

## ABOUT THIS BOOK

**Galactic War** explores the future. It includes boards, rules and pieces for four new games set in the 21st century and beyond.

Starting from what we already know of the Universe, the book speculates about things yet to come. Space cities in orbit between Earth and the Moon. Humanoid creatures with independent brains filling the gap between men and machines. The mysteries of hyperspace, where neither time nor distance exists, and of the 'black holes' which may lead into it.

The games include 'Invasion Earth!' in which Earth forces track down aliens breeding in the Pacific Ocean, and a struggle for survival on a 'Deadly Planet.' In 'Space Pirates' rival prospectors race to bring valuable minerals back to Earth from the Asteroid Belt. The title game pits the might of the Stellar Federation against invaders of the Galaxy.

## CONTENTS

- 4 Introducing the Solar System
- 6 Into infinity
- 8 Pioneers who showed the way to the stars
- 10 Robot explorers
- 12 Surviving in space
- 14 Space shuttles and space cities
- 16 Timechart  
Improving and storing game pieces
- 17 Rules and cut-out pieces for four battlegames
- 25 The wealth above our heads
- 26 Battlegame 1 - Space Pirates
- 28 Voyage to the stars
- 30 Battlegame 2 - Deadly Planet
- 32 Alien life
- 34 Battlegame 3 - Invasion Earth!
- 36 The far future
- 38 Battlegame 4 - Galactic War
