PREFACE	v	<i>Nori</i> —a sought-after <i>Porphyra</i> product	74
		<i>Wakame</i> —neither too tough nor too delicate	84
Seaweeds are marine algae		Winged kelp—almost as good as <i>wakame</i>	84
WHAT ARE SEAWEEDS AND MARINE ALGAE AND WHERE DO WE FIND THEM?	2	Bladder wrack—abundant everywhere	85
At the interface between land and sea	2	Sea palm—a rare delicacy	88
Seaweeds of all sizes, growing under all conditions	3	<i>Arame</i> —totally mild and sweet	88
Seaweeds come in many colors	4	<i>Hijiki</i> —a bit special and a little poisonous	89
		Dulse—the robust red alga	90
SEAWEEDS THROUGHOUT THE AGES	5	Edible green algae	92
Seaweeds and human evolution	5	Agar—completely without taste	93
Seaweeds in a historical perspective	6	Spirulina—edible blue-green microalgae that pack a punch	93
Seaweeds in Europe	10	THE TASTE OF SEAWEEDS	95
Seaweeds in the Nordic countries	12	Taste and texture	95
		Seaweeds and <i>umami</i>	96
THE BIOLOGY OF ALGAE	21	Smoke and sulphur	98
Microalgae and macroalgae	21		
The structure of macroalgae	22	SEAWEEDS AS SALT	98
The life history and reproductive patterns of macroalgae	23	If you have no salt, you have nothing	98
Photosynthesis and seaweed growth	25	Seaweed ash salt and smoked salt	99
Robust marine survivors	34		
Seaweeds as ecological dynamos	37	SEAWEEDS, WELLNESS, AND NUTRITION	101
		Folk traditions and the health movement	101
SEAWEEDS IN THE WILD AND IN AQUACULTURE	38	What have we already learned?	101
Edible seaweeds and poisonous algae	38	Seaweeds and calories	104
Marine algae in integrated aquaculture	44	Iodine and metabolism	105
The domestication of marine species	44	Seaweeds and cancer	108
Seaweed cultivation in the Western world	45	Are there potentially hazardous compounds in seaweeds?	109
Seaweed cultivation in Asia	50	How much seaweed should one eat?	112
<i>Nori</i> —an aquaculture success story	51		
		Seaweeds in the kitchen	
THE CHEMICAL COMPOSITION OF SEAWEEDS	52	SEAWEEDS IN THE HOME KITCHEN	118
A symphony of good things	52	Seaweeds are eaten all over the world	118
Carbohydrate extracts—alginate, carrageenan, and agar	59	Seaweed recipes	119
Fat content—less is more	59	Storage of seaweeds	120
Iodine—a key element	60	SEAWEEDS AS SEASONINGS	122
Gases and the smell of seaweeds and the sea	61	Seaweeds in the spice rack	122
		<i>Furikake</i> —a Japanese condiment with seaweeds	122
Seaweeds & human nutrition		Seasoning with seaweeds	123
EDIBLE MARINE ALGAE	68	SEAWEEDS IN SOUPS	124
Nearly all seaweeds are edible	68	Japanese soups and <i>dashi</i>	124
Kelp and <i>konbu</i> —not at all tough	69	Clear soups— <i>suimono</i>	126
Giant kelp	70	<i>Miso</i> soup	127
Laver—the delicate red alga	72	St. Patrick's cabbage soup	127

Nereo soup	128	SEAWEEDS IN DESSERTS AND CAKES	171
<i>Dillisk</i> soup—a simple soup with dulse	128	Seaweeds with fresh fruit	171
Jerusalem artichoke soup with seaweeds and smoked sea salt	129	Seaweeds as gelling agents in desserts	171
Green pea soup with scallops and seaweeds	130	Blancmange—a very basic pudding	172
<i>Konbu</i> consommé with <i>shiitake</i>	131	Pudding with carrageen	173
		<i>Yōkan</i> —Japanese dessert jelly	173
SEAWEEDS IN SALADS AND SAUCES	134	Lemon cake with sea lettuce	174
<i>Kaiso</i> -salad	134	Ice cream with simmered kelp	175
Salad dressing with <i>miso</i> and sea lettuce	135	SEAWEEDS IN DRINKS	176
Purslane salad with seaweeds	136	Seaweed tea	176
Marinated winged kelp	136	Seaweeds in wine, beer, and spirits	177
Cucumber salad with seaweeds	137	Spirulina smoothie	178
<i>Wakame</i> salad with <i>tofu</i>	138	Seaweed wellness drinks	178
Simmered <i>hijiki</i>	138		
Quinoa salad with dulse	140	SEAWEEDS IN SNACKS	180
Salads and sauces with sea spaghetti	140	Snacks	180
Seaweeds in dressings	142	Chips	180
Guacamole with dried seaweeds	143	Rice cakes with <i>nori</i>	182
Avocado salad with bladder wrack	143	Seaweeds and chocolate	183
		Herring roe on kelp	184
SEAWEEDS IN OMELETTES AND IN FISH AND VEGETABLE DISHES	144	SEAWEEDS IN GASTRONOMY	185
Omelette with three types of seaweeds	144	Seaweed innovations and <i>haute cuisine</i>	185
Oven-baked salmon with dulse	144	New raw materials open new gastronomic pathways	185
Tuna and seaweed salad	145	Fun and games in the kitchen — when ‘play’ becomes more serious	186
Carpaccio with bladder wrack	146	Taking home cooking to new levels	186
Seafood salad—now with seaweeds, too	146	Veal tartare with Harry’s crême and dulse	188
Cavi-art	147	Fresh shrimp with pickled sea lettuce and beach herbs	190
Mashed potato with dulse	147	Ice cream with dulse	192
Laverbread—a traditional Welsh dish	148	White onion and cod in green pepper and kelp broth	194
Green beans with kelp	149	Vegetable ‘avocado foie’ with dulse and coriander juice	196
Green asparagus with seaweeds	149		
Steamed zucchini with seaweeds	154		
Green lentils with <i>wakame</i>	156		
SEAWEEDS AND SUSHI	157		
<i>Onigiri</i> —seaweeds on the go	157		
Rolled sushi with <i>nori</i> : <i>maki</i> -zushi	158		
Hand-rolled sushi with <i>nori</i> : <i>temaki</i> -zushi	161		
Battleship sushi with <i>nori</i> : <i>gunkan</i> -zushi	162		
<i>Chirashi</i> -zushi with strips of <i>nori</i>	163		
Omelette with <i>nori</i>	163		
SEAWEEDS IN BREAD, PASTA, AND SAVORY TARTS	164		
Rye bread with seaweeds	165		
Buns and crispbread with seaweeds	166		
Quiche with seaweeds	168		
Seaweed pesto on bread and crackers	169		
Pizza with seaweeds	169		
SEAWEEDS AND CHEESE	169		
		SEAWEEDS FOR TECHNICAL USES	212
		Gunpowder, soda, and early glass making	212
		Seaweeds for tools and textiles	213
		Algae for the production of energy	213
		Food or fuel?	216

Seaweeds for industrial uses

SEAWEEDS AS ADDITIVES AND STABILIZERS	204
Seaweeds turned into additives	204
Gelling and hydrogels	204
Alginates	204
Carrageenans	208
Agar	212

SEAWEEDS IN MEDICINE, HEALTH CARE, AND COSMETICS	216	Vitamins	244
Seaweeds in medicine	216	Brown algae: Fatty-acid composition	245
Biologically active ingredients	218	Red algae, green algae, and Spirulina: Fatty-acid composition	246
Seaweeds in health care and cosmetics	220	Polysaccharides in seaweeds—alginates, carrageenans, and agars	247
SEAWEEDS AS ANIMAL FODDER AND FERTILIZER	221	NAMES OF THE ALGAE, SEAWEEDS, AND MARINE PLANTS IN THE BOOK	250
Seaweeds for domestic animals	221	Common English names	250
Seaweeds as fertilizer	222	Brown macroalgae (Phaeophyceae)	251
EPILOGUE: SEAWEEDS—EDIBLE, AVAILABLE, AND SUSTAINABLE FOR THE FUTURE	230	Red macroalgae (Rhodophyta)	251
		Green macroalgae (Chlorophyta)	251
		Blue-green microalgae (cyanobacteria)	251
		Eukaryotic microalgae	251
		Marine plants	251
Technical and scientific details		BIBLIOGRAPHY	252
EVOLUTIONARY HISTORY AND THE LIFE CYCLE OF SEAWEEDS	234	Seaweeds in cooking	252
Evolution	234	Seaweeds and algae	252
The life cycle of seaweeds	236	Scientific literature	253
