List of tables	vii		
Foreword	viii		
Preface	ix		
Acknowledgements	x		
1 Introduction	1		
1.1 Overview	3		
1.2 Context	6		
1.3 ITIL in relation to other publications in the Best Management Practice portfolio	8		
1.4 Why is ITIL so successful?	8		
1.5 Chapter summary	10		
2 Service management as a practice	11		
2.1 Services and service management	13		
2.2 Basic concepts	20		
2.3 Governance and management systems	25		
2.4 The service lifecycle	27		
3 Continual service improvement principles	33		
3.1 Continual service improvement approach	35		
3.2 CSI and organizational change	36		
3.3 Ownership	36		
3.4 CSI register	36		
3.5 External and internal drivers	37		
3.6 Service level management	37		
3.7 Knowledge management	38		
3.8 The Deming Cycle	38		
3.9 Service measurement	38		
3.10 IT governance	42		
3.11 Frameworks, models, standards and quality systems	42		
3.12 CSI inputs and outputs	44		
4 Continual service improvement processes	45		
4.1 The seven-step improvement process	47		
5 Continual service improvement methods and techniques	71		
5.1 Methods and techniques	73		
5.2 Assessments	74		
5.3 Benchmarking	79		
5.4 Service measurement	85		
5.5 Metrics	91		
5.6 Return on investment	106		
5.7 Service reporting	111		
5.8 CSI and other service management processes	112		
5.9 Summary	125		
6 Organizing for continual service improvement	127		
6.1 Organizational development	129		
6.2 Functions	129		
6.3 Roles	129		
6.4 Customer engagement	138		
6.5 Responsibility model – RACI	138		
6.6 Competence and training	139		
7 Technology considerations	143		
7.1 Tools to support CSI activities	145		
7.2 Summary	152		

8	Implementing continual service improvement	153	Appendix B: Example of a continual service improvement register	183
8.1	Critical considerations for implementing CSI	155	Appendix C: Risk assessment and management	187
8.2	Where do I start?	155	C.1 Definition of risk and risk management	189
8.3	Governance	156	C.2 Management of Risk (M_o_R)	189
8.4	CSI and organizational change	157	C.3 ISO 31000	190
8.5	Communication strategy and plan	162	C.4 ISO/IEC 27001	191
8.6	Summary	164	C.5 Risk IT	192
9	Challenges, risks and critical success factors	165	Appendix D: Examples of inputs and outputs across the service lifecycle	195
9.1	Challenges	167	Abbreviations and glossary	199
9.2	Critical success factors	167	Index	239
9.3	Risks	167		
9.4	Summary	168		
	Afterword	169		
	Appendix A: Related guidance	173		
A.1	ITIL guidance and web services	175		
A.2	Quality management system	175		
A.3	Risk management	176		
A.4	Governance of IT	176		
A.5	COBIT	176		
A.6	ISO/IEC 20000 service management series	177		
A.7	Environmental management and green/sustainable IT	177		
A.8	ISO standards and publications for IT	178		
A.9	ITIL and the OSI framework	178		
A.10	Programme and project management	179		
A.11	Organizational change	179		
A.12	Skills Framework for the Information Age	180		
A.13	Carnegie Mellon: CMMI and eSCM framework	180		
A.14	Balanced scorecard	180		
A.15	Six Sigma	180		

List of figures

Figure 1.1	The ITIL service lifecycle	3	Figure 4.5	First- to fourth-order drivers	64
Figure 1.2	ITIL's relationship with other Best Management Practice guides	9	Figure 5.1	The relationship of services, processes and systems	77
Figure 2.1	Conversation about the definition and meaning of services	14	Figure 5.2	The value of a process versus the maturity of a process	79
Figure 2.2	Logic of value creation through services	18	Figure 5.3	Availability reporting	86
Figure 2.3	Sources of service management practice	19	Figure 5.4	Service measurement model	88
Figure 2.4	Examples of capabilities and resources	21	Figure 5.5	Technology domain versus service management	89
Figure 2.5	Process model	21	Figure 5.6	Service management model	90
Figure 2.6	The service portfolio and its contents	25	Figure 5.7	From vision to measurement	92
Figure 2.7	Architectural layers of an SKMS	26	Figure 5.8	Number of incidents opened by service desk over time	96
Figure 2.8	Plan-Do-Check-Act cycle	27	Figure 5.9	Comparison of incidents opened and resolved on first contact by the service desk	96
Figure 2.9	Integration across the service lifecycle	30	Figure 5.10	Deriving measurements and metrics from goals and objectives	99
Figure 2.10	Continual service improvement and the service lifecycle	31	Figure 5.11	Reported outage minutes for a service	100
Figure 3.1	Continual service improvement approach	35	Figure 5.12	IT balanced scorecard	104
Figure 3.2	Knowledge management leads to better IT decisions	38	Figure 5.13	The expanded incident lifecycle	114
Figure 3.3	Why do we measure?	39	Figure 5.14	Connecting business and service capacity management	116
Figure 3.4	The seven-step improvement process	40	Figure 5.15	Business capacity growth model	117
Figure 3.5	Knowledge spiral – a gathering activity	41	Figure 5.16	Connecting service and component capacity management	117
Figure 3.6	Enterprise governance (source: CIMA)	42	Figure 5.17	Connecting businesses, service and component capacity management	117
Figure 4.1	From vision to measurements	50	Figure 5.18	Capacity management activities	120
Figure 4.2	Monitoring and data collection procedures	55	Figure 5.19	Sources of knowledge	123
Figure 4.3	Common procedures for processing the data	57	Figure 5.20	Reasons for a risk management process	124
Figure 4.4	Service level achievement chart	62	Figure 6.1	Activities and skill levels needed for continual service improvement	134

Figure 6.2	Service management roles and customer engagement	139
Figure 7.1	The application of the architectural layers of the CMS	147
Figure 7.2	Service-centric view of the IT enterprise	151
Figure 8.1	Process re-engineering changes everything	157
Figure 8.2	Vision becomes blurred	163
Figure 8.3	CSI roles and inputs	164
Figure C.1	The M_o_R framework	190
Figure C.2	ISO 31000 risk management process flow	191
Figure C.3	ISACA Risk IT process framework	193

Figure 1.1	The ITIL service lifecycle	181
Figure 1.2	ITIL's relationship with other best practices	181
Figure 2.1	Conversation about the definition and meaning of services	181
Figure 2.2	Logic of value creation through services	181
Figure 2.3	Sources of service management practice	181
Figure 2.4	Examples of service management practice	181
Figure 2.5	Process model	181
Figure 2.6	The service portfolio and its contents	181
Figure 2.7	Architectural layers of an SKMS	181
Figure 2.8	Plan-Do-Check-Act cycle	181
Figure 2.9	Integration across the service lifecycle	181
Figure 2.10	Continual service improvement and the service lifecycle	181
Figure 3.1	Continual service improvement approach	181
Figure 3.2	Knowledge management leads to better IT decisions	181
Figure 3.3	Why do we measure?	181
Figure 3.4	The seven-step improvement process	181
Figure 3.5	Knowledge spiral -- a gathering activity	181
Figure 3.6	Enterprise governance (source: CIM4)	181
Figure 4.1	From vision to measurements	181
Figure 4.2	Monitoring and data collection procedures	181
Figure 4.3	Common procedures for processing the data	181
Figure 4.4	Service level achievement chart	181

List of tables

Table 2.1	The processes described in each core ITIL publication	29	Table 6.1	Skills involved in Step 1 – Identify the strategy for improvement	135
Table 3.1	CSI inputs and outputs by lifecycle stage	43	Table 6.2	Skills involved in Step 2 – Define what you will measure	135
Table 4.1	Policy template example	49	Table 6.3	Skills involved in Step 3 – Gather the data	135
Table 4.2	Monitoring and data collection procedures	55	Table 6.4	Skills involved in Step 4 – Process the data	135
Table 4.3	Procedures for processing the data	57	Table 6.5	Skills involved in Step 5 – Analyse the information and data	136
Table 5.1	Pros and cons of assessment approaches	76	Table 6.6	Skills involved in Step 6 – Present and use the information	136
Table 5.2	Average results of over 100 process assessments before improvement	84	Table 6.7	Skills involved in Step 7 – Implement improvement	136
Table 5.3	CMMI maturity model	84	Table 6.8	Comparison of CSI manager, service level manager, service owner and business relationship manager roles	137
Table 5.4	Key performance indicators of the value of service management processes	90	Table 6.9	An example of a simple RACI matrix	140
Table 5.5	High-level goals and key performance indicators	91	Table 8.1	Eight steps that need to be implemented, and the main reasons why transformation efforts fail (from Kotter, 1996)	158
Table 5.6	Examples of service quality metrics	94	Table 8.2	Table for sample communication plan	163
Table 5.7	Response times for three service desks	97			
Table 5.8	An example of a summary report format	100			
Table 5.9	Service report of outage minutes compared to goal	101			
Table 5.10	Percentage of incidents meeting target time for service restoration	101			
Table 5.11	Sample key performance indicators	102			
Table 5.12	Service desk balanced scorecard example	105			
Table 5.13	SWOT analysis	107			
Table 5.14	Sample SWOT analysis for CSI	107			
Table 5.15	Departmental requirements	116			
Table 5.16	Risk register	125
