About the Editor in Chief	xviii
Preface	xix
Part 1 Hydrologic Cycle	
<b>Chapter 1. Hydrology, D. R. Maidment</b>	<b>1.3</b>
<b>Chapter 2. Climatology, E. M. Rasmusson, R. E. Dickinson, J. E. Kutzbach, and M. K. Cleaveland</b>	<b>2.1</b>
<b>Chapter 3. Precipitation, J. A. Smith</b>	<b>3.1</b>
<b>Chapter 4. Evaporation, W. J. Shuttleworth</b>	<b>4.1</b>
<b>Chapter 5. Infiltration and Soil Water Movement, W. J. Rawls, L. R. Ahuja, D. L. Brakensiek and A. Shirmohammadi</b>	<b>5.1</b>
<b>Chapter 6. Groundwater Flow, L. Smith and S. J. Wheatcraft</b>	<b>6.1</b>
<b>Chapter 7. Snow and Floating Ice, D. M. Gray and T. D. Prowse</b>	<b>7.1</b>
<b>Chapter 8. Streamflow, M. P. Mosley and A. I. McKerchar</b>	<b>8.1</b>
<b>Chapter 9. Flood Runoff, D. H. Pilgrim and I. Cordery</b>	<b>9.1</b>
<b>Chapter 10. Flow Routing, D. L. Fread</b>	<b>10.1</b>

## Part 2 Hydrologic Transport

**Chapter 11. Water Quality, S. C. McCutcheon, J. L. Martin and T. O. Barnwell, Jr.**

**11.3**

**Chapter 12. Erosion and Sediment Transport, H. W. Shen and P. Julien**

**12.1**

**Chapter 13. Hydrologic Effects of Land Use Change, I. R. Calder**

**13.1**

**Chapter 14. Contaminant Transport in Surface Water, W. C. Huber**

**14.1**

**Chapter 15. Contaminant Transport in Unsaturated Flow, R. J. Charbeneau and D. E. Daniel**

**15.1**

**Chapter 16. Contaminant Transport in Groundwater, J. W. Mercer and R. K. Waddell**

**16.1**

## Part 3 Hydrologic Statistics

**Chapter 17. Statistical Treatment of Hydrologic Data, R. M. Hirsch, D. R. Helsel, T. A. Cohn, and E. J. Gilroy**

**17.1**

**Chapter 18. Frequency Analysis of Extreme Events, J. R. Stedinger, R. M. Vogel, and E. Foufoula-Georgiou**

**18.1**

**Chapter 19. Analysis and Modelling of Hydrologic Time Series, J. D. Salas**

**19.1**

**Chapter 20. Geostatistics, P. K. Kitanidis**

**20.1**

## Part 4 Hydrologic Technology

<b>Chapter 21. Computer Models for Surface Water, J. J. DeVries and T. V. Hromadka II</b>	<b>21.3</b>
<b>Chapter 22. Computer Models for Subsurface Water, M. P. Anderson, D. S. Ward, E. G. Lappala, and T. A. Prickett</b>	<b>22.1</b>
<b>Chapter 23. Advances in Hydrologic Computation, R. D. Dodson</b>	<b>23.1</b>
<b>Chapter 24. Remote Sensing, E. T. Engman</b>	<b>24.1</b>
<b>Chapter 25. Automated Data Acquisition and Transmission, V. J. Latkovich and G. H. Leavesley</b>	<b>25.1</b>
<b>Chapter 26. Hydrologic Forecasting, D. L. Lettenmaier and E. F. Wood</b>	<b>26.1</b>
<b>Chapter 27. Hydrologic Design for Water Use, T. A. McMahon</b>	<b>27.1</b>
<b>Chapter 28. Hydrologic Design for Urban Drainage and Flood Control, B. R. Urbonas and L. A. Roesner</b>	<b>28.1</b>
<b>Chapter 29. Hydrologic Design for Groundwater Pollution Control, P. B. Bedient, F. W. Schwartz, and H. S. Rifai</b>	<b>29.1</b>
