

I. Special Features

IN-DEPTH CLINICAL REVIEWS

- Preserving residual renal function in dialysis patients: an update on evidence to assist clinical decision making**
Krista Dybtved Kjaergaard, Jens Dam Jensen, Christian Daugaard Peters and Bente Jespersen 225
- Spectrum of sodium hypochlorite toxicity in man—also a concern for nephrologists**
Brandon Peck, Biruh Workeneh, Huseyin Kadikoy, Samir J. Patel and Abdul Abdellatif 231

II. Clinical Reports

CASE REPORTS

- Hypnatremia secondary to post-stroke hypodipsia: just add water!**
Maikel Ramthun, Altair Jacob Mocelin and Vinicius Daher Alvares Delfino 236
- Kikuchi–Fujimoto disease associated with systemic lupus erythematosus**
Rapur Ram, Gudithi Swarnalatha, Krishna Prasad Adiraju, Vangipurapu Rangacharlu Srinivasan and Kaligotla Venkata Dakshinamurty 238
- Prolonged renal failure post-percutaneous mechanical thrombectomy**
Jerrin C. Mathews, Unnikrishnan Pillai and Alexander Lacasse 241
- Bilateral renal vein thrombosis due to inapparent polycythaemia**
Ram Rapur, Swarnalatha Gudithi, Krishna Prasad Adiraju, Srinivasan Vangipurapu Rangacharlu and Dakshinamurty Kaligotla Venkata 244
- Polycythaemia treated with nephrectomy**
Anne Daugaard Thuesen and Gudrun Kjær Steffensen 246
- Severe hypocalcaemia and hyperphosphataemia caused by oral sodium phosphate fleet solution in a haemodialysis patient after parathyroidectomy**
Maggie Ming Yee Mok, Terence Yip, Sing Leung Lui, Daniel Tak Mao Chan, Kar Neng Lai and Wai Kei Lo 248
- Catastrophic hypercalcemia as a technical complication in home hemodialysis**
Praveen Murlidharan, Christopher T. Chan and Joanne M. Bargman 251
- Efficacy of crushed lanthanum carbonate for hyperphosphatemia in hemodialysis patients undergoing tube feeding**
Yukie Kitajima, Taeko Takahashi, Yuzuru Sato and Yutaka Nakaya 253

- Monoclonal gammopathy of undetermined significance: a contraindication for living kidney donation?**
Nuria Serra, Ignacio Revuelta, Joan Bladé, Federico Oppenheimer and Josep M. Campistol 256

- Successful kidney transplantation with a well-matched donor despite a positive crossmatch; detection and management of sensitization secondary to an alternate allelic variant of 'self' HLA**
Brendan Clark, Neil Marsden, Katherine McKinley, Andrew Lewington and Chas Newstead 258

III. Educational Features

TEACHING POINTS

- The USual Suspects**
Peter Maginnis, John Anderton, Beena Nair and Alexander Woywodt 260
- An unusual case of hyperphosphatemia in a vitamin D-deficient patient with tuberculosis**
Roland H. Lee, Arnold J. Felsenfeld and Barton S. Levine 264
- There's something fishy about this bleeding**
Adam R. Berliner and Derek M. Fine 270

IMAGES IN NEPHROLOGY

- Complete atherosclerotic occlusion of infra-renal aorta and bilateral renal artery stenosis**
Shalabh Srivastava and Sumith C. Abeygunasekara 273
- Recurrent flank pain from 'lobster claw'**
Swathi Singanamala, Saravan Krishnamoorthy, Mark A. Perazella and Neera K. Dahl 274
- A fast-growing skin lesion in a dialysis patient**
Marco Bonani, Isabelle Binet, Pierre-André Diener and Dimitrios Tsinalis 276

IV. Varia

LETTERS TO THE EDITOR

- Icodextrin-associated hepatotoxicity**
Ozkan Gungor, Fatih Kircelli, Erhan Tatar and Huseyin Toz 278
- Achieving target international normalization ratio in haemodialysis patients with atrial fibrillation: is it feasible?**
Georgios Tsagalis, Henri Gorguet and Isabelle Labbé 279
- Intermittent renal graft obstruction by fungal ball—case report**
Mahendra Atlani and Raj K. Sharma 279
