ABSTRACT	3
INTRODUCTION.....	7
1. THEORETICAL ANALYSIS OF THE PROBLEM	9
1.1 Period of the older school age	9
1.1.1 Cognitive development	10
1.1.2 Physical development	10
1.2 Attitude characteristics	12
1.2.1 Classification of attitudes.....	12
1.2.2 Functions, components and formation of attitudes.....	13
1.3 Understanding pupils' attitudes towards physical education and sport	15
1.4 Lifestyle.....	16
1.4.1 Concept of lifestyle.....	16
1.4.2 Lifestyle categories	17
1.4.3 Physical activity	19
1.4.4 Health.....	21
1.5 Health in the school educational system.....	24
1.5.1 State education system and health	24
1.5.2 School projects promoting a healthy lifestyle.....	26
1.6 Free time.....	29
1.6.1 Functions of free time	31
1.6.2 Free time activities.....	33
2. AIM, HYPOTHESES AND TASKS OF RESEARCH	36
2.1 Aim of research	36
2.2 Hypotheses	36
2.3 Tasks.....	36
3. METHODOLOGY OF RESEARCH.....	37
3.1 Characteristic of research groups	37
3.2 Research schedule.....	37
3.3 Methods of data collection	38
3.4 Methods of data processing and data evaluation	39
4. RESEARCH RESULTS AND DISCUSSION.....	41
4.1 Lifestyle and attitudes of pupils towards physical education and sport.	41
4.1.1 Lifestyle factors of primary school pupils.	41

4.1.2	Attitude of primary school pupils towards physical education and sport. ...	45
4.2	Evaluation of pupils' lifestyle and attitudes towards physical education and sport after the experimental project	46
4.2.1	Lifestyle changes of school pupils participating in the experimental project.....	47
4.2.2	Changes in attitudes of primary school pupils towards physical education and sport after the experimental project.....	55
