**Preface** xiii

**Guided Tour** xx

## Part A: Introduction 1

### 1 Introducing Economics 3

1.1 What do economists study? 4

1.2 Different economic systems 16

1.3 The nature of economic reasoning 27

#### Boxes

1.1 *What's the latest economic news?* 5

1.2 *Looking at macroeconomic data* 7

1.3 *The opportunity costs of studying economics* 11

1.4 *Scarcity and abundance* 13

1.5 *Rise and fall of planning in the former Soviet Union* 18

1.6 *Adam Smith and the invisible hand* 24

1.7 *Ceteris paribus? An economics joke!* 28

## Part B: Foundations of Microeconomics 31

### 2 Supply and Demand 33

2.1 Demand 34

2.2 Supply 39

2.3 Price and output determination 43

2.4 Elasticity 48

2.5 The time dimension 61

#### Boxes

\*2.1 *The demand for lamb* 37

2.2 *UK house prices* 46

2.3 *Advertising and its effect on demand curves* 53

2.4 *Any more fares? Pricing on the buses* 54

\*2.5 *Using calculus to calculate price elasticity of demand* 56

2.6 *Dealing in futures markets* 65

### 3 Government Intervention in the Market 69

3.1 The control of prices 70

3.2 Indirect taxes 73

3.3 Government rejection of market allocation 76

3.4 Agriculture and agricultural policy 78

#### Boxes

3.1 *Rent control* 71

3.2 *Black markets* 72

3.3 *Ashes to ashes? A moral dilemma of tobacco taxes* 75

3.4 *Elasticities of demand for various foodstuffs* 79

3.5 *The fallacy of composition* 80

## Part C: Microeconomics 89

### 4 Background to Demand 91

4.1 Marginal utility theory 92

4.2 Demand under conditions of risk and uncertainty 100

\*4.3 Indifference analysis 105

#### Boxes

\*4.1 *Using calculus to derive a marginal utility function* 94

4.2 *The marginal utility revolution* 97

4.3 *Choices within the household* 98

4.4 *Taking account of time* 100

4.5 *Adverse selection and moral hazard: problems for unwary insurance companies* 104

\*4.6 *Love and caring: an economic approach to family behaviour* 112

\*4.7 *Consumer theory: a further approach* 115

### 5 Background to Supply 119

5.1 The short-run theory of production 120

5.2 Costs in the short run 126

5.3 The long-run theory of production 131

5.4 Costs in the long run 140

5.5 Revenue 144

5.6 Profit maximisation 149

#### Boxes

5.1 *Malthus and the dismal science of economics* 122

5.2 *Diminishing returns in the bread shop* 124

5.3 *The relationship between averages and marginals* 125

\*5.4 *The relationship between total, average and marginal physical product* 125

5.5 *The fallacy of using historic costs* 127

5.6	Cost curves in practice	130	9.3	Capital and profit	249
*5.7	The Cobb-Douglas production function	136	9.4	Land and rent	259
5.8	Minimum efficient scale: some evidence	144		Boxes	
*5.9	Using calculus to find maximum profit output	152	9.1	Labour as a factor of production	229
			*9.2	Using indifference curves to derive the individual's supply curve of labour	231
<b>6</b>	<b>Profit Maximising under Perfect Competition and Monopoly</b>	<b>156</b>	9.3	'Telecommuters'	232
6.1	Alternative market structures	157	9.4	Life at the mill	238
6.2	Perfect competition	158	9.5	The rise and decline of the labour movement in the UK	240
6.3	Monopoly	166	9.6	How useful is marginal productivity theory?	242
6.4	The theory of contestable markets	172	9.7	Equal pay for equal work?	244
	Boxes		9.8	Flexible labour markets and the flexible firm	246
6.1	Concentration ratios	159	9.9	Stocks and flows	251
6.2	Is perfect best?	160	9.10	The economics of non-renewable resources	260
6.3	E-commerce and perfect competition	165			
6.4	Windows cleaning!	170	<b>10</b>	<b>Inequality, Poverty and Policies to Redistribute Incomes</b>	<b>263</b>
6.5	X inefficiency	172	10.1	Inequality and poverty	264
6.6	Airline deregulation in the USA and Europe	174	10.2	Taxes, benefits and the redistribution of income	274
				Boxes	
<b>7</b>	<b>Profit Maximising under Imperfect Competition</b>	<b>177</b>	10.1	Poverty in the past	271
7.1	Monopolistic competition	178	10.2	How to reverse the UK's increased inequality	272
7.2	Oligopoly	181	10.3	Minimum wage legislation	274
7.3	Price discrimination	197	10.4	The Laffer curve	283
	Boxes		*10.5	Tax cuts and incentives: an application of indifference curve analysis	284
7.1	Selling ice cream when I was a student	179	10.6	UK tax credits	288
7.2	Oligopoly in the brewing industry	183			
7.3	OPEC	186	<b>11</b>	<b>Markets, Efficiency and the Public Interest</b>	<b>291</b>
7.4	The prisoners' dilemma	193	11.1	Efficiency under perfect competition	292
7.5	What's the train fare to London?	197	11.2	The case for government intervention	300
7.6	Peak-load pricing	198	11.3	Forms of government intervention	308
7.7	Price discrimination in the cinema	200	*11.4	Cost-benefit analysis	315
			11.5	Government failure and the case for the market	323
<b>8</b>	<b>Alternative Theories of the Firm</b>	<b>204</b>		Boxes	
8.1	Problems with traditional theory	205	11.1	The police as a public service	303
8.2	Alternative maximising theories	209	11.2	Health care and the market	308
8.3	Multiple aims	219	11.3	Deadweight loss from taxes on goods and services	311
8.4	Pricing in practice	222	*11.4	What price a human life?	317
	Boxes		*11.5	Meeting the Kyoto Protocol	320
8.1	The organisational structure of firms	206	11.6	Mises, Hayek and the Mont Pelerin Society	324
8.2	What do you maximise?	208			
8.3	When is a theory not a theory?	210	<b>12</b>	<b>Applied Microeconomics</b>	<b>327</b>
8.4	Enron	215	12.1	Economics of the environment	328
8.5	Merger activity: a worldwide perspective	216	12.2	Traffic congestion and urban transport policies	339
8.6	Stakeholder power?	220	12.3	Competition policy	348
8.7	How do UK companies set prices?	223	12.4	Privatisation and regulation	355
<b>9</b>	<b>The Theory of Distribution of Income</b>	<b>227</b>			
9.1	Wage determination under perfect competition	228			
9.2	Wage determination in imperfect markets	236			

Boxes	
12.1 <i>Green taxes</i>	334
12.2 <i>Selling the environment</i>	336
12.3 <i>Restricting car access to Athens</i>	344
12.4 <i>Road pricing in Singapore</i>	346
12.5 <i>Taking your vitamins – at a price</i>	351
12.6 <i>Monopoly power in the sale of extended warranties</i>	354
12.7 <i>Selling power to the people</i>	360

## Part D: Foundations of Macroeconomics 365

<b>13 The National Economy</b>	<b>367</b>
13.1 The scope of macroeconomics	368
13.2 The circular flow of income	370
13.3 Measuring national income and output	373
13.4 Short-term economic growth and the business cycle	377
13.5 Long-term economic growth	384
Appendix: Calculating GDP	388
Boxes	
13.1 <i>Which country is better off?</i>	375
13.2 <i>How big is the underground economy?</i>	376
13.3 <i>The costs of economic growth</i>	378
13.4 <i>Output gaps</i>	382
13.5 <i>Theories of growth</i>	386
13.6 <i>When higher GDP can lead to lower welfare: the use of ISEW</i>	390
<b>14 Macroeconomic Issues and Analysis</b>	<b>395</b>
14.1 Unemployment	396
14.2 Aggregate demand and supply and the level of prices	405
14.3 Inflation	407
14.4 The balance of payments and exchange rates	416
14.5 Postscript to Part D: The relationship between the four macroeconomic objectives	424
Boxes	
14.1 <i>The costs of unemployment</i>	400
14.2 <i>Hyperinflation in Germany: 1923</i>	410
14.3 <i>Cost-push illusion</i>	412
14.4 <i>Is inflation dead?</i>	413
14.5 <i>The Phillips Curve</i>	414
14.6 <i>Dealing in foreign exchange</i>	422
14.7 <i>The political business cycle (Part I)</i>	425

## Part E: Macroeconomics 429

<b>15 The Roots of Modern Macroeconomics (optional)</b>	<b>431</b>
15.1 Setting the scene: three key issues	432
15.2 Classical macroeconomics	434
15.3 The Keynesian revolution	439

15.4 The monetarist–Keynesian debate	443
15.5 The current position: an emerging consensus?	447

Boxes	
15.1 <i>Balance the budget at all costs</i>	437
15.2 <i>The crowding-out effect</i>	438
15.3 <i>Will wage cuts cure unemployment?</i>	440

## 16 Short-run Macroeconomic Equilibrium 451

16.1 Background to the theory	452
16.2 The determination of national income	462
16.3 The simple Keynesian analysis of unemployment and inflation	468
16.4 The Keynesian analysis of the business cycle	471
Boxes	
* 16.1 <i>Using calculus to derive the mpc</i>	456
16.2 <i>Consumption and saving in practice</i>	457
16.3 <i>Business expectations and investment in the EU</i>	460
16.4 <i>Deriving the multiplier formula</i>	466
16.5 <i>The paradox of thrift</i>	467
16.6 <i>Has there been an accelerator effect over the past 30 years?</i>	474

## 17 Money and Interest Rates 478

17.1 The meaning and functions of money	479
17.2 The financial system	480
17.3 The supply of money	490
17.4 The demand for money	497
17.5 Equilibrium	501
Boxes	
17.1 <i>Money supply, national income and national wealth: don't confuse them</i>	479
17.2 <i>Secondary marketing</i>	485
17.3 <i>Changes in the banking industry</i>	488
17.4 <i>UK and eurozone monetary aggregates</i>	491
* 17.5 <i>Calculating the money multiplier</i>	494
17.6 <i>Are the days of cash numbered?</i>	498

## 18 The Relationship between the Money and Goods Markets 504

18.1 The effects of monetary changes on national income	505
18.2 The monetary effects of changes in the goods market	512
* 18.3 <i>ISLM analysis: the integration of the goods and money market models</i>	515
18.4 Taking inflation into account	523
Boxes	
18.1 <i>Choosing the exchange rate or the money supply</i>	509

24.5	<i>The effectiveness of monetary and fiscal policies under floating exchange rates</i>	689
<b>25</b>	<b>Global and Regional Interdependence</b>	<b>702</b>
25.1	Globalisation and the problem of instability	703
25.2	Concerted international action to stabilise exchange rates	706
25.3	European economic and monetary union (EMU)	710
25.4	Achieving greater currency stability	714
	Boxes	
25.1	<i>Globalisation and the US trade imbalance</i>	705
25.2	<i>Attempts at international policy harmonisation</i>	708
25.3	<i>Optimal currency areas</i>	713
25.4	<i>The Tobin tax</i>	716
<b>26</b>	<b>Economic Problems of Developing Countries</b>	<b>720</b>
26.1	The problem of underdevelopment	721
26.2	International trade and development	725
26.3	Structural problems within developing countries	735
26.4	The problem of debt	740

	Boxes	
26.1	<i>The Human Development Index</i>	724
26.2	<i>When driving and alcohol do mix: import substitution in Brazil</i>	729
26.3	<i>The Chinese economic miracle: riding the dragon</i>	732
*26.4	<i>Unemployment in developing countries</i>	738
26.5	<i>Argentina in crisis</i>	742
26.6	<i>'Ecocide': debt and the environment</i>	744
26.7	<i>Swapping debt</i>	746
