On behalf of the Organizing Committee, I wish to express my sincere thanks to the Czech Government through Czech Technical Assistance Programme to Developing Countries and Division of Earth Sciences (DPA/NSC) for their generous support. My special thanks belong to Mr. D. Malák (Vice-Director of GEOCHIM Courses) whose help with various organizational matters has been extremely useful. It would not have been possible to organize the course without efforts of members of the Organizing Committee (V. Bláha, K. Čadilka, B. Kříbek and J. Tesal from the Czech Geological Survey in Prague) as well as considerable understanding of the management of the DIAMONDTEAM State Enterprise in Dolní Rožínka and Severočeská Doly a.s. (Chomutov) but not least I wish to thank Dr. A. Nýznerová (CGS Prague) for the assistance during editorial process, all authors who contributed to this volume and all GEOCHIM lecturers.

Prague, March 15<sup>th</sup>, 2003

Jan Pašava  
Director of GEOCHIM Courses
