

Contents

1. Introduction	1
1.1 Declaration of interests	2
2. General considerations	2
2.1 Modification of the agenda	2
2.2 Principles governing the toxicological evaluation of compounds on the agenda	2
2.2.1 Additional method for assessing dietary exposure to flavouring agents	3
2.2.2 Surveys of production of flavouring agents	6
2.3 Food additive specifications	6
2.3.1 Combined Compendium of Food Additive Specifications, Volumes 1–4	7
2.3.2 Issues arising from the preparation of Volume 4 of the Combined Compendium of Food Additive Specifications	8
2.3.3 General Specifications and Considerations for Enzyme Preparations Used in Food Processing	8
2.3.4 Withdrawal of specifications	9
2.3.5 Harmonization of terms	9
2.3.6 Food additives in nanoparticulate form	10
3. Specific food additives	10
3.1 Safety evaluations	10
3.1.1 Annatto extracts	10
3.1.2 Lycopene (synthetic)	15
3.1.3 Lycopene from <i>Blakeslea trispora</i>	21
3.1.4 Natamycin (exposure assessment)	24
3.1.5 Propyl paraben	28
3.2 Revision of specifications	30
3.2.1 Acetylated oxidized starch	30
3.2.2 Carob bean gum	31
3.2.3 Guar gum	31
3.2.4 DL-Malic acid and its calcium and sodium salts	31
3.2.5 Maltitol	32
3.2.6 Titanium dioxide	32
3.2.7 Zeaxanthin (synthetic)	32
4. Contaminants	33
4.1 Aluminium (from all sources, including food additives)	33
4.2 Choropropanols	45
4.2.1 3-Chloro-1,2-propanediol	45
4.2.2 1,3-Dichloro-2-propanol	48
4.3 Methylmercury	53
5. Future work	59
6. Recommendations	59

Annex 1	
Reports and other documents resulting from previous meetings of the Joint FAO/WHO Expert Committee on Food Additives	62
Annex 2	
Toxicological recommendations and information on specifications	71
Annex 3	
Further information required or desired	78
Annex 4	
Food categories and standard portion sizes to be used in the additional method for making estimates of dietary exposure for flavouring agents	80
Annex 5	
General Specifications and Considerations for Enzyme Preparations Used in Food Processing	84
Annex 6	
Table of functional classes, definitions and technological uses agreed by the Codex Committee on Food Additives and Contaminants at its Thirty-eighth Session	90
