

Soil and Water Research

Volume 12, No. 3

2017

CONTENTS

ORIGINAL SCIENTIFIC PAPERS

- GREGAR J., KOVÁŘ P., BAČINOVÁ H., BAŽATOVÁ T.: Comparison of water regimes of two dump catchments in the Krušné hory Mts. (Czech Republic) in dry years using a hydrological balance 137
- BAŞARAN M., UZUN O., KAPLAN S., GÖRMEZ F., ERPUL G.: Tillage-induced wind erosion in semi-arid fallow lands of Central Anatolia, Turkey 144
- NOLZ R., LOISKANDL W.: Evaluating soil water content data monitored at different locations in a vineyard with regard to irrigation control 152
- GUS M., DREWNIK M.: Evolution of sandy soils within deflation hollows in shifting areas of sand – a case study from the Błędów Desert (Poland) 161
- KISIC I., BOGUNOVIC I., BILANDZIJA D.: The influence of tillage and crops on particle size distribution of water-eroded soil sediment on Stagnosol 170
- DEUMLICH D., JHA A., KIRCHNER G.: Comparing measurements, ⁷Be radiotracer technique and process-based erosion model for estimating short-term soil loss from cultivated land in Northern Germany 177
- BAČINOVÁ H., KOVÁŘ P.: Impact of overland flow on soil characteristics in Třebsín experimental plots 187
