Preface

vii

Case Studies

xxvii

Part One Principles and Concepts

1

1 Economics, Institutions, and Development: A Global Perspective

2

How the Other Half Live

2

Economics and Development Studies

6

The Nature of Development Economics 7

Why Study Development Economics? Some Critical Questions 9

The Important Role of Values in Development Economics 12

Economies as Social Systems: The Need to Go Beyond Simple Economics

13

What Do We Mean by Development?

14

Traditional Economic Measures 14

The New Economic View of Development 15

Sen's "Capabilities" Approach 16

Three Core Values of Development 20

The Central Role of Women 22

The Three Objectives of Development 22

The Millennium Development Goals 22

Conclusions 25

■ **Case Study:** Progress in the Struggle for More Meaningful Development: Brazil

28

2 Comparative Economic Development

39

Defining the Developing World

41

Measuring Development for Quantitative Comparison across Countries

43

Some Basic Indicators of Development

48

A Holistic Measure of Living Levels: The Human Development Index 49

Characteristics of the Developing World: Diversity within Commonality

56

Lower Levels of Living and Productivity 56

Lower Levels of Human Capital	58
Higher Levels of Inequality and Absolute Poverty	59
Higher Population Growth Rates	62
Greater Social Fractionalization	63
Larger Rural Populations but Rapid Rural-to-Urban Migration	64
Lower Levels of Industrialization and Manufactured Exports	65
Adverse Geography	66
Underdeveloped Financial and Other Markets	67
Lingering Colonial Impacts	68
Relative Importance of the Public and Private Sectors and Civil Society	70

How Low-Income Countries Today Differ from Developed Countries in Their Earlier Stages

Physical and Human Resource Endowments	72
Relative Levels of Per Capita Income and GDP	72
Climatic Differences	73
Population Size, Distribution, and Growth	73
The Historical Role of International Migration	74
The Growth Stimulus of International Trade	76
Basic Scientific and Technological Research and Development Capabilities	77
Efficacy of Domestic Institutions	77

Are Living Standards of Developing and Developed Nations Converging?

78

Long-Run Causes of Comparative Development

82

Conclusion

88

■ Case Study: Divergent Development: Pakistan and Bangladesh

91

3 Classic Theories of Economic Growth and Development

109

Classic Theories of Economic Development: Four Approaches

109

Development as Growth and the Linear-Stages Theories

110

Rostow's Stages of Growth	111
The Harrod-Domar Growth Model	112
Obstacles and Constraints	114
Necessary versus Sufficient Conditions: Some Criticisms of the Stages Model	114

Structural-Change Models

115

The Lewis Theory of Development	115
Structural Change and Patterns of Development	120
Conclusions and Implications	121

The International-Dependence Revolution

122

The Neocolonial Dependence Model	122
The False-Paradigm Model	124
The Dualistic-Development Thesis	124
Conclusions and Implications	125

The Neoclassical Counterrevolution: Market Fundamentalism

126

Challenging the Statist Model: Free Markets, Public Choice, and Market-Friendly Approaches	126
--	-----

	Traditional Neoclassical Growth Theory	128
	Conclusions and Implications	129
	Classic Theories of Development: Reconciling the Differences	131
■	Case Study: Schools of Thought in Context: South Korea and Argentina	133
	Appendix 3.1 Components of Economic Growth	142
	Appendix 3.2 The Solow Neoclassical Growth Model	147
	Appendix 3.3 Endogenous Growth Theory	151
4	Contemporary Models of Development and Underdevelopment	158
	Underdevelopment as a Coordination Failure	159
	Multiple Equilibria: A Diagrammatic Approach	162
	Starting Economic Development: The Big Push	167
	The Big Push: A Graphical Model	168
	Other Cases in Which a Big Push May Be Necessary	173
	Why the Problem Cannot Be Solved by a Super-Entrepreneur	174
	Further Problems of Multiple Equilibria	176
	Kremer's O-Ring Theory of Economic Development	179
	The O-Ring Model	179
	Implications of the O-Ring Theory	182
	Economic Development as Self-Discovery	184
	The Hausmann-Rodrik-Velasco Growth Diagnostics Framework	185
	Conclusions	188
■	Case Study: Understanding a Development Miracle: China	193

Part Two Problems and Policies: Domestic 207

5	Poverty, Inequality, and Development	208
	Measuring Inequality and Poverty	210
	Measuring Inequality	210
	Measuring Absolute Poverty	217
	Poverty, Inequality, and Social Welfare	222
	What's So Bad about High Inequality?	222
	Dualistic Development and Shifting Lorenz Curves: Some Stylized Typologies	224
	Kuznet's Inverted-U Hypothesis	227
	Growth and Inequality	232
	Absolute Poverty: Extent and Magnitude	233
	Growth and Poverty	236
	Economic Characteristics of Poverty Groups	238
	Rural Poverty	238

Women and Poverty	239	
Ethnic Minorities, Indigenous Populations, and Poverty	243	
Policy Options: Some Basic Considerations		244
Areas of Intervention	244	
Policy Options	245	
Summary and Conclusions: The Need for a Package of Policies		250
■ Case Study: Making Microfinance Work for the Poor: The Grameen Bank of Bangladesh		252
Appendix 5.1 Appropriate Technology and Employment Generation: The Price Incentive Model		266
Appendix 5.2 The Ahluwalia-Chenery Welfare Index		269
6 Population Growth and Economic Development: Causes, Consequences, and Controversies		273
The Basic Issue: Population Growth and the Quality of Life		274
Population Growth: Past, Present, and Future		275
World Population Growth throughout History	275	
Structure of the World's Population	277	
The Hidden Momentum of Population Growth	281	
The Demographic Transition		283
The Causes of High Fertility in Developing Countries: The Malthusian and Household Models		286
The Malthusian Population Trap	286	
Criticisms of the Malthusian Model	289	
The Microeconomic Household Theory of Fertility	291	
The Demand for Children in Developing Countries	293	
Some Empirical Evidence	294	
Implications for Development and Fertility	295	
The Consequences of High Fertility: Some Conflicting Opinions		295
It's Not a Real Problem	296	
It's a Deliberately Contrived False Issue	297	
It's a Desirable Phenomenon	298	
It Is a Real Problem	299	
Goals and Objectives: Toward a Consensus		302
Some Policy Approaches		303
What Developing Countries Can Do	304	
What the Developed Countries Can Do	307	
How Developed Countries Can Help Developing Countries with Their Population Programs	308	
Conclusion		309
■ Case Study: Population, Poverty, and Development: China and India		310

7	Urbanization and Rural-Urban Migration: Theory and Policy	320
	The Migration and Urbanization Dilemma	320
	Urbanization Trends and Projections	321
	The Role of Cities	327
	Industrial Districts	327
	Efficient Urban Scale	329
	The Urban Giantism Problem	331
	First-City Bias	332
	Causes of Urban Giantism	333
	The Urban Informal Sector	335
	Policies for the Urban Informal Sector	337
	Women in the Informal Sector	340
	Migration and Development	342
	Toward an Economic Theory of Rural-Urban Migration	344
	A Verbal Description of the Todaro Model	345
	A Diagrammatic Presentation	347
	Five Policy Implications	350
	Summary and Conclusions: A Comprehensive Migration and Employment Strategy	352
■	Case Study: Rural-Urban Migration and Urbanization in Developing Countries: India and Botswana	355
	Appendix 7.1: A Mathematical Formulation of the Todaro Migration Model	366
8	Human Capital: Education and Health in Economic Development	369
	The Central Roles of Education and Health	369
	Education and Health as Joint Investments for Development	372
	Improving Health and Education: Why Increasing Income Is Not Sufficient	373
	Investing in Education and Health: The Human Capital Approach	375
	Child Labor	378
	The Gender Gap: Women and Education	382
	Consequences of Gender Bias in Health and Education	384
	Educational Systems and Development	387
	The Political Economy of Educational Supply and Demand: The Relationship between Employment Opportunities and Educational Demands	387
	Social versus Private Benefits and Costs	389
	Distribution of Education	392
	Education, Inequality, and Poverty	394
	Education, Internal Migration, and the Brain Drain	396
	Health Systems and Development	397
	Measurement and Distribution	397

	Disease Burden	400
	HIV/AIDS	402
	Malaria	407
	Parasitic Worms and Other “Neglected Tropical Diseases”	408
	Health and Productivity	409
	Health Systems Policy	413
■	Case Study: Pathways out of Poverty: Progresa/Oportunidades	416
9	Agricultural Transformation and Rural Development	431
	The Imperative of Agricultural Progress and Rural Development	431
	Agricultural Growth: Past Progress and Current Challenges	433
	The Structure of Agrarian Systems in the Developing World	438
	Peasant Agriculture in Latin America, Asia, and Africa	439
	Agrarian Patterns in Latin America: Progress and Remaining Poverty Challenges	441
	Transforming Economies: Problems of Fragmentation and Subdivision of Peasant Land in Asia	444
	Subsistence Agriculture and Extensive Cultivation in Africa	447
	The Important Role of Women	450
	The Economics of Agricultural Development: Transition from Peasant Subsistence to Specialized Commercial Farming	453
	Subsistence Farming: Risk Aversion, Uncertainty, and Survival	454
	The Transition to Mixed and Diversified Farming	460
	From Divergence to Specialization: Modern Commercial Farming	461
	Toward a Strategy of Agricultural and Rural Development:	
	Some Main Requirements	462
	Improving Small-Scale Agriculture	462
	Conditions for Rural Development	465
■	Case Study: The Need to Improve Agricultural Extension for Women Farmers: Kenya	468
10	The Environment and Development	483
	Economics and the Environment	483
	Environment and Development: The Basic Issues	485
	Sustainable Development and Environmental Accounting	485
	Population, Resources, and the Environment	486
	Poverty and the Environment	486
	Growth versus the Environment	487
	Rural Development and the Environment	487
	Urban Development and the Environment	488
	The Global Environment and Economy	488
	The Nature and Pace of Greenhouse Gas–Induced Climate Change	489
	Natural Resource–Based Livelihoods as a Pathway out of Poverty: Promise and Limitations	489

The Scope of Environmental Degradation: An Overview	490
Rural Development and the Environment: A Tale of Two Villages	491
Global Warming and Climate Change	494
Traditional Economic Models of the Environment	497
Privately Owned Resources	497
Common Property Resources	499
Public Goods and Bads: Regional Environmental Degradation and the Free-Rider Problem	501
Limitations of the Public-Good Framework	503
Urban Development and the Environment	503
The Ecology of Urban Slums	503
Industrialization and Urban Air Pollution	505
Problems of Congestion, Clean Water, and Sanitation	508
The Need for Policy Reform	509
The Local and Global Costs of Rain Forest Destruction	510
Policy Options in Developing and Developed Countries	512
What Less Developed Countries Can Do	512
How Developed Countries Can Help LDCs	514
What Developed Countries Can Do for the Global Environment	515
■ Case Study: Economic Growth and Environmental Sustainability: The Philippines	517
11 Development Policymaking and the Roles of Market, State, and Civil Society	530
The Planning Mystique	531
The Nature of Development Planning	532
Basic Concepts	532
Planning in Mixed Developing Economies	532
The Rationale for Development Planning	533
The Planning Process: Some Basic Models	535
Aggregate Growth Models: Projecting Macro Variables	535
Multisector Models and Sectoral Projections	538
Project Appraisal and Social Cost-Benefit Analysis	539
Conclusions: Planning Models and Plan Consistency	542
Problems of Plan Implementation and Plan Failure	543
Theory versus Practice	543
Reasons for Plan Failure	544
Government Failure and the Resurgent Preference for Markets over Planning	545
The Market Economy	546
Sociocultural Preconditions and Economic Requirements	546
Role and Limitations of the Market in LDCs	549

The Washington Consensus on the State Role in Development and Its Limitations	551
Toward a New Consensus	552
Development Political Economy: Theories of Policy Formulation and Reform	554
Understanding Voting Patterns on Policy Reform	556
Institutions and Path Dependency	557
Democracy versus Autocracy: Which Facilitates Faster Growth?	558
Development Roles of NGOs and the Broader Citizen Sector	560
Trends in Governance and Reform	566
Tackling the Problem of Corruption	566
Decentralization	568
Development Participation	570
Development Policy and the State: Concluding Observations	572
■ Case Study: The Role of Development NGOs: The BRAC Model	574

Part Three Problems and Policies: International and Macro 587

12 International Trade Theory and Development Strategy	588
Globalization: An Introduction	588
International Trade and Finance: Some Key Issues	591
Five Basic Questions about Trade and Development	594
Importance of Exports to Different Developing Nations	595
Demand Elasticities and Export Earnings Instability	597
The Terms of Trade and the Prebisch-Singer Thesis	598
The Traditional Theory of International Trade	599
Comparative Advantage	599
Relative Factor Endowments and International Specialization:	
The Neoclassical Model	600
Trade Theory and Development: The Traditional Arguments	605
The Critique of Traditional Free-Trade Theory in the Context of Developing-Country Experience	606
Fixed Resources, Full Employment, and the International Immobility of Capital and Skilled Labor	607
Fixed, Freely Available Technology and Consumer Sovereignty	610
Internal Factor Mobility, Perfect Competition, and Uncertainty: Increasing Returns, Imperfect Competition, and Issues in Specialization	611
The Absence of National Governments in Trading Relations	613
Balanced Trade and International Price Adjustments	614
Trade Gains Accruing to Nationals	614
Some Conclusions on Trade Theory and Economic Development Strategy	615

Traditional Trade Strategies for Development:	
Export Promotion versus Import Substitution	618
Export Promotion: Looking Outward and Seeing Trade Barriers	620
Import Substitution: Looking Inward but Still Paying Outward	623
The IS Industrialization Strategy and Results	626
Foreign-Exchange Rates, Exchange Controls, and the Devaluation Decision	631
Trade Optimists and Trade Pessimists: Summarizing the Traditional Debate	635
Trade Pessimist Arguments	635
Trade Optimist Arguments	636
The Industrialization Strategy Approach to Export Policy	637
Reconciling the Arguments: The Data and the Consensus	640
South-South Trade and Economic Integration: Looking Outward and Inward	641
Economic Integration: Theory and Practice	641
Regional Trading Blocs and the Globalization of Trade	643
Trade Policies of Developed Countries: The Need for Reform	645
■ Case Study: A Development Success Story: Taiwan	649
13 Balance of Payments, Developing-Country Debt, and the Macroeconomic Stabilization Controversy	667
The Balance of Payments Account	668
General Considerations	668
A Hypothetical Illustration: Deficits and Debts	670
Financing and Reducing Payments Deficits	671
Some Initial Policy Issues	671
Trends in LDC Balance of Payments	673
The Debt Crisis of the 1980s	674
Background and Analysis	674
Origins of the Debt Crisis	676
Attempts at Alleviation: Macroeconomic Instability, IMF Stabilization Policies, and Their Critics	679
The IMF Stabilization Program	679
Tactics for Debt Relief	681
“Odious Debt” and Its Prevention	688
Resolution and Continued Vulnerabilities	689
■ Case Study: Trade, Capital Flows, and Development Strategy: South Korea	693
Appendix 13.1: A Brief History and Analysis of the International Monetary Fund and the World Bank	704
14 Foreign Finance, Investment, and Aid: Controversies and Opportunities	714
The International Flow of Financial Resources	714

Private Foreign Direct Investment and the Multinational Corporation	715
Multinational Corporations: Size, Patterns, and Trends	716
Private Foreign Investment: Some Pros and Cons for Development	719
Private Portfolio Investment: Boon or Bane for LDCs?	725
The Role and Growth of Remittances	726
Foreign Aid: The Development Assistance Debate	728
Conceptual and Measurement Problems	728
Amounts and Allocations: Public Aid	730
Why Donors Give Aid	731
Why LDC Recipients Accept Aid	735
The Role of Nongovernmental Organizations in Aid and Evaluation	736
The Effects of Aid	737
■ Case Study: African Success Story at Risk: Botswana	739
15 Finance and Fiscal Policy for Development	750
The Role of the Financial System	751
The Bumpy Road to Macroeconomic Stability	752
Differences between MDC and LDC Financial Systems	753
The Role of Central Banks	756
The Role of Development Banking	758
Informal Finance	760
Microfinance Institutions	761
Reforming Financial Systems	764
Financial Liberalization, Real Interest Rates, Savings, and Investment	764
Financial Policy and the Role of the State	765
Debate on the Role of Stock Markets	767
Fiscal Policy for Development	769
Macrostability and Resource Mobilization	769
Taxation: Direct and Indirect	769
Public Administration: The Scarcest Resource	774
State-Owned Enterprises	776
Improving the Performance of SOEs	777
Privatization: Theory and Experience	778
Military Expenditures and Economic Development	780
■ Case Study: Privatization—What, When, and to Whom? Chile and Poland	784
16 Some Critical Issues for the Twenty-First Century	798
Global Interdependence and the Growth of Developing-World Markets	798
The Global Environment and the Developing World	799
Rain Forest Preservation as a Public Good: Who Should Pay?	801
Searching for Global Solutions: The 1992, 1997, and 2002 Summits and Follow-Ups	803

The Crisis in Sub-Saharan Africa	805
Globalization and International Financial Reform	807
Concluding Remarks	810
Glossary	815
Name Index	845
Subject Index	857
