

WATER MANAGEMENT OF COST ACTION E51  
RHYDROSPHERE TECHNOLOGIES  
Handbook on the principles for designing  
and operation of the hydrological systems

## Sections

### W1

Nutrient resource acquisition efficiency in low-input ecosystems – maintenance of soil fertility ..... 3

### W2

Biological control of pathogens ..... 17

### W3

Carbon sequestration and reduced emissions of greenhouse effect gases ..... 32

### W4

Restoration of ecosystems – maintenance of biodiversity ..... 39
