on institutional reform and the controversy surrounding the EU's Constitutional Treaty.

John Peterson is Professor of International Politics at the University of Edinburgh.

Michael Shackleton is Head of Unit in the Secretariat of the European Parliament in Brussels, Belgium.

From reviews of the previous edition:

'Lucid, comprehensive, and substantive...combines invaluable description with perceptive and sophisticated analysis.'

Professor Alberta Sbragia, University of Pittsburgh

'...distinguished by the clarity and comprehensiveness of [its] institutional coverage...'

Professor William E. Paterson, University of Birmingham
