

# Contents

Preface	23
Acknowledgments	27
<b>1 Introduction</b>	<b>29</b>
<b>What Is Health Economics?</b>	<b>30</b>
<b>Box 1.1 Technological Change and Health Care Costs—</b>	
<b>Why Rising Health Care Costs Affect All Nations</b>	<b>31</b>
<b>The Relevance of Health Economics</b>	<b>32</b>
The Size and Scope of the Health Economy	32
Health Care's Share of GDP in the United States	32
Health Care Spending in Other Countries	33
Importance of the Health Economy in Personal Spending	33
Importance of Labor and Capital in the Health Economy	35
Time—The Ultimate Resource	37
The Importance Attached to Economic Problems of	
Health Care Delivery	37
Inflation	38
Access	39
Quality	39
The Economic Side to Other Health Issues	39
<b>Economic Methods and Examples of Analysis</b>	<b>39</b>
Features of Economic Analysis	40
Scarcity of Resources	40
Rational Decision Making	40
Marginal Analysis	40
Use of Models	40
<b>Two Notable Contributors to Health Economics</b>	<b>41</b>
<b>Does Economics Apply to Health and Health Care?</b>	<b>41</b>
An Example: Does Price Matter?	42
<b>Is Health Care Different?</b>	<b>43</b>
Presence and Extent of Uncertainty	43
Prominence of Insurance	43
Problems of Information	45

Large Role of Nonprofit Firms	46
Restrictions on Competition	46
Role of Equity and Need	46
Government Subsidies and Public Provision	47
Conclusions	47
Postscript	48
Summary	49
Discussion Questions	49
Exercises	50
<b>2 Microeconomic Tools for Health Economics</b>	<b>55</b>
Scarcity and the Production Possibilities Frontier	56
Box 2.1 There's Scarcity and Then There's Real Scarcity	58
Practice with Supply and Demand	60
The Demand Curve and Demand Shifters	60
The Supply Curve and Supply Shifters	61
Equilibrium	62
Comparative Statics	62
Functions and Curves	63
Linear Functions	63
Demand Functions	64
Derived Demand	65
Consumer Theory: Ideas behind the Demand Curve	65
Utility	66
Indifference Curves	67
Budget Constraints	68
Consumer Equilibrium	68
Individual and Market Demands	70
Elasticities	71
Production and Market Supply	73
The Production Function	73
Production Functions	74
Isocost Curves	77
Cost Minimization or Output Maximization	77
Marginal and Average Cost Curves	78
The Firm Supply Curve under Perfect Competition	79
Monopoly and Other Market Structures	82
Box 2.2 Is Competition Better than Monopoly?	84
Conclusions	85
Summary	85
Discussion Questions	86
Exercises	86
<b>3 Statistical Tools for Health Economics</b>	<b>89</b>
Hypothesis Testing	90

Difference of Means	91
The Variance of a Distribution	92
Standard Error of the Mean	93
Hypotheses and Inferences	94
Box 3.1 Do Cell Phones Cause Cancer?—Positive Reports but Inconsistent Data	95
Regression Analysis	96
Ordinary Least Squares (OLS) Regressions	96
A Simple Regression	97
Estimating Elasticities	98
Multiple Regression Analysis	99
Interpreting Regression Coefficients	100
Box 3.2 Hormone Replacement Therapy—Rigorous Statistics Reveal Surprising Results	101
Dummy Variables	102
Statistical Inference in the Sciences and Social Sciences	103
Conclusions	104
Summary	104
Discussion Questions	104
Exercises	105
<b>4 Economic Efficiency and Cost-Benefit Analysis</b>	<b>109</b>
Economic Efficiency	110
Cost-Benefit Analysis: Background	113
Measuring Benefits and Costs	113
Risk Equity versus Equality of Marginal Costs per Life Saved	115
Box 4.1 When Is Preventative Medicine a Good Investment?	116
Marginal Analysis in CBA	117
Box 4.2 Cookstoves, Global Warming, Health in Developing Countries, and CBA	118
Discounting	118
Box 4.3 Discounting and Global Warming	120
Risk Adjustment and CBA	121
Distributional Adjustments	121
Inflation	121
Valuing Human Life	121
Willingness to Pay and Willingness to Accept	122
Contingent Valuation	122
How Valuable Is the Last Year of Life?	122
Cost-Benefit Analyses of Heart Care Treatment	124
Cost-Effectiveness Analysis	125
Advantages of CEA	126
Cost-Utility Analysis, QALYs, and DALYs	126

91	<b>QALYs Revisited: Praise and Criticism</b>	128
92	<b>Are QALYs Consistent with Standard Welfare Economics?</b>	128
93	<b>Extra-Welfarism</b>	128
94	<b>What People Think</b>	129
95	<b>The Ageism Critique</b>	129
96	<b>How Are QALYs Used for Evaluation</b>	130
97	<b>Conclusions</b>	130
98	<b>Summary</b>	131
99	<b>Discussion Questions</b>	131
100	<b>Exercises</b>	132
101	<b>Appendix—Discounting</b>	134
102	<b>5 Production of Health</b>	137
103	<b>The Production Function of Health</b>	138
104	<b>The Historical Role of Medicine and Health Care</b>	140
105	<b>The Rising Population and the Role of Medicine</b>	140
106	<b>What Caused the Mortality Rate Declines? Was It Medicine?</b>	142
107	<b>Box 5.1 Tuberculosis and <i>The Magic Mountain</i></b>	143
108	<b>Box 5.2 The Importance of Clean Water</b>	146
109	<b>What Lessons Are Learned from the Medical Historian?</b>	146
110	<b>The Production Function of Health in the Modern Day</b>	147
111	<b>Preliminary Issues</b>	147
112	<b>The Contribution of Health Care to Population Health:</b>	
113	<b>The Modern Era</b>	148
114	<b>Is Health Care Worth It?</b>	149
115	<b>Box 5.3 Sulfa: A Drug That Really Made a Difference</b>	149
116	<b>On the Effect of Social Health Insurance</b>	150
117	<b>Prenatal Care</b>	151
118	<b>The World's Pharmacies</b>	153
119	<b>Do Other Measures of Health Care Affect Health?</b>	153
120	<b>On the Importance of Lifestyle and Environment</b>	153
121	<b>Cigarettes, Exercise, and a Good Night's Sleep</b>	154
122	<b>The Family as Producer of Health</b>	155
123	<b>Social Capital and Health</b>	155
124	<b>Environmental Pollution</b>	156
125	<b>Income and Health</b>	156
126	<b>The Role of Schooling</b>	156
127	<b>Two Theories about the Role of Schooling</b>	157
128	<b>Empirical Studies on the Role of Schooling in Health</b>	157
129	<b>Conclusions</b>	158
130	<b>Summary</b>	158
131	<b>Discussion Questions</b>	159
132	<b>Exercises</b>	159

<b>6</b>	<b>The Production, Cost, and Technology of Health Care</b>	<b>161</b>
	<b>Production and the Possibilities for Substitution</b>	<b>162</b>
	Substitution	162
	What Degree of Substitution Is Possible?	164
	Elasticity of Substitution	164
	<b>Box 6.1 Health Care Professionals: Expanding the Possibilities</b>	<b>165</b>
	Estimates for Hospital Care	166
	<b>Costs in Theory and Practice</b>	<b>167</b>
	Deriving the Cost Function	167
	Cost Minimization	168
	Economies of Scale and Scope	169
	Why Would Economies of Scale and Scope Be Important?	169
	Empirical Cost-Function Studies	171
	Difficulties Faced by All Hospital Cost Studies	171
	Modern Results	173
	Summary: Empirical Cost Studies and Economies of Scale	173
	<b>Technical and Allocative Inefficiency</b>	<b>173</b>
	Technical Inefficiency	173
	Allocative Inefficiency	174
	Frontier Analysis	175
	The Uses of Hospital Efficiency Studies	177
	For-Profit versus Nonprofit Hospitals	178
	Efficiency and Hospital Quality	178
	Are Hospital Frontier Efficiency Studies Reliable?	178
	<b>Box 6.2 Should We Close Inefficient Hospitals?</b>	<b>179</b>
	Performance-Based Budgeting	179
	<b>Technological Changes and Costs</b>	<b>179</b>
	Technological Change: Cost Increasing or Decreasing?	180
	Health Care Price Increases When Technological Change Occurs	180
	<b>Box 6.3 Aspirin, the Wonder Drug at a Bargain</b>	<b>181</b>
	<b>Diffusion of New Health Care Technologies</b>	<b>183</b>
	Who Adopts and Why?	183
	Other Factors That May Affect Adoption Rates	183
	Diffusion of Technology and Managed Care	184
	<b>Conclusions</b>	<b>185</b>
	<b>Summary</b>	<b>185</b>
	<b>Discussion Questions</b>	<b>186</b>
	<b>Exercises</b>	<b>186</b>
<b>7</b>	<b>Demand for Health Capital</b>	<b>189</b>
	<b>The Demand for Health</b>	<b>190</b>
	The Consumer as Health Producer	190

Time Spent Producing Health	191
Box 7.1 Exercise Technology—FitBits or Smartphones?	191
Labor–Leisure Trade-Offs	192
Trading Leisure for Wages	193
Preferences between Leisure and Income	194
The Investment/Consumption Aspects of Health	195
Production of Healthy Days	195
Production of Health and Home Goods	196
Investment over Time	197
The Cost of Capital	197
The Demand for Health Capital	197
Marginal Efficiency of Investment and Rate of Return	198
The Decreasing MEI	198
Changes in Equilibrium: Age, Wage, and Education	199
Age	199
Wage Rate	200
Education	201
Empirical Analyses Using Grossman’s Model	201
Box 7.2 Rational Addiction	202
Obesity—The Deterioration of Health Capital	203
An Economic Treatment of Obesity	206
Economic Effects	207
Why Has Obesity Increased?	208
Conclusions	209
Summary	210
Discussion Questions	210
Exercises	211
<b>8 Demand and Supply of Health Insurance</b>	<b>213</b>
What Is Insurance?	214
Insurance versus Social Insurance	215
Insurance Terminology	215
Risk and Insurance	216
Expected Value	216
Marginal Utility of Wealth and Risk Aversion	217
Purchasing Insurance	218
The Demand for Insurance	219
How Much Insurance?	219
Changes in Premiums	221
Changes in Expected Loss	222
Changes in Wealth	223
The Supply of Insurance	223
Competition and Normal Profits	224
The Case of Moral Hazard	225

Demand for Care and Moral Hazard	226
Box 8.1 Another Type of Moral Hazard—Health Insurance and Insecticide-Treated Bed Nets in Ghana	228
Effects of Coinsurance and Deductibles	228
Health Insurance and the Efficient Allocation of Resources	229
The Impact of Coinsurance	229
Box 8.2 Got Insurance? You Still May Pay a Steep Price for Prescriptions	231
The Demand for Insurance and the Price of Care	233
The Welfare Loss of Excess Health Insurance	233
Income Transfer Effects of Insurance	236
Conclusions	239
Summary	239
Discussion Questions	240
Exercises	240
<b>9 Consumer Choice and Demand</b>	<b>243</b>
Applying the Standard Budget Constraint Model	245
Box 9.1 What Happens to Costs When Patients Participate in Medical Decision Making?	245
The Consumer's Equilibrium	246
Demand Shifters	247
Health Status and Demand	249
Two Additional Demand Shifters—Time and Coinsurance	250
The Role of Time	250
The Role of Coinsurance	252
Issues in Measuring Health Care Demand	254
Individual and Market Demand Functions	255
Measurement and Definitions	255
Differences in the Study Populations	255
Data Sources	256
Experimental and Nonexperimental Data	256
Box 9.2 Oregon's Health Insurance Experiment	256
Empirical Measurements of Demand Elasticities	257
Price Elasticities	257
Individual Income Elasticities	259
Income Elasticities across Countries	259
Insurance Elasticities	260
Impacts of Insurance on Aggregate Expenditures	262
Other Variables Affecting Demand	262
Ethnicity and Gender	262
Box 9.3 Disparities in Health Care: A National Priority	263
Urban versus Rural	264

<b>Education</b>	264
<b>Age, Health Status, and Uncertainty</b>	264
<b>Conclusions</b>	265
<b>Box 9.4 How Much Will That Hospitalization Cost Me?</b>	266
<b>Summary</b>	266
<b>Discussion Questions</b>	267
<b>Exercises</b>	268
<b>10 Asymmetric Information and Agency</b>	<b>271</b>
<b>Overview of Information Issues</b>	272
<b>Asymmetric Information</b>	273
<b>On the Extent of Information Problems in the Health Sector</b>	273
<b>Asymmetric Information in the Used-Car Market:</b>	
<b>The Lemons Principle</b>	274
<b>Application of the Lemons Principle: Health Insurance</b>	276
<b>Inefficiencies of Adverse Selection</b>	277
<b>The Affordable Care Act and Adverse Selection</b>	278
<b>Experience Rating and Adverse Selection</b>	279
<b>The Agency Relationship</b>	280
<b>Agency and Health Care</b>	280
<b>Box 10.1 What Happens When the Patient Is a Medical Expert?</b>	280
<b>Consumer Information, Prices, and Quality</b>	282
<b>Consumer Information and Prices</b>	282
<b>Consumer Information and Quality</b>	283
<b>Other Quality Indicators</b>	284
<b>Box 10.2 Quality Rankings and Health Care Outcomes</b>	285
<b>Conclusions</b>	286
<b>Summary</b>	287
<b>Discussion Questions</b>	288
<b>Exercises</b>	289
<b>11 The Organization of Health Insurance Markets</b>	<b>291</b>
<b>Loading Costs and the Behavior of Insurance Firms</b>	292
<b>Impacts of Loading Costs</b>	292
<b>Insurance for Heart Attacks and Hangnails</b>	294
<b>Loading Costs and the Uninsured</b>	294
<b>Employer Provision of Health Insurance: Who Pays?</b>	295
<b>Box 11.1 Employers Shift More Health Care Costs to Employees—How You Feel Depends on Where You Sit</b>	297
<b>Spousal Coverage: Who Pays?</b>	297
<b>How the Tax System Influences Health Insurance Demand</b>	299
<b>Who Pays the Compensating Differentials?—Empirical Tests</b>	301
<b>Other Impacts of Employer Provision of Health Insurance</b>	302

Box 11.2 For Many with Pre-Existing Conditions, Obamacare's Flaws are Only a Small Price to Pay	303
Employer-Based Health Insurance and Labor Supply	304
Health Insurance and Retirement	304
Health Insurance and Mobility	305
The Market for Insurance	306
The Market for Private Insurance	306
Insurance Practices	308
Health Insurance Markets Since the 1980s	309
The Uninsured: An Analytical Framework	309
Box 11.3 Counting the Uninsured	310
Box 11.4 Why Being Insured Matters	311
The Working Uninsured	311
The Impacts of Mandated Coverage	312
Impacts of the Affordable Care Act on the Uninsured	314
Elements of the ACA	314
Evidence on the Impact of the ACA on the Uninsured	314
Conclusions	316
Summary	317
Discussion Questions	317
Exercises	318
<b>12 Managed Care</b>	<b>321</b>
What Is the Organizational Structure?	323
What Are the Economic Characteristics?	324
The Emergence of Managed Care Plans	325
Employer-Sponsored Managed Care	326
Medicaid and Medicare Managed Care Plans	328
Managed Care Contracts with Physicians	328
Managed Care Contracts with Hospitals	329
Development and Growth of Managed Care—Why Did It Take So Long?	330
Federal Policy and the Growth of Managed Care	330
The Economics of Managed Care	331
Modeling Managed Care	331
Modeling Individual HMOs	332
How Much Care?	332
What Types of Care?	333
Framework for Prediction	334
Where Managed Care Differs from FFS—Dumping, Creaming, and Skimping	334
Equilibrium and Adverse Selection in a Market with HMOs	335
How Does Managed Care Differ?—Empirical Results	337
Methodological Issues—Selection Bias and Quality of Care	337

Comparative Utilization and Costs	338
The RAND Study—A Randomized Experiment	338
More Recent Evidence	339
Box 12.1 What Do HMOs Actually Do?	340
Growth in Spending	341
Competitive Effects	342
Theoretical Issues	342
Managed Care Competition in Hospital Markets	344
Managed Care Competition in Insurance Markets	345
Managed Care and Technological Change	345
The Managed Care Backlash	346
Box 12.2 Pay-for-Performance	348
Accountable Care Organizations (ACOs)	349
Managed Care and the Affordable Care Act	350
Conclusions	351
Summary	351
Discussion Questions	353
Exercises	353
<b>13 Nonprofit Firms</b>	<b>357</b>
An Introduction to Nonprofits	358
Why Nonprofits Exist and Why They Are Prevalent in Health Care	358
Nonprofits as Providers of Unmet Demands for Public Goods	359
The Public Good–Private Good Aspect of Donations	360
Relevance to Health Care Markets	361
Nonprofits as a Response to Contract Failure	362
Applications of Contract Failure to Health Care	362
Financial Matters and the Nonprofit	363
Summary of the Reasons for the Prevalence of Nonprofits	363
Models of Nonprofit Hospital Behavior	363
The Quality–Quantity Nonprofit Theory	363
The Profit-Deviating Nonprofit Hospital	365
The Hospital as a Physicians’ Cooperative	367
Maximizing Net Revenue per Physician	367
A Comparison of the Quantity–Quality and the Physicians’ Cooperative Theories	368
Competition from Home Care and Outpatient Care	370
The Evidence: Do Nonprofit Hospitals Differ from For-Profit Hospitals?	371
Summary of Models of Hospital Behavior	372
What Causes Conversion of Nonprofits into For-Profits?	372
The Relative Efficiency of Nonprofits versus For-Profits	373
Are Nonprofit Health Care Firms Less Technically or Allocatively Efficient?—Hospital and Nursing Home Studies	373

<b>Box 13.1 Why Are Registered Nurses' Wages Higher in Nonprofit Nursing Homes?</b>	374
<b>Conclusions</b>	374
<b>Summary</b>	374
<b>Discussion Questions</b>	375
<b>Exercises</b>	376
<b>14 Hospitals and Long-Term Care</b>	<b>377</b>
<b>Background and Overview of Hospitals</b>	378
<b>History</b>	379
<b>Organization</b>	380
<b>Regulation and Accreditation</b>	381
<b>Hospital Utilization and Costs</b>	381
<b>Competition and Costs</b>	383
<b>Box 14.1 Game Theory and the Medical Arms Race (MAR)</b>	383
<b>Closures, Mergers, and Restructuring</b>	387
<b>Box 14.2 Hospitals and Airlines: What Are the Lessons?</b>	388
<b>Quality of Care</b>	389
<b>Nursing Homes</b>	390
<b>Background and Costs</b>	390
<b>Quality of Care</b>	391
<b>Excess Demand</b>	392
<b>Financing Long-Term Care</b>	394
<b>Hospice, Home Health, and Informal Care</b>	395
