Preface xv

## **PART A FUNDAMENTALS OF PHARMACOLOGY 1**

### **SECTION 1 PHYTOTHERAPY AND PHARMACOLOGY**

1. Importance of plants in modern pharmacy and medicine 4
2. Pharmacology and its history: people, plants and natural products 13

### **SECTION 2 BASIC PLANT BIOLOGY**

3. General principles of botany: morphology and systematics 29
4. Families yielding important phytopharmaceuticals 37
5. Ethnobotany and ethnopharmacy 52

### **SECTION 3 NATURAL PRODUCT CHEMISTRY**

6. Natural product chemistry 65
7. Methods in natural product analytical chemistry 105

8. Isolation and structure elucidation of natural products 121

9. Anticancer natural products 142

### **SECTION 4 MEDICINES AND NUTRACEUTICALS/BOTANICALS DERIVED FROM PLANT EXTRACTS**

10. Production, quality control and standardization of herbal materials 162
11. The complex chemistry and pharmacology of herbal medicines 173
12. Toxicity of herbal constituents 179

### **SECTION 5 MEDICINAL PLANTS IN TRADITIONAL MEDICINE SYSTEMS, COMPLEMENTARY AND INTEGRATIVE MEDICINE**

13. Overview of medicinal plants in healthcare systems 185
14. Characteristics of traditional medicine systems using herbal substances 190
15. Western herbal medicine 192
16. 'Oriental' and 'Asian' forms of traditional medicine 196
17. African, American and Oceanian traditional medicine using herbal preparations 210
18. Complementary/alternative or 'integrative' therapies involving use of plant substances 218
19. Herbal medicine interactions 228

**PART B IMPORTANT NATURAL PRODUCTS  
AND PHYTOMEDICINES USED IN  
PHARMACY AND MEDICINE 233**

- 20. The gastrointestinal and biliary system 235
  - 21. The cardiovascular system 250
  - 22. The respiratory system 259
  - 23. The central nervous system 273
  - 24. Infectious diseases 286
  - 25. The endocrine system 295
  - 26. The reproductive tract 306
  - 27. The musculoskeletal system 309
  - 28. The skin 318
  - 29. The eye 326
  - 30. Ear, nose and oropharynx 328
  - 31. Weight loss supplements 331
  - 32. Miscellaneous supportive therapies for stress, ageing,  
cancer and debility 334
- Index 345
