List of abbreviations	XIII
Introduction	XV
CHAPTER I	
Literature survey	1
1.1 General	1
1.2 The morphological tradition	1
1.2.1 Lees	2
1.2.2 Levi	4
1.2.3 Van Lint	7
1.2.4 Zimmer	8
1.2.5 Downing	10
1.2.6 Allen	13
1.3 Basic psycholinguistic models	13
1.3.1 Slot-filling models	14
1.3.1.1 Concept Specialization Model	14
1.3.1.2 Hampton's Model of Attribute Inheritance	16
1.3.1.3 Selective Modification Model	17
1.3.2 Relation models	19
1.3.2.1 Coolen et al.'s semantic representation model	19
1.3.2.2 Gagné & Shoben's thematic relation model	21
1.3.3 Analogy-based models	23
1.3.3.1 Ryder's cognitive approach	23
1.3.3.2 Coolen, van Jaarsveld, and Schreuder	26
1.3.4 Combined and other models	27
1.3.4.1 Finin's artificial intelligence framework	27
1.3.4.2 Meyer's knowledge representation model	28
1.3.4.3 Wisniewski's two-process model	30
1.3.4.4 Libben's semantic transparency model	32

1.3.5	Non-compound interpretation models	34
1.3.5.1	The Clarks' 'contextuals'	34
1.3.5.2	Beard's transpositions	36
1.3.5.3	Kiparsky's principle of canonical features	36
1.3.5.4	Dokulil's meaning predictability	38
1.4	Summary	39
CHAPTER 2		
	<b>General word formation framework</b>	<b>43</b>
2.1	An onomasiological model of word formation	43
2.2	Onomasiological Types	51
CHAPTER 3		
	<b>A theory of predictability</b>	<b>55</b>
3.1	Why context-free meaning predictability?	55
3.2	Predictability – lexical meaning – conceptualisation – extra-linguistic knowledge	58
3.3	Predictability and the native/non-native speaker factor	61
3.4	Predictability and seme level	62
3.5	The meaning-prediction process	70
3.5.1	Predictability and the Onomasiological Type	72
3.5.1.1	Onomasiological Type 1	73
3.5.1.2	Onomasiological Type 2	74
3.5.1.3	Onomasiological Type 4	75
3.5.1.4	Onomasiological Type 3	76
3.5.1.5	Summary	79
3.5.1.6	Idiosyncrasies of Onomasiological Type 5	81
3.5.1.7	Predictability of recategorised proper names	82
3.6	Onomasiological Structure Rules	85
3.7	Predictability and productivity	88
3.8	Predictability and typicality	91
3.9	Predictability Rate	94
3.10	Objectified Predictability Rate	95
3.11	Hypotheses	97
CHAPTER 4		
	<b>The Experiments</b>	<b>99</b>
4.1	Method	99
4.2	Experiment 1	102

---

4.2.1	Sample naming units	103
4.2.2	Experimental data and their analysis	104
4.2.2.1	baby book	104
4.2.2.2	dog spade	109
4.2.2.3	flower hat	115
4.2.2.4	ball hammer	119
4.2.2.5	hill star	124
4.2.2.6	apple-juice seat	128
4.2.2.7	game wheel	133
4.2.2.8	shape cloth	136
4.2.2.9	garden whisky	139
4.2.2.10	age bag	143
4.2.3	Summary 1	147
4.2.3.1	Native speakers vs. non-native speakers	147
4.2.3.2	Predictability Rates	151
4.2.3.3	Meaning predictability and dominant readings	153
4.2.3.4	Objectified Predictability Rate	154
4.2.3.5	Seme level	156
4.2.3.6	Tendencies	157
4.3	Experiment 2	159
4.3.1	Sample naming units	159
4.3.2	Experimental data and their analysis	159
4.3.2.1	to boy	159
4.3.2.2	to lion	162
4.3.2.3	to tulip	165
4.3.2.4	to cableway	168
4.3.2.5	to planet	170
4.3.2.6	to river	172
4.3.2.7	to conference	174
4.3.2.8	to triangle	177
4.3.2.9	to courtyard	179
4.3.2.10	to morning	182
4.3.3	Summary 2	184
4.3.3.1	Native speakers vs. non-native speakers	185
4.3.3.2	Meaning predictability and dominant readings	186
4.3.3.3	Seme level	190
4.3.3.4	Main group vs. check group	190
4.3.3.5	Objectified Predictability Rate	191
4.3.3.6	Tendencies	193

- 4.4 Experiment 3 195
  - 4.4.1 Sample naming units 195
  - 4.4.2 Experimental data and their analysis 196
    - 4.4.2.1 blondesjoker 196
    - 4.4.2.2 feather-dialler 198
    - 4.4.2.3 contactee 200
    - 4.4.2.4 refusnik 201
    - 4.4.2.5 anthraxist 203
    - 4.4.2.6 smile-man 204
    - 4.4.2.7 removage 206
    - 4.4.2.8 befoot 208
    - 4.4.2.9 obsess<sub>N</sub> 209
    - 4.4.2.10 leave-behind<sub>N</sub> 210
  - 4.4.3 Summary 3 211
- 4.5 Experiment 4 216
  - 4.5.1 Sample naming units 216
  - 4.5.2 Experimental data and their analysis 217
  - 4.5.3 Discussion 221
  - 4.5.4 Summary 4 229
- 4.6 Meaning predictability and associative meaning:  
The experimental results in the light of free association  
of words 230
  - 4.6.1 Meaning predictability of conversions and the  
associative principle 233
  - 4.6.2 Summary 5 235
  - 4.6.3 Meaning predictability of two-constituent naming units  
and the associative principle 237
  - 4.6.4 Summary 6 240

## CHAPTER 5

### Conclusions

241

- 5.1 General 241
- 5.2 Conclusions 245
  - Conclusion 1 Meaning prediction capacity 245
  - Conclusion 2 No 'correct' reading 246
  - Conclusion 3 Prototypical semes 246
  - Conclusion 4 Crucial role of extra-linguistic knowledge  
and experiences 249
  - Conclusion 5 Preference for stable relationships 251

---

Conclusion 6	Acceptable Word Formation Types	252
Conclusion 7	Word formation types and meaning predictability	254
Conclusion 8	Onomasiological type and Predictability Rate	254
Conclusion 9	Objectified Predictability Rate	256
Conclusion 10	One (two) dominant reading(s), or potential vs. predictable readings	257
Conclusion 11	Single-occurrence readings	257
Conclusion 12	Analogy	258
Conclusion 13	Meaning predictability and associative meaning	259
Conclusion 14	Interplay of factors	259
Conclusion 15	Meaning predictability boosting and reducing conditions	260
