# Contents

**Abbreviations** *xiii*

**Contributors** *xix*

## SECTION 1

### Basic science

- 1 Introduction to basic science** 3  
James T. McKenna and Robert W. McCarley
- 2 An overview of sleep medicine: history, definition, sleep patterns, and architecture** 7  
Sudhansu Chokroverty and Sushanth Bhat
- 3 Neurobiology of REM sleep** 15  
Pierre-Hervé Luppi, Olivier Clément, Christelle Peyron, and Patrice Fort
- 4 Neuroanatomical, neurochemical, and neurophysiological bases of waking and sleeping** 23  
Barbara E. Jones
- 5 The genetics of sleep** 33  
Alexandra Sousek and Mehdi Tafti
- 6 Physiological changes in sleep** 43  
Sudhansu Chokroverty and Sushanth Bhat

## SECTION 2

### Laboratory evaluation

- 7 Polysomnography: technique and indications** 55  
Nic Butkov
- 8 Scoring of sleep stages, breathing, and arousals** 71  
Marco De Los Santos and Max Hirshkowitz

- 9 Other sleep laboratory procedures (MSLT, MWT, actigraphy)** 81

Fabio Pizza and Carlo Cipolli

- 10 Scoring guidelines for sleep-related movements** 89

Michela Figorilli, Monica Puligheddu, and Raffaele Ferri

- 11 Neuroimaging in normal sleep and sleep disorders** 97

Pierre Maquet and Julien Fanielle

## SECTION 3

### Clinical science: general introduction

- 12 Clinical sleep medicine: an introduction** 107  
Jennifer A. Liebenthal and Christian Guilleminault
- 13 Classification of sleep disorders** 109  
Michael Thorpy

## SECTION 4

### Hypersomnias

- 14 Narcolepsy with cataplexy** 119  
Gert Jan Lammers
- 15 Idiopathic hypersomnia, Kleine–Levin syndrome, and symptomatic hypersomnias** 131  
Michel Billiard and Yves Dauvilliers
- 16 Obstructive sleep apnea and upper airway resistance syndrome** 145  
Cristina Embid and Josep M. Montserrat

**17 Positive airway pressure therapy** 159

Dirk Pevernagie

**18 Central sleep apnea and hypoventilation syndromes** 167

Mithri R. Junna, Bernardo J. Selim, and Timothy I. Morgenthaler

**SECTION 5****Insomnias****19 Insomnias: classification, evaluation, and pathophysiology** 177

Simon D. Kyle and Colin A. Espie

**20 Pharmacological and non-pharmacological treatments of insomnia** 189

Elisabeth Hertenstein, Christoph Nissen, and Dieter Riemann

**SECTION 6****Circadian rhythm disorders****21 Shift work sleep disorder and jet lag** 203Vivek Pillai<sup>†</sup> and Christopher L. Drake**22 Advanced, delayed, free-running, and irregular sleep–wake rhythm disorders** 215

Guy Warman and Josephine Arendt

**SECTION 7****Sleep neurology****23 Sleep-related movement disorders** 227

Alessandro Gradassi and Federica Provini

**24 Restless legs syndrome/Willis–Ekbom disease** 237

Luigi Ferini-Strambi and Sara Marelli

**25 An overview of sleep dysfunction in Parkinson disease** 245

Elisaveta Sokolov and K. Ray Chaudhuri

**26 Sleep disorders in neurodegenerative diseases other than Parkinson disease and multiple system atrophy** 255

Raffaele Manni and Michele Terzaghi

**27 Sleep and stroke** 263

Mark Eric Dyken, Kyoung Bin Im, George B. Richerson, and Deborah C. Lin-Dyken

**28 Sleep and epilepsy** 279

Lino Nobili, Paola Proserpio, Steve Gibbs, and Giuseppe Plazzi

**29 Autonomic dysfunction and sleep disorders** 291

Giovanna Calandra-Buonaura and Pietro Cortelli

**30 Neuromuscular disorders and sleep** 301

Katerina Sajgalikova, Erik K. St. Louis, and Peter Gay

**31 Sleep in other neurological disorders—headache** 313

Pradeep Sahota and Niranjana N. Singh

**32 Sleep after traumatic brain injury** 325

Christian R. Baumann

**33 Sleep disorders in multiple sclerosis** 327

Luigi Ferini-Strambi and Sara Marelli

**34 Sleep and dreams: a clinical neurological perspective** 333

Mark Solms

**35 Neurological diseases and their effects on the sleep–wake cycle** 345

Paul J. Reading

**36 Clinical and neurophysiological aspects of fatigue** 355

Sushanth Bhat and Sudhansu Chokroverty

**37 Role of positive pressure therapy on sleep disordered breathing and cognition in the elderly** 367

Molly E. Zimmerman and Mark S. Aloia

**SECTION 8****Parasomnias****38 REM sleep behavior disorder** 375

Ronald B. Postuma

**39 NREM and other parasomnias** 383

Caterina Ferri, Maria Turchese Caletti, and Federica Provini

**SECTION 9****Sleep and medical disorders****40 Sleep and the heart** 395

Winfried J. Randerath and Shahrokh Javaheri

- 41 Pulmonary disorders and sleep** 409  
Sandrine H. Launois and Patrick Lévy
- 42 Gastrointestinal functioning during sleep** 415  
William C. Orr
- 43 Sleep in chronic renal insufficiency** 419  
Giorgos K. Sakkas and Christoforos D. Giannaki
- 44 Sleep in endocrine disorders** 423  
Axel Steiger
- 45 Sleep disturbances in critically ill patients** 429  
Gerald L. Weinhouse
- 46 Sleep and pain: interactions and syndromes** 433  
Gilles J. Lavigne, Samar Khoury, Caroline Arbour, and Nadia Gosselin

## SECTION 10

### Sleep and psychiatric disorders

- 47 Depression and anxiety disorders** 443  
Susan Mackie and John W. Winkelman
- 48 Sleep in other psychiatric disorders** 451  
Sara Dallaspezia and Francesco Benedetti

## SECTION 11

### Sleep in children, older adults, and women

- 49 Childhood sleep–wake disorders** 459  
Suresh Kotagal and Julie M. Baughn
- 50 Sleep in older adults** 469  
Rosalia Silvestri
- 51 Sleep and its disorders in women** 475  
Milena Pavlova

## SECTION 12

### Miscellaneous sleep-related topics

- 52 Violent parasomnias and sleep forensics** 485  
Michel A. Cramer Bornemann and Mark R. Pressman
- 53 Morbidity, mortality, societal impact, and accident in sleep disorders** 503  
Sergio Garbarino
- 54 Sleep at high altitude and during space travel** 515  
Yvonne Nussbaumer-Ochsner and Konrad E. Bloch

**Index** 529
