

# Contents

<b>General Pharmacology</b> .....	1
History of Pharmacology .....	2
Drug Sources .....	4
Drug and Active Principle .....	6
Drug Development .....	8
Drug Administration .....	12
Dosage Forms for Oral, and Nasal Applications .....	12
Dosage Forms for Parenteral Pulmonary .....	14
Rectal or Vaginal, and Cutaneous Application .....	16
Drug Administration by Inhalation .....	18
Dermatologic Agents .....	20
From Application to Distribution .....	22
Cellular Sites of Action .....	24
Potential Targets of Drug Action .....	26
Distribution in the Body .....	28
External Barriers of the Body .....	30
Blood-Tissue Barriers .....	32
Membrane Permeation .....	34
Possible Modes of Drug Distribution .....	38
Binding to Plasma Proteins .....	40
Drug Elimination .....	42
The Liver as an Excretory Organ .....	44
Biotransformation of Drugs .....	46
Enterohepatic Cycle .....	48
The Kidney as Excretory Organ .....	50
Elimination of Lipophilic and Hydrophilic Substances .....	50
Pharmacokinetics .....	52
Drug Concentration in the Body as a Function of Time. .....	54
First-Order (Exponential) Rate Processes .....	56
Time Course of Drug Concentration in Plasma .....	58
Time Course of Drug Plasma Levels During Repeated .....	50
Dosing and During Irregular Intake .....	50
Accumulation: Dose, Dose Interval, and Plasma Level Fluctuation .....	52
Change in Elimination Characteristics During Drug Therapy .....	54
Quantification of Drug Action .....	56
Dose-Response Relationship .....	58
Concentration-Effect Relationship – Effect Curves .....	60
Concentration-Binding Curves .....	62
Drug-Receptor Interaction .....	64
Types of Binding Forces .....	66
Agonists-Antagonists .....	66
Enantioselectivity of Drug Action .....	68
Receptor Types .....	68
Mode of Operation of G-Protein-Coupled Receptors .....	70
Time Course of Plasma Concentration and Effect .....	
Adverse Drug Effects .....	

Drug Allergy .....	72
Drug Toxicity in Pregnancy and Lactation .....	74
Drug-independent Effects	
Bacins – Homeopathy .....	76
<b>Systems Pharmacology</b> .....	79
<b>Drug Acting on the Sympathetic Nervous System</b>	
Sympathetic Nervous System .....	80
Structure of the Sympathetic Nervous System .....	82
Adrenoceptor Subtypes and Catecholamine Actions .....	84
Structure – Activity Relationship of Sympathomimetics .....	86
Indirect Sympathomimetics .....	88
$\alpha$ -Sympathomimetics, $\alpha$ -Sympatholytics .....	90
$\beta$ -Sympatholytics ( $\beta$ -Blockers) .....	92
Types of $\beta$ -Blockers .....	94
Inototropics .....	96
<b>Drug Acting on the Parasympathetic Nervous System</b>	
Parasympathetic Nervous System .....	98
Cholinergic Synapse .....	100
Parasympathomimetics .....	102
Parasympatholytics .....	104
<b>Motor</b>	
Colonic Transmission .....	108
Effects of Nicotine on Body Functions .....	110
Consequences of Tobacco Smoking .....	112
<b>Biogenic Amines</b>	
Biogenic Amines – Actions and Pharmacological Implications .....	114
Serotonin .....	116
<b>Mediators</b>	
Vasodilators – Overview .....	118
Organic Nitrates .....	120
Calcium Antagonists .....	122
Inhibition of the RAA System .....	124
<b>Drug Acting on Smooth Muscle</b> .....	
Drug Used to Influence Smooth Muscle Organs .....	126
<b>Cardiac Drugs</b>	
Overview of Modes of Action .....	128
Cardiac Glycosides .....	130
Antiarrhythmic Drugs .....	134
Electrophysiological Actions of Antiarrhythmics of the $K^+$ -Channel Blocking Type .....	136
<b>Anaemias</b>	
Drug for the Treatment of Anemias .....	138
Iron Compounds .....	140
<b>Antithrombotics</b>	
Prophylaxis and Therapy of Thromboses .....	142
Glycosamin Derivatives – Heparin .....	144
Fibrinolytic Therapy .....	146
Intra-arterial Thrombus Formation .....	148
Removal, Activation, and Aggregation of Platelets .....	148

## VIII Contents

Inhibitors of Platelet Aggregation .....	150
Presystemic Effect of Acetylsalicylic Acid .....	150
Adverse Effects of Antiplatelet Drugs .....	150
Plasma Volume Expanders .....	152
Drugs used in Hyperlipoproteinemias	
Lipid-Lowering Agents .....	154
Diuretics	
Diuretics – An Overview .....	158
NaCl Reabsorption in the Kidney .....	160
Osmotic Diuretics .....	160
Diuretics of the Sulfonamide Type .....	162
Potassium-Sparing Diuretics .....	164
Antidiuretic Hormone (ADH) and Derivatives .....	164
Drugs for the Treatment of Peptic Ulcers	
Drugs for Gastric and Duodenal Ulcers .....	166
Laxatives .....	170
Antidiarrheals	
Antidiarrheal Agents .....	178
Other Gastrointestinal Drugs .....	180
Drugs Acting on Motor Systems	
Drugs Affecting Motor Function .....	182
Muscle Relaxants .....	184
Depolarizing Muscle Relaxants .....	186
Antiparkinsonian Drugs .....	188
Antiepileptics .....	190
Drugs for the Suppression of Pain, Analgesics, Pain Mechanisms and Pathways .....	194
Antipyretic Analgesics	
Eicosanoids .....	196
Antipyretic Analgesics and Antiinflammatory Drugs	
Antipyretic Analgesics .....	198
Antipyretic Analgesics	
Nonsteroidal Antiinflammatory (Antirheumatic) Agents .....	200
Thermoregulation and Antipyretics .....	202
Local Anesthetics .....	204
Opioids	
Opioid Analgesics – Morphine Type .....	210
General Anesthetic Drugs	
General Anesthesia and General Anesthetic Drugs .....	216
Inhalational Anesthetics .....	218
Injectable Anesthetics .....	220
Hypnotics	
Soporifics, Hypnotics .....	222
Sleep-Wake Cycle and Hypnotics .....	224
Psychopharmacologicals	
Benzodiazepines .....	226
Pharmacokinetics of Benzodiazepines .....	228
Therapy of Manic-Depressive Illness .....	230
Therapy of Schizophrenia .....	236
Psychotomimetics (Psychedelics, Hallucinogens) .....	240

<b>Hormones</b>	
Hypothalamic and Hypophyseal Hormones .....	242
Thyroid Hormone Therapy .....	244
Hyperthyroidism and Antithyroid Drugs .....	246
Glucocorticoid Therapy .....	248
Androgens, Anabolic Steroids, Antiandrogens .....	252
Follicular Growth and Ovulation, Estrogen and Progesterin Production .....	254
Oral Contraceptives .....	256
Insulin Therapy .....	258
Treatment of Insulin-Dependent Diabetes Mellitus .....	260
Treatment of Maturity-Onset (Type II) Diabetes Mellitus .....	262
Drugs for Maintaining Calcium Homeostasis .....	264
<b>Antibacterial Drugs</b>	
Drugs for Treating Bacterial Infections .....	266
Inhibitors of Cell Wall Synthesis .....	268
Inhibitors of Tetrahydrofolate Synthesis .....	272
Inhibitors of DNA Function .....	274
Inhibitors of Protein Synthesis .....	276
Drugs for Treating Mycobacterial Infections .....	280
<b>Antifungal Drugs</b>	
Drugs Used in the Treatment of Fungal Infection .....	282
<b>Antiviral Drugs</b>	
Chemotherapy of Viral Infections .....	284
Drugs for Treatment of AIDS .....	288
<b>Disinfectants</b>	
Disinfectants and Antiseptics .....	290
<b>Antiparasitic Agents</b>	
Drugs for Treating Endo- and Ectoparasitic Infestations .....	292
Antimalarials .....	294
<b>Anticancer Drugs</b>	
Chemotherapy of Malignant Tumors .....	296
<b>Immune Modulators</b>	
Modulation of Immune Responses .....	300
<b>Toxins</b>	
Toxins and treatment of poisonings .....	302
<b>Therapy of Selected Diseases</b>	
Angina Pectoris .....	306
Antianginal Drugs .....	308
Acute Myocardial Infarction .....	310
Hypertension .....	312
Hypotension .....	314
Gout .....	316
Disseminated Intravascular Coagulation .....	318
Rheumatoid Arthritis .....	320
Migraine .....	322
Common Cold .....	324
Allergic Disorders .....	326
Bronchial Asthma .....	328
Emesis .....	330
