

TABLE OF CONTENTS

| | | |
|----------|---|------------|
| 1 | Introduction to organic agriculture | 13 |
| 1.1 | Development of organic agriculture (oa) and its significance..... | 13 |
| 1.2 | Agro-ecological and environmental Aspects of Organic Agriculture | 17 |
| 1.3 | Aspects of Health and Quality of Organic Products | 20 |
| 1.3.1 | Human Health and the Risks of industrialisation of Agriculture | 20 |
| 1.3.2 | Quality of Organic Produce | 21 |
| 2 | The History and present Status of Organic Agriculture (OA)..... | 27 |
| 2.1 | The Beginnings of Organic Agriculture in Central and Western Europe | 27 |
| 2.2 | Methods of Organic Agriculture | 27 |
| 2.2.1 | Natural Agriculture | 27 |
| 2.2.2 | Biodynamic Agriculture (Biologisch-dynamischer Landbau) | 28 |
| 2.2.3 | Bio-Organic Agriculture (Biologisch-organischer Landbau) | 28 |
| 2.2.4 | Organic Agriculture in English-speaking Countries | 29 |
| 2.2.5 | Biological Agriculture in German-speaking Countries (Biologischer Landbau) | 29 |
| 2.2.6 | Biological Agriculture in French-speaking Countries (L'Agriculture Biologique) | 30 |
| 2.3 | Development of Organic Agriculture in recent Decades | 30 |
| 3 | Legal status of the organic agriculture method | 33 |
| 3.1 | European legislation for organic agriculture | 33 |
| 3.2 | Other important areas of legislation | 35 |
| 3.3 | Plants grown organically | 36 |
| 3.4 | Organic animal-husbandry | 36 |
| 3.5 | Production of organic foodstuffs | 38 |
| 3.6 | Trading in organic foodstuffs | 39 |
| 4 | Environmental Effects of Organic Agriculture | 41 |
| 4.1 | Soil in Organic Agriculture, its Quality and Biodiversity | 41 |
| 4.2 | Organic Agriculture and the Quality of Groundwater and Surface Water | 42 |
| 4.2.1 | Leaching of Nitrates | 43 |
| 4.2.2 | Pesticides | 44 |
| 4.2.3 | Conclusion | 45 |
| 4.3 | Biodiversity and Organic Agriculture | 45 |
| 4.3.1 | Levels of Biodiversity | 45 |
| 4.3.2 | Biodiversity in Agro-ecosystems | 46 |
| 4.3.3 | The Agro-ecosystem and the Possibilities of enhancing Biodiversity | 50 |
| 5 | Plant Production | 53 |
| 5.1 | General Principles of Organic Plant Cultivation | 53 |
| 5.2 | Crop Rotation in Organic Agriculture | 53 |
| 5.3 | Choosing Species and Varieties in OA | 61 |
| 5.4 | Breeding and propagating Seed for Organic Agriculture | 63 |
| 5.5 | Soil Tillage | 64 |
| 6 | Soil | 69 |
| 6.1 | Biologically active Soil, the Foundation for Organic Agriculture | 69 |
| 6.1.1 | Living Soil Component | 70 |
| 6.1.2 | Inanimate Element of Organic Matter | 73 |
| 6.2 | The Effect of Agronomic Measures on Soil Properties | 76 |
| 6.2.1 | Crop Rotation | 76 |
| 6.2.2 | Soil Tillage | 77 |
| 6.2.3 | Fertilization | 78 |
| 6.3 | Soil Analysis on an Organic Farm | 79 |
| 6.3.1 | Taking and Treatment of Soil Samples | 80 |
| 6.3.2 | Types of Analysis | 81 |
| 7 | Plant Nutrition and Fertilization..... | 83 |
| 7.1 | Theory and Specifics of Plant Nutrition in Organic Agriculture .. | 83 |
| 7.2 | Farmyard Fertilizers and their Management | 84 |
| 7.2.1 | Manure | 85 |
| 7.2.3 | Slurry | 87 |
| 7.3 | Composts and Composting | 88 |
| 7.4 | Methods of applying Farmyard Fertilizer | 90 |
| 7.5 | Green Manuring | 92 |
| 7.6 | Fertilizing with Mineral Fertilizer | 94 |
| 7.7 | Nutrient Balance | 95 |
| 8 | CULTIVATION OF MAIN CROPS..... | 99 |
| 8.1 | Cereals | 99 |
| 8.1.1 | Common Wheat (<i>Triticum aestivum</i> L.) | 99 |
| 8.1.2 | Rye (<i>Secale cereale</i> L.) | 103 |
| 8.1.3 | Barley (<i>Hordium vulgare</i> L.) | 104 |
| 8.1.4 | Oats (<i>Avena sativa</i> L.) | 106 |
| 8.1.5 | Maize or Indian Corn (<i>Zea mays</i> L.) | 108 |
| 8.1.6 | Buckwheat (<i>Fagopyrum vulgare Moench</i>) | 109 |
| 8.2 | Legumes | 111 |
| 8.3 | Oil Crops | 112 |
| 8.4 | Root crops | 114 |
| 9 | Weed Control..... | 119 |
| 9.1 | Weed characteristics | 119 |
| 9.2 | Weed Control before beginning Conversion | 120 |
| 9.3 | Types of weed infestation | 121 |
| 9.4 | Methods of Weed Control | 121 |
| 9.4.1 | Preventive Weed Control | 121 |
| 9.4.2 | Direct – mechanical weed control | 124 |
| 9.4.3 | Thermal weed control | 130 |
| 9.4.4 | Mulching | 131 |
| 9.4.5 | Biological and biotechnical methods of weed control | 131 |

| | | | |
|---|------------|--|------------|
| 10 Plant Protection..... | 133 | 12.6 Vegetable-Growing | 178 |
| 10.1 Principles and Strategy of Plant Protection | 133 | 12.6.1 Seed and Seedlings | 178 |
| 10.2 Indirect Plant Protection Techniques: Prevention | 133 | 12.6.2 Pre-cultivation of Seedlings | 178 |
| 10.3 Direct Means of Plant Protection | 136 | 12.6.3 Sowing and Planting | 178 |
| 10.3.1 Biological Plant Protection Agents | 137 | 12.6.4 Irrigation | 179 |
| 10.3.2 Mechanical Means of Plant Protection | 138 | 12.7 Harvesting and storing Vegetables..... | 180 |
| 10.3.3 Chemical, mineral and organic Substances | 139 | 12.8 Treatment and Sale of Vegetables | 180 |
| 10.3.4 Plant Extracts And Oils | 139 | 12.8.1 Market preparation | 180 |
| 10.3.5 Pheromone Traps | 140 | 12.8.2 Sale | 181 |
| 10.4 Examples of Protection Strategy | 140 | 13 Organic fruit-growing | 183 |
| 10.4.1 Grapevines | 141 | 13.1 Establishing orchards | 184 |
| 11 Permanent Grassland in Organic Agriculture..... | 145 | 13.2 Choice of variety | 189 |
| 11.1 Diversity of permanent Grassland in Organic Agriculture..... | 145 | 13.3 Soil cultivation and fertilization | 189 |
| 11.1.1 Structure and species composition of grass-herb vegetation..... | 146 | 13.4 Growth and Fertility Control | 193 |
| 11.1.2 Risks that current farm management poses to biodiversity of permanent grassland..... | 146 | 13.5 Plant Protection against Disease and Pests..... | 195 |
| 11.1.3 Variability of Permanent Grassland | 147 | 13.6 Harvesting, Packing, Processing and Sale of Organic Fruit..... | 201 |
| 11.1.4 The Quality of Fodder from species-rich permanent Grassland..... | 149 | 14 Organic Viticulture and Wine-making | 203 |
| 11.1.5 Farming Principles | 149 | 14.1 Varieties Suitable for Organic Viticulture | 204 |
| 11.1.6 Proposed ways of Meadow and Pasture renewal by increasing Species Diversity | 150 | 14.2 Establishing a Vineyard | 204 |
| 11.2 Permanent Grassland with lower Species Diversity in Organic Agriculture | 151 | 14.2.1 Preparation Work before establishing a Vineyard | 204 |
| 11.2.1 Methods of establishing grassland | 151 | 14.2.2 Planting a Vineyard | 207 |
| 11.2.2 Treatment and Improvement of Grassland | 152 | 14.2.3 Care of young Vineyards | 208 |
| 11.2.3 Weed and Pest Control | 153 | 14.3 Cyclical Work in a Vineyard | 210 |
| 11.2.4 Nutrition and fertilizing permanent Grassland | 154 | 14.3.1 Vine Pruning | 210 |
| 11.2.5 Pasturing | 159 | 14.3.2 Other Work in early Spring | 211 |
| 11.2.6 Utilisation of permanent Grassland and Quality of Fodder | 162 | 14.3.3 Green Work | 211 |
| 11.3 Conservation and Storage of Bulk Feed | 166 | 14.3.4 Disease and Pest Control | 212 |
| 11.3.1 The Significance and Principle of Haymaking | 166 | 14.3.5 Soil Maintenance in Vineyards | 214 |
| 11.3.2 The Significance and Principle of Silage-Making | 167 | 14.3.6 Harvesting Grapes | 216 |
| 12 Organic Vegetable-growing | 169 | 14.4 Principles of Organic Viniculture | 216 |
| 12.1 Agricultural and personal Prerequisites | 169 | 14.5 Principles of Organic Production of table Grapes | 217 |
| 12.1.1 Climate, Site | 169 | 15 Animal Husbandry and Organic Farming | 219 |
| 12.1.2 Soil | 169 | 15.1 Significance of livestock in Organic Farming | 219 |
| 12.1.3 Organisation, Labour Force | 170 | 15.2 Negative aspects of conventional Husbandry and, Organic Farming as a Chance to give Animals a better life | 220 |
| 12.1.4 Machinery and Equipment | 170 | 15.3 Animal Protection and Welfare | 222 |
| 12.1.5 Sales | 170 | 15.3.1 Animal Protection Ethics | 222 |
| 12.2 Choosing the System of Cultivation, Cultivated Species, Crop Rotation | 170 | 15.3.2 Concepts | 224 |
| 12.3 Soil Tillage and Fertilization | 173 | 15.3.3 Animal Consciousness and Suffering | 225 |
| 12.3.1 Healthy Soil | 173 | 15.3.4 The most serious Causes of Suffering in Animal Husbandry Systems | 227 |
| 12.3.2 Soil Tillage | 173 | 15.3.5 Right action | 230 |
| 12.3.3 Fertilization | 173 | 15.3.6 Animal Protection and Welfare in Organic Farming | 231 |
| 12.4 Weed Control | 174 | 15.3.7 Legislation on animal protection and welfare | 233 |
| 12.4.1 Preventive Measures | 175 | 15.4 Veterinary Care in organic animal husbandry | 234 |
| 12.4.2 Direct control | 175 | 15.4.1 Methods used in Prevention | 234 |
| 12.5 Plant Protection | 176 | 15.4.2 Therapeutic methods in organic farming | 235 |
| 12.5.1 Pests | 176 | 15.4.3 Unacceptable Methods | 235 |
| 12.5.2 Fungal Disease | 177 | 15.4.4 Approved Methods | 235 |

| | |
|---|------------|
| 16 Cattle-breeding..... | 237 |
| 16.1 Ethology and Welfare of Cattle..... | 238 |
| 16.1.1 Basic Characteristics of the Species..... | 238 |
| 16.1.2 Domestication and Division of Breeds | 238 |
| 16.1.3 Factors affecting the Behaviour and Ethology of Cattle | 239 |
| 16.1.4 Grazing, feeding, ruminating and drinking..... | 239 |
| 16.1.5 Social Behaviour of Cattle..... | 240 |
| 16.1.6 Mutual Communication | 241 |
| 16.1.7 Sexual Behaviour, giving Birth and Behaviour after Birth..... | 241 |
| 16.1.8 Learning and Development of social Behaviour..... | 242 |
| 16.1.9 Abnormal Behaviour..... | 242 |
| 16.2 Cattle Stabling | 242 |
| 16.2.1 Breeding: environmental Factors..... | 243 |
| 16.2.2 Stabling dairy cows | 245 |
| 16.2.3 Stabling other Types of Cattle Categories (except non-dairy cows)..... | 247 |
| 16.3 Cattle Nutrition in the Organic Farming System..... | 250 |
| 16.3.1 Feed in Organic Farming (general requirements and conditions)..... | 250 |
| 16.3.2 Cattle Nutrition in Organic Farming in Terms of harmonizing the physiological Needs of Cattle with OA Principles | 251 |
| 16.3.3 Specific Examples of Dairy Cow Nutrition in Organic Animal Husbandry | 253 |
| 16.3.4 Calf Nutrition in Organic Farming..... | 254 |
| 16.3.5 Nutrition of non-dairy Cows | 254 |
| 16.4 Cattle-breeding focusing on Dairy Production or Dairy and Meat Production | 256 |
| 16.4.1 Cattle Breeds | 256 |
| 16.4.2 Dairy Breeds | 256 |
| 16.4.3 Multi-purpose breeds | 257 |
| 16.4.4 Other suitable breeds of Russian origin | 259 |
| 16.4.5 Herd Management - Knowledge of Cattle-Breeding | 260 |
| 16.5 Breeding Organic Beef Cattle | 262 |
| 16.5.1 Conditions for Organic Beef-Cattle Breeding | 262 |
| 16.5.2 Beef-breed characteristics | 264 |
| 16.5.3 Living Conditions | 266 |
| 16.5.4 General Principles of Breeding and Reproduction of Beef Breeds | 269 |
| 16.6 Fattening-up Cattle in Organic Farming | 271 |
| 17 Farming Sheep and Goats in Organic Farming..... | 275 |
| 17.1 The significance of farming sheep and goats | 275 |
| 17.2 Stabling, ethological aspects and construction suggestions | 276 |
| 17.3 Nutrition and feeding | 280 |
| 17.3.1 Feed requirement and feeding method | 281 |
| 17.3.2 Grazing systems | 284 |
| 17.4 Breeding – production based breed selection and organisation of reproduction | 287 |
| 17.4.1 Breeds | 287 |
| 17.4.2 Production aim | 288 |
| 17.4.3 Organising reproduction | 290 |
| 17.5 Breeding systems | 291 |
| 17.5.1 Grazed system | 291 |
| 17.5.2 Handling animals – reducing stress to a minimum | 292 |
| 18.5.3 Health programme of a herd | 294 |
| 18 Pig-breeding | 297 |
| 18.1 The Significance of Pig-breeding in Organic Farming | 297 |
| 18.2 Ethology and the Requirement for ethologically suitable Stabling of Pigs | 297 |
| 18.2.1 Basic Characteristics of the Species and a rough Outline of evolutionary Development..... | 297 |
| 18.2.2 Basic Behaviour, Groups of basic Reflexes, critical Phases of Development | 298 |
| 18.3 Pig-breeding – Production Aims, Suitability of Breed..... | 302 |
| 18.3.1 Production Characteristics of Pigs | 302 |
| 18.3.2 Suitability of Pig Breeds | 302 |
| 18.4 Nutrition and Feeding..... | 303 |
| 18.4.1 Feedstuffs in Organic Pig-breeding | 303 |
| 18.4.2 Feeding particular Categories of Pig in Organic Farming Conditions..... | 304 |
| 18.5 Stabling Systems in Pig-breeding | 307 |
| 18.5.1 Possible stabling Systems for Pigs in Organic Farming .. | 307 |
| 19 Poultry Breeding | 311 |
| 19.1 The Significance of Laying Hens in Organic Farms | 311 |
| 19.2 Ethology and Welfare of Poultry | 311 |
| 19.2.1 Domestication and current Breeds and Hybrids | 311 |
| 19.2.2 Social Behaviour | 311 |
| 19.2.3 Sensory Perception | 312 |
| 19.2.4 Scratching and Feeding | 313 |
| 19.2.5 Biorythm | 313 |
| 19.2.6 Sexual Behaviour | 314 |
| 19.2.7 Growth and Development | 314 |
| 19.2.8 Problems in conventional Breeding | 315 |
| 19.3 Breeding Laying Hens, Suitable Breeds | 315 |
| 19.3.1 Organic breeding of Laying Hens | 315 |
| 19.3.2 Suitability of Breed | 316 |
| 19.3.3 Natural hatching and rearing of Gallinaceous Poultry | 317 |
| 19.4 Nutrition and feeding of Laying Hens | 318 |
| 19.4.1 Feedstuffs in Organic Poultry breeding | 318 |
| 19.4.2 Nutrition in Organic breeding of Hens | 319 |
| 19.5 Housing Laying Hens and Broiler Chickens..... | 320 |
| 19.5.1 Requirements of Council Regulation No 834/2007 for housing laying hens and broiler chickens | 320 |
| 19.5.2 Laying Hens and Broiler Housing Systems | 321 |
| 19.6 Meat Poultry breeding (waterfowl and gallinaceous poultry)..... | 322 |
| 19.6.1 The Significance of Table Poultry in Organic Farming .. | 322 |
| 19.6.2 Ethological Requirements of natural Poultry breeding for Meat | 323 |
| 19.6.3 Poultry Breeds and Hybrids suitable for Meat Production | 324 |
| 19.6.4 Poultry raised for Meat - Nutrition and feeding | 325 |
| 19.6.5 Housing Meat Poultry | 327 |
| References..... | 328 |
