

# Table of Contents

Composition in exponential families: Case of multivariate normal distribution <i>BÍNA V.</i> . . . . .	9
Causality and Intervention in Business Process Management <i>BÍNA V., JIROUŠEK R.</i> . . . . .	15
Fuzzy Neural Networks on Embedded platforms <i>CERMAK P., MARTINU J.</i> . . . . .	25
Hidden Auto-Conflict in the Theory of Belief Functions <i>DANIEL M., KRATOCHVÍL V.</i> . . . . .	34
The two-sided (max/min, plus) problem is NP-complete <i>GAVALEC M., PONCE D., ZIMMERMANN K.</i> . . . . .	46
F-transform based numerical solution of partial differential equations <i>HOLČAPEK M., VALÁŠEK R.</i> . . . . .	54
Maximizing Minimum Range Methods for Interval Weight Estimation from a Given Pairwise Comparison Matrix <i>INUIGUCHI M., INNAN S.</i> . . . . .	65
Annual planning in badminton using a fuzzy approach <i>KRÍŽKOVÁ Š., GAVALEC M.</i> . . . . .	75
Fuzzy quantifiers on fuzzy four-fold tables <i>KUPKA J., RUSNOK P.</i> . . . . .	82
Transductive Learning Using Feature Spaces Provided by Semidefinite Program- mings <i>KUSUNOKI Y., IWASA K., TATSUMI K.</i> . . . . .	88
Inconsistency of Fuzzy Grey Analytic Hierarchy Process Pairwise Comparison Matrix <i>MLS K.</i> . . . . .	94
Proposal of Probabilistic risk Evaluation for System Development Project Based on Requirements Analysis <i>MOCHIDA S.</i> . . . . .	99
Scheduling Problem on Operation Rooms <i>MOHRI S., ISHII H.</i> . . . . .	109

Linguistic Characterization of Natural Data by Applying Intermediate Quantifiers on Fuzzy Association Rules <i>MURINOVÁ P., BURDA M.</i> . . . . .	115
Experimental Comparison of Three On-Line Fuzzy Classification Systems <i>NAKASHIMA T.</i> . . . . .	127
Triangular Norms in Max-t fuzzy algebras <i>NĚMCOVÁ Z.</i> . . . . .	134
Bivariate Fuzzy Transform Based on Tensor Product of Two Polynomial Spaces in Analysis of Correlation Functions <i>NGUYEN L., HOLČAPEK M.</i> . . . . .	144
Computational Complexity of Coalitional Stable Assignments in Group Activity Selection Games <i>NIWA N., SUZUKI S., TSUBOTA T., SUNG S.-CH.</i> . . . . .	154
Question Selection Methods for Adaptive Testing with Bayesian Networks <i>PLAJNER M., MAGAUINA A., VOMLEL J.</i> . . . . .	164
Strict and Strong Consistency in Pairwise Comparisons Matrix With Fuzzy Elements <i>RAMÍK J.</i> . . . . .	176
A machine learning method for incomplete and imbalanced medical data <i>SALMAN I., VOMLEL J.</i> . . . . .	188
Standard Path Reduction based Algorithm for Optimal Paths in Multi-Objective Networks <i>TAKAHASHI N., YAMAMOTO H., AKIBA T., SUNG S.-CH.</i> . . . . .	196
Separable Hedonic Games and Contractually Stabilities <i>TANAKA M., SUNG S.-CH.</i> . . . . .	204
Identification of Causal Effect in semi-Markovian Model On Example of Economic Model <i>VACHOVA L.</i> . . . . .	212
A Note on Stepwise Solution Concepts for Two and Three Player Bargaining <i>VLACH M.</i> . . . . .	218
Interval estimation for a fuzzy linear regression model <i>YOON J. H., KIM H. K., JUNG H.-Y., LEE W.-J., CHOI S. H.</i> . . . . .	227
