

Brief Contents

PART I HUMANS AND NATURE: AN OVERVIEW 1

- Chapter 1 Population, Resources, Environmental Degradation, and Pollution 2
- Chapter 2 Brief History of Resource Exploitation and Conservation 30

PART II BASIC CONCEPTS 51

- Chapter 3 Matter and Energy Resources: Types and Concepts 52
- Chapter 4 Ecosystems: What Are They and How Do They Work? 76
- Chapter 5 Ecosystems: What Are the Major Types? 107
- Chapter 6 Changes in Populations, Communities, and Ecosystems 133

PART III THE HUMAN POPULATION 157

- Chapter 7 Population Dynamics 158
- Chapter 8 Population Regulation 171
- Chapter 9 Population Distribution: Urbanization and Urban Problems 187

PART IV RESOURCES 213

- Chapter 10 Soil Resources 214
- Chapter 11 Water Resources 238
- Chapter 12 Food Resources 259
- Chapter 13 Land Resources: Forests, Rangelands, Parks, and Wilderness 284
- Chapter 14 Wild Plant and Animal Resources 317
- Chapter 15 Nonrenewable Mineral Resources and Solid Waste 344

- Chapter 16 Nonrenewable Energy Resources: Fossil Fuels, Geothermal Energy, and Nuclear Energy 374

- Chapter 17 Renewable and Perpetual Energy Resources: Conservation, Sun, Wind, Water, and Biomass 413

PART V POLLUTION 449

- Chapter 18 Environment, Health, and Risk 450
- Chapter 19 Air Pollution 483
- Chapter 20 Water Pollution 518
- Chapter 21 Pesticides and Pest Control 549

PART VI ENVIRONMENT AND SOCIETY 567

- Chapter 22 Economics and Environment 568
- Chapter 23 Politics and Environment 588
- Chapter 24 Worldviews, Ethics, and Environment 609

Epilogue 620

Appendixes A1

Further Readings A10

Glossary A36

Index A55

Detailed Contents

PART I HUMANS AND NATURE: AN OVERVIEW 1

Chapter 1 Population, Resources, Environmental Degradation, and Pollution 2

- 1-1 Human Population Growth 3
- 1-2 Resources and Environmental Degradation 9
- 1-3 Pollution 16
- 1-4 Relationships Among Population, Resource Use, Technology, Environmental Degradation, and Pollution 19
- 1-5 What Should Be Done? Neo-Malthusians versus Cornucopians 22
 - Guest Essay The Global Environmental Challenge* by Gus Speth 24
 - Guest Essay There Is No Environmental, Population, or Resource Crisis* by Julian L. Simon 26
 - Chapter Summary 28
 - Discussion Topics 29

Chapter 2 Brief History of Resource Exploitation and Conservation 30

- 2-1 Hunting-and-Gathering Societies 30
- 2-2 Agricultural Societies 32
- 2-3 Industrial Societies: The Industrial Revolution 34
- 2-4 Historical Overview of Resource Exploitation, Resource Conservation, and Environmental Protection in the United States 35
- 2-5 Some Possible Futures 45
 - Chapter Summary 49
 - Discussion Topics 50

PART II BASIC CONCEPTS 51

Chapter 3 Matter and Energy Resources: Types and Concepts 52

- 3-1 Matter: Forms, Structure, and Quality 52
- 3-2 Energy: Types, Forms, and Quality 56
- 3-3 Physical and Chemical Changes and the Law of Conservation of Matter 58
- 3-4 Nuclear Changes 60
- 3-5 The First and Second Laws of Energy 62
- 3-6 Energy Efficiency and Net Useful Energy 64
- 3-7 Matter and Energy Laws and Environmental and Resource Problems 70
 - Enrichment Study Science and Technology* 72
 - Chapter Summary 74
 - Discussion Topics 75

Chapter 4 Ecosystems: What Are They and How Do They Work? 76

- 4-1 The Earth's Life-Support Systems: An Overview 76
- 4-2 Ecosystems: Types and Components 80
- 4-3 Energy Flow in Ecosystems 87
- 4-4 Matter Recycling in Ecosystems 93
- 4-5 Roles and Interactions of Species in Ecosystems 99
 - Guest Essay We Propose and Nature Disposes* by Edward J. Kormondy 104
 - Chapter Summary 104
 - Discussion Topics 106

Chapter 5 Ecosystems: What Are the Major Types? 107

- 5-1 Climate: A Brief Introduction 107
- 5-2 Major Types of Terrestrial Ecosystems: Deserts, Grasslands, and Forests 113
- 5-3 Aquatic Ecosystems 119
 - Enrichment Study Use and Protection of U.S. Coastal Zone* 129
 - Chapter Summary 130
 - Discussion Topics 132

Chapter 6 Changes in Populations, Communities, and Ecosystems 133

- 6-1 Responses of Living Systems to Environmental Stress 133
- 6-2 Population Responses to Stress 136
- 6-3 Community-Ecosystem Responses to Stress 142
- 6-4 Human Impacts on Ecosystems 147
 - Enrichment Study Ecosystem Rehabilitation and Restoration* 151
 - Guest Essay The Abolition of War as a Condition for Human Survival* by Kenneth E. Boulding 153
 - Chapter Summary 155
 - Discussion Topics 156

PART III THE HUMAN POPULATION 157

Chapter 7 Population Dynamics 158

- 7-1 Births, Deaths, and Changes in Human Population Size 158
- 7-2 Fertility 162
- 7-3 Population Age Structure 165
 - Guest Essay The Population Bomb: A Perspective After Two Decades* by Carl Haub 168
 - Chapter Summary 170
 - Discussion Topics 170

Chapter 8 Population Regulation 171

- 8-1 Population Regulation by Economic Development 171
- 8-2 Population Regulation by Family Planning 173
- 8-3 Population Regulation by Socioeconomic Change and Migration Restriction 175

- 8-4 Case Studies: Population Regulation in India and China 177

- 8-5 Global and U.S. Population Policy 179

Guest Essay Moral Implications of Cultural Carrying Capacity by Garrett Hardin 180

Enrichment Study Present and Future Methods of Birth Control 182

Chapter Summary 184

Discussion Topics 186

Chapter 9 Population Distribution: Urbanization and Urban Problems 187

- 9-1 Urbanization and Urban Growth 187
- 9-2 Patterns of Urban Growth and Development 192
- 9-3 Environmental and Resource Problems of Urban Areas 193
- 9-4 Urban Transportation 199
- 9-5 Urban Land-Use Planning and Control 204
- 9-6 Making Urban Areas More Liveable and Sustainable 206
 - Chapter Summary 211
 - Discussion Topics 212

PART IV RESOURCES 213

Chapter 10 Soil Resources 214

- 10-1 Soils: Components, Types, and Properties 214
- 10-2 Soil Erosion 220
- 10-3 Soil Conservation 226
- 10-4 Soil Contamination 233

Guest Essay Land Degradation and Environmental Resources by David Pimentel 235

Chapter Summary 236

Discussion Topics 237

Chapter 11 Water Resources 238

- 11-1 Supply, Renewal, and Use of Water Resources 238
- 11-2 Water Resource Problems 243
- 11-3 Water Resource Management 247
 - Chapter Summary 258
 - Discussion Topics 258

Chapter 12 Food Resources 259

- 12-1 World Agricultural Systems: How Is Food Produced? 259
- 12-2 Major World Food Problems 266
- 12-3 Methods of Increasing World Food Production 271
- 12-4 Catching More Fish and Fish Farming 274
- 12-5 Making Food Production Profitable, Giving Food Aid, and Distributing Land to the Poor 278
- 12-6 Sustainable-Earth Agriculture 281
 - Chapter Summary 282
 - Discussion Topics 283

Chapter 13 Land Resources: Forests, Rangelands, Parks, and Wilderness 284

- 13-1 Forests: Types, Distribution, and Importance 284
- 13-2 Tropical Deforestation and the Fuelwood Crisis 287
- 13-3 Public Lands and Forest Resources in the United States 292
- 13-4 Forest Management and Conservation 295
- 13-5 Rangelands 305
- 13-6 Parks: Use and Abuse 308
- 13-7 Wilderness Preservation 311
 - Guest Essay Tropical Forests and Their Species: Going, Going . . . ?* by Norman Myers 314
 - Chapter Summary 314
 - Discussion Topics 316

Chapter 14 Wild Plant and Animal Resources 317

- 14-1 Why Preserve Wild Plant and Animal Species? 318
- 14-2 How Species Become Depleted and Extinct 320
- 14-3 Protecting Wild Species from Extinction 329
- 14-4 Wildlife Management 335
- 14-5 Fishery Management 339
 - Chapter Summary 342
 - Discussion Topics 343

Chapter 15 Nonrenewable Mineral Resources and Solid Waste 344

- 15-1 Origin and Distribution of Mineral Resources 344
- 15-2 Locating and Extracting Mineral Resources 347
- 15-3 Environmental Impact of Mining, Processing, and Using Mineral Resources 348
- 15-4 Will There Be Enough Mineral Resources? 352
- 15-5 Increasing Mineral Resource Supplies: The Supply-Side Approach 355
- 15-6 Wasting Resources: The Throwaway Approach 358
- 15-7 Extending Resource Supplies: The Conservation Approach 361
 - Guest Essay Materials Recovery and the Wealth of a Nation* by Neil Seldman 371
 - Chapter Summary 372
 - Discussion Topics 373

Chapter 16 Nonrenewable Energy Resources: Fossil Fuels, Geothermal Energy, and Nuclear Energy 374

- 16-1 Evaluating Energy Resources 374
- 16-2 Oil and Natural Gas 375
- 16-3 Coal 382
- 16-4 Geothermal Energy 389
- 16-5 Conventional Nonrenewable Nuclear Fission 391
- 16-6 Breeder Nuclear Fission and Nuclear Fusion 407
 - Guest Essay Nuclear Energy: A Faustian Bargain We Should Accept* by Alvin M. Weinberg 406
 - Guest Essay Technology Is the Answer (But What Was the Question?)* by Amory B. Lovins 408
 - Chapter Summary 410
 - Discussion Topics 412

Chapter 17 Renewable and Perpetual Energy Resources: Conservation, Sun, Wind, Water, and Biomass 413

- 17-1 Improving Energy Efficiency: Doing More with Less 413
- 17-2 Direct Solar Energy for Producing Heat and Electricity 422

- 17-3 Indirect Solar Energy: Producing Electricity from Falling and Flowing Water 431
- 17-4 Indirect Solar Energy: Producing Electricity from Heat Stored in Water 432
- 17-5 Indirect Solar Energy: Producing Electricity from Wind 433
- 17-6 Indirect Renewable Solar Energy: Biomass 435
- 17-7 Hydrogen as a Possible Replacement for Oil 438
- 17-8 Developing an Energy Strategy for the United States 439
 - Chapter Summary 446
 - Discussion Topics 447

Chapter 20 Water Pollution 518

- 20-1 Types, Effects, and Sources of Water Pollution 518
- 20-2 Pollution of Rivers, Lakes, and Reservoirs 521
- 20-3 Ocean Pollution 529
- 20-4 Groundwater Pollution 537
- 20-5 Controlling Water Pollution 538
- 20-6 U.S. Water Pollution Control Laws 544
 - Guest Essay Economics Versus Ecology in the USSR: The Case of Lake Baikal* by Philip R. Pryde 546
 - Chapter Summary 546
 - Discussion Topics 548

PART V POLLUTION 449

Chapter 18 Environment, Health, and Risk 450

- 18-1 Hazards: Types and Effects 450
- 18-2 Biological Hazards: Disease, Economics, and Geography 455
- 18-3 Risk Assessment and Risk Management 458
- 18-4 Risk Factors and Cancer 462
- 18-5 Risks From Food Additives 466
- 18-6 Risks From Hazardous Waste 470
 - Enrichment Study Risks from Sexually Transmitted Diseases* 480
 - Chapter Summary 480
 - Discussion Topics 482

Chapter 19 Air Pollution 483

- 19-1 Types and Sources of Outdoor and Indoor Air Pollution 483
- 19-2 Smog and Acid Deposition 491
- 19-3 Effects of Air Pollution on Living Organisms and On Materials 497
- 19-4 Effects of Air Pollution on Stratospheric Ozone and Global and Regional Climate 501
- 19-5 Controlling Air Pollution 507
 - Guest Essay Don't Forget To Take Your Umbrella!* by Donald G. Barnes 515
 - Chapter Summary 516
 - Discussion Topics 517

Chapter 21 Pesticides and Pest Control 549

- 21-1 Pesticides: Types and Uses 549
- 21-2 The Case for Pesticides 552
- 21-3 The Case Against Pesticides 552
- 21-4 Pesticide Regulation in the United States 556
- 21-5 Alternative Methods of Insect Control 558
 - Chapter Summary 565
 - Discussion Topics 565

PART VI ENVIRONMENT AND SOCIETY 567

Chapter 22 Economics and Environment 568

- 22-1 Economic Goods and Resources 568
- 22-2 Economic Systems 570
- 22-3 Economic Growth, Productivity, and External Costs 573
- 22-4 Economic Approaches to Improving Environmental Quality and Conserving Resources 578
 - Guest Essay: The Steady-State Economy in Outline* by Herman E. Daly 585
 - Chapter Summary 587
 - Discussion Topics 587

Chapter 23 Politics and Environment 588

23-1 Influencing Public Environmental and Resource Policy 588

23-2 Environmental and Resource Policy in the United States 591

23-3 Environmental Law 597

23-4 What Can You Do? 598

Guest Essay Feeling Edgy by John H. Gibbons 603

Guest Essay A World Without Breaks by Richard D. Lamm 604

Enrichment Study How to Influence Elected Officials 606

Chapter Summary 608

Discussion Topics 608

Chapter 24 Worldviews, Ethics, and Environment 609

24-1 The Throwaway Worldview 609

24-2 The Sustainable-Earth Worldview 610

24-3 What Can You Do? 614

Guest Essay The Deep Ecology Movement by George Sessions 616

Chapter Summary 618

Discussion Topics 619

Epilogue 620

Appendix 1 Publications, Environmental Organizations, and Federal and International Agencies A1

Appendix 2 Units of Measurement A8

Appendix 3 Major U.S. Resource Conservation and Environmental Legislation A9

Further Readings A10
