

## Table of contents

### Neuro-ophthalmology and neuro-otology

Edited by Thomas Brandt

- 1 **Modelling brain function: the vestibulo-ocular reflex: editorial comment**  
Thomas Brandt
- 5 **Ocular motor disorders**  
Dominik Straumann and T Haslwanter
- 11 **Acute vestibulopathy**  
Michael Strupp and Viktor Arbusow
- 21 **Vestibular evoked potentials**  
James G Colebatch
- 27 **The endocrine system, vertigo and balance**  
Barry M Seemungal, Michael A Gresty and Adolfo M Bronstein
- 35 **Autoimmune inner ear disorders**  
Allen F Ryan, Elizabeth M Keithley and Jeffrey P Harris
- 41 **Psychiatric consequences of vestibular dysfunction**  
Rolf G Jacob and Joseph M Furman
- 47 **Imaging image processing in the human brain**  
Guy A Orban

### Cerebrovascular disease

Edited by Gian Luigi Lenzi

- 55 **The fight against stroke: victories, defeats, strategies: editorial review**  
Altieri Marta, Di Piero Vittorio and Gian Luigi Lenzi
- 59 **Stroke prophylaxis in nonvalvular atrial fibrillation**  
Tammy J Bungard, Ashfaq Shuaib and Ross T Tsuyuki
- 67 **Imaging in cerebrovascular disease**  
Wolf-Dieter Heiss, Michael Forsting and Hans-Christoph Diener
- 77 **Silent stroke: pathogenesis, genetic factors and clinical implications as a risk factor**  
Junichi Masuda, Toru Nabika and Yoshitomo Notsu
- 83 **The ischaemic penumbra**  
Omar Touzani, Simon Roussel and Eric T Mackenzie
- 89 **Cerebral ischemia and inflammation**  
Costantino Iadecola and Mihaela Alexander
- 95 **Homocysteine and stroke**  
Graeme J Hankey and John W Eikelboom
- 103 **Intracerebral hemorrhage: update**  
Daniel L Labovitz and Ralph L Sacco

### Current world literature

- 109 **Contents**
- 109 **Neuro-ophthalmology and neuro-otology**
- 118 **Cerebrovascular disease**
