<i>List of Figures</i>	page xi
<i>List of Tables</i>	xii
<i>Preface</i>	xv
PART I GENERAL TOPICS	
I The Social Sciences and Spatial Analysis	I
1.1 <i>Introduction</i>	3
1.2 <i>Spatial Lag and Spatial Error Models</i>	3
1.3 <i>Outline of the Book</i>	5
1.4 <i>For Further Reading</i>	6
2 Defining Neighbors via a Spatial Weights Matrix	10
2.1 <i>The Importance of Space in the Social Sciences</i>	10
2.2 <i>Types of Spatial Data</i>	11
2.3 <i>Defining Neighbors in Areal Data</i>	14
2.4 <i>Misspecification of the Weights Matrix</i>	23
2.5 <i>Estimating a Spatial Weights Matrix</i>	23
2.6 <i>Application: Demographic Change</i>	24
2.7 <i>Additional Topics</i>	26
2.8 <i>Conclusion</i>	28
3 Spatial Autocorrelation and Statistical Inference	30
3.1 <i>Defining Spatial Autocorrelation</i>	31
3.2 <i>Spatial versus Temporal Autocorrelation</i>	32
3.3 <i>Monte Carlo Analysis</i>	34

3.4	<i>Additional Topics</i>	37
3.5	<i>Conclusion</i>	41
4	Diagnosing Spatial Dependence	43
4.1	<i>Global Measures of Spatial Autocorrelation</i>	43
4.2	<i>Local Measures of Spatial Autocorrelation</i>	52
4.3	<i>Spatial Heterogeneity</i>	63
4.4	<i>Additional Topics</i>	65
4.5	<i>Conclusion</i>	67
5	Diagnosing Spatial Dependence in the Presence of Covariates	68
5.1	<i>Unfocused Diagnostics for Spatial Dependence in OLS Regressions</i>	70
5.2	<i>Focused Diagnostics for Spatial Dependence in OLS Regressions</i>	77
5.3	<i>Decision Rule for Standard and Robust LM Diagnostics</i>	87
5.4	<i>Application: Diagnosing Spatial Dependence in Poverty Rates Using LM Diagnostics</i>	88
5.5	<i>Application: Diagnosing Spatial Dependence in Roll-Call Voting Using LM Diagnostics</i>	91
5.6	<i>Application: Diagnosing Spatial Dependence in Turnout Using LM Diagnostics</i>	91
5.7	<i>Conclusion</i>	95
6	Spatial Lag and Spatial Error Models	96
6.1	<i>Maximum Likelihood Spatial Lag Estimation</i>	97
6.2	<i>ML Spatial Error Estimation</i>	102
6.3	<i>Estimation for Large Numbers of Observations</i>	106
6.4	<i>Interpreting Substantive Effects in the Spatial Lag Model</i>	107
6.5	<i>Application: State Spending on Higher Education</i>	108
6.6	<i>Goodness of Fit Statistics</i>	111
6.7	<i>Additional Topics</i>	114
6.8	<i>Conclusion</i>	117
7	Spatial Heterogeneity	119
7.1	<i>Spatial Heterogeneity in Parameters</i>	119
7.2	<i>Spatial Random Coefficients Models</i>	119
7.3	<i>Spatial Switching Regressions</i>	120
7.4	<i>Application: Spatial Switching Regression Model of Spatial Heterogeneity in the Sources of Voting Behavior during the New Deal Realignment</i>	122

7.5	<i>Spatial Expansion Models</i>	128
7.6	<i>Geographically Weighted Regression Models</i>	131
7.7	<i>Application: GWR Model of Spatial Heterogeneity in Voting during the New Deal Realignment</i>	132
7.8	<i>Conclusion</i>	137
PART II ADVANCED TOPICS		139
8	<i>Time-Series Cross-Sectional and Panel Data Models</i>	141
8.1	<i>Space-Time Models</i>	142
8.2	<i>Fixed Effects Spatial Models</i>	143
8.3	<i>Random Effects Spatial Models</i>	144
8.4	<i>Spatial Error Component Model with Spatial and Temporal Autocorrelation</i>	146
8.5	<i>TSCS Spatial Lag Model with a Temporal Lag</i>	147
8.6	<i>Appropriateness of Random Effects Models for Spatial Areal Data</i>	148
8.7	<i>Spatial Hausman Test</i>	148
8.8	<i>Nonparametric Covariance Matrix Estimation for Space-Time Models</i>	150
8.9	<i>Lagrange Multiplier Tests for Space-Time Models</i>	151
8.10	<i>Application: Government Ideology and Representation</i>	154
8.11	<i>Additional Topics</i>	156
8.12	<i>Conclusion</i>	157
9	<i>Advanced Spatial Models</i>	158
9.1	<i>Spatial Binary Dependent Variable Models</i>	158
9.2	<i>Diagnostics for Spatial Dependence in Binary Dependent Variable Models</i>	169
9.3	<i>Application: Spatial Probit Model of Immigrant Demographics</i>	170
9.4	<i>Spatial Multinomial Models</i>	171
9.5	<i>Spatial Count Models</i>	176
9.6	<i>Spatial Survival Models</i>	178
9.7	<i>Application: Spatial Survival Models of NAFTA Position Announcements</i>	180
9.8	<i>Conclusion</i>	198
10	<i>Conclusion</i>	200
10.1	<i>Theoretical Development on Geographic Influences in the Social Sciences</i>	201

10.2 *Development of Spatial Methods for Large Samples in the Social Sciences* 202

10.3 *Use of Diagnostics for Spatial Models* 203

10.4 *Conclusion* 203

PART III APPENDICES ON IMPLEMENTING SPATIAL ANALYSES 205

Appendix A Getting Data Ready for a Spatial Analysis 207

Appendix B Spatial Software 209

Appendix C Web Resources for Spatial Analysis 215

Glossary 219

Bibliography 223
