

CONTENTS

- 271 This month in J Lab Clin Med. *Dale E. Hammerschmidt, Minneapolis, Minn*

ORIGINAL ARTICLES

- 274 Signaling and regulatory mechanisms of integrin α 3 β 1 on the apoptosis of cultured rat podocytes. *Chien-An Chen, Jer-Chia Tsai, Pin-Wen Su, Yung-Hsiung Lai, and Hung-Chun Chen, Kaohsiung, Taiwan*
- 281 Platelet-activating factor (PAF) increase intracellular lipid accumulation by increasing both LDL and scavenger receptors in human mesangial cells. *Elizabeth Fragopoulou, Christos Iatrou, Smaragdi Antonopoulou, Xiong-Zhong Ruan, Ray L. Fernando, Stephen H. Powis, John F. Moorhead, and Zac Varghese, Athens, Greece and London, United Kingdom*
- 290 Blood storage at 4°C—factors involved in DNA yield and quality. *Andrea J. Richardson, Niro Narendran, Robyn H. Guymmer, Hien Vu, and Paul N. Baird, Melbourne and Sydney, Australia*
- 295 Evaluation of MLPA for the detection of cryptic subtelomeric rearrangements. *Sandra Monfort, Carmen Orellana, Silvestre Oltra, Mónica Roselló, Miriam Guitart, and Francisco Martínez, Valencia and Barcelona, Spain*
- 301 Mesangial autoantigens in IgA nephropathy: matrix synthesis and localization. *Angela M. Darvill and Francis W. Ballardie, Manchester, United Kingdom*

- 310 Expression of inflammation-related genes in endothelial cells is not directly affected by micro-particles from preeclamptic patients. *Christianne Anne Rachel Lok, Anita N. Böing, Pieter H. Reitsma, Joris A. M. Van Der Post, Ed Van Bavel, Kees Boer, Auguste Sturk, and Rienk Nieuwland, Amsterdam, The Netherlands*
- 321 Successful reperfusion for acute ST elevation myocardial infarction is associated with a decrease in WBC count. *Jaap Jan J. Smit, Jan Paul Ottervanger, Robbert J. Slingerland, Harry Suryapranata, Jan C.A. Hoorntje, Jan Henk E. Dambrink, A.T. Marcel Gosselink, Menko-Jan De Boer, and Arnoud W.J. Van 't Hof, Zwolle, The Netherlands*
