

## CONTENTS

|  |     |
|--|-----|
| Introduction .....   | 9   |
| General morphology of glomerulonephritis and assessment of important histological findings .....   | 11  |
| Groups of patients .....   | 15  |
| Methods of examination and analysis .....  | 18  |
| Classification of primary glomerulopathies by urinary syndromes .....  | 21  |
| 1. Normal urinary findings .....   | 23  |
| 2. Urinary syndrome of isolated low proteinuria .....  | 23  |
| 3. Urinary syndrome of isolated haematuria .....   | 25  |
| 4. Urinary syndrome of isolated high (selective) proteinuria .....   | 28  |
| 5. Urinary syndrome of predominant (gross) haematuria .....  | 30  |
| 6. Urinary syndrome of predominant (non-selective) proteinuria .....   | 33  |
| 7a) Urinary syndrome of combined proteinuria and haematuria of a mild degree .....   | 35  |
| 7b) Urinary syndrome of combined proteinuria and haematuria of a middle degree .....   | 37  |
| 7c) Urinary syndrome of combined proteinuria and haematuria of a severe degree .....   | 39  |
| Subacute, rapidly progressive glomerulonephritis (RPGN) .....  | 45  |
| Glomerulonephritis with predominant involvement of mesangium .....   | 52  |
| Glomerulonephritis with minimal endocapillary lesions .....  | 54  |
| Mesangial proliferative glomerulonephritis .....   | 58  |
| Membranoproliferative glomerulonephritis (type I MPGN) .....   | 65  |
| Type II membranoproliferative glomerulonephritis .....   | 80  |
| IgA nephropathy .....  | 83  |
| Membranous glomerulonephritis .....  | 94  |
| Focal and segmental glomerulosclerosis (FSG) .....   | 104 |
| Comparison of membranous glomerulonephritis with focal and segmental glomerulosclerosis .....  | 113 |
| Effect of combined immunosuppressive, anticoagulation and antiaggregation therapy<br>on the course of chronic mesangial proliferative glomerulonephritis ..... | 115 |
| Literature .....   | 122 |
| Glomérulonéphrite primitive. Les aspects cliniques et morphologiques du diagnostic<br>et du pronostic (Résumé) .....   | 130 |
| Primäre Glomerulonephritis. Klinische und morphologische Aspekte von Diagnose<br>und Prognose (Zusammenfassung) .....  | 132 |
