

# Journal of AGROBIOLOGY

---

Volume 27, Number 1 (2010)

## CONTENTS

### ORIGINAL ARTICLES

**Effect of soil temperature and moisture on the pathogenicity of two species of entomopathogenic nematodes (Rhabditida: Steinernematidae)**

*Štěpánka Radová, Zuzana Trnková* 1–7

**Agronomic characteristics of the spring forms of the wheat landraces (einkorn, emmer, spelt, intermediate bread wheat) grown in organic farming**

*Petr Konvalina, Ivana Capouchová, Zdeněk Stehno, Jan Moudrý* 9–17

**Can pre-colonisation of the soil substrate increase the efficacy of entomopathogenic nematodes (Rhabditida: Steinernematidae)?**

*Štěpánka Radová* 19–25

**Content of selected biologically active compounds in tea infusions of widely used European medicinal plants**

*Eva Dadáková, Naděžda Vrchotová, Jan Tříška* 27–34

**Analysis of longterm trends in the performance of dairy cows on low-input mountain farms**

*Jan Frelich, Martin Šlachta, Milan Kobes* 35–40

**Reasons for the culling of dairy cows on low-input mountain farms**

*Jan Frelich, Martin Šlachta, Milan Kobes* 41–48
