

- 1231 Integrating sphere-based relative methods for reflection measurements**
Jisoo Hwang, Dong-Joo Shin and Ki Ryong Jeong
- 1243 Transfer standard uncertainty can cause inconclusive inter-laboratory comparisons**
John Wright, Blaza Toman, Bodo Mickan, Gerd Wübbeler, Olha Bodnar and Clemens Elster
- 1259 Development of a primary standard for absorbed dose from unsealed radionuclide solutions**
I Billas, D Shipley, S Galer, G Bass, T Sander, A Fenwick and V Smyth
- 1272 On the evaluation of ultra-high-precision frequency ratio measurements: examining closed loops in a graph theory framework**
L Robertsson
- 1281 Comment on ‘On the units radian and cycle for the quantity plane angle’**
B P Leonard
- 1286 Reply to Comment on ‘On the units radian and cycle for the quantity plane angle’**
I M Mills
- 1287 Primary vacuumeter based on an ultracold gas in a shallow optical dipole trap**
V B Makhalov, K A Martiyanov and A V Turlapov
- 1295 A hierarchical model for the analysis of inter-laboratory comparison data**
Alistair B Forbes
- 1306 Disseminating the unit of mass from multiple primary realisations**
Lars Nielsen
- 1317 Uncertainty analysis of the magnetic field measurement by the translating coil method in axisymmetric magnets**
Pasquale Arpaia, Luca De Vito and Mario Kazazi
- 1330 A reference material with close to Lambertian reflectance and fluorescence emission profiles**
P Jaanson, T Pulli, F Manoocheri and E Ikonen
- 1339 Density functional theory calculations of the stress of oxidised (1 1 0) silicon surfaces**
C Melis, S Giordano, L Colombo and G Mana
- 1346 The Allan variance in the presence of a compound Poisson process modelling clock frequency jumps**
Valerio Formichella
- 1354 Spectral responsivity calibration of the reference radiation thermometer at KRISS by using a super-continuum laser-based high-accuracy monochromatic source**
Yong Shim Yoo, Gun Jung Kim, Seongchong Park, Dong-Hoon Lee and Bong-Hak Kim
- 1365 Time-variable gravity potential components for optical clock comparisons and the definition of international time scales**
C Voigt, H Denker and L Timmen
- 1384 Traceable measurements of the electrical parameters of solid-state lighting products**
D Zhao, G Rietveld, J-P Braun, F Overney, T Lippert and A Christensen
- 1395 Sub-ns time transfer consistency: a direct comparison between GPS CV and T2L2**
P Exertier, E Samain, C Courde, M Aimar, J M Torre, G D Rovera, M Abgrall, P Urich, R Sherwood, G Herold, U Schreiber and P Guillemot

Articles published in the *Technical Supplement*
