

Breast Cancer

Research and Treatment

Reports

- Direct-to-patient BRCA1 testing: the *TwoJ Styl* experience** J Gronwald, T Huzarski, T Byrski, T Dębniak, K Metcalfe, SA Narod, J Lubiriski 239–245
- Computed tomography in suspected local breast cancer recurrence** F Ternier, G Houvenaeghel, F Lecrivain, B Le Brigand, D Margain, S Brunelle, D Di Stefano 247–254
- Predictors of reduced dose intensity in patients with early-stage breast cancer receiving adjuvant chemotherapy** M Shayne, J Crawford, DC Dale, E Culakova, GH Lyman for the ANC Study Group 255–262
- Quality of life analyses in a clinical trial of DPPE (tesmilifene) plus doxorubicin versus doxorubicin in patients with advanced or metastatic breast cancer: NCIC CTG Trial MA.19** J Liu, D Tu, J Dancey, L Reyno, KI Pritchard, J Pater, LK Seymour 263–271
- Quality of life of postmenopausal women in the ATAC (“Arimidex”, tamoxifen, alone or in combination) trial after completion of 5 years’ adjuvant treatment for early breast cancer** D Cella, L Fallowfield, P Barker, J Cuzick, G Locker, A Howell On behalf of the ATAC Trialists’ Group 273–284
- Early self-reported impairments in arm functioning of primary breast cancer patients predict late side effects of axillary lymph node dissection: results from a population-based cohort study** US Albert, M Koller, I Kopp, W Lorenz, KD Schulz, U Wagner 285–292
- Cigarette smoking and breast cancer risk: update of a prospective cohort study** Y Cui, AB Miller, TE Rohan 293–299
- Interleukin-6, multidrug resistance protein-1 expression and response to paclitaxel in women with metastatic breast cancer: results of cancer and leukemia group B trial 159806** M Rincon, G Broadwater, L Harris, A Crocker, D Weaver, L Dressler, D Berry, L Sutton, R Michaelson, M Messino, J Kirshner, G Fleming, E Winer, C Hudis, S Appel, L Norton, H Muss for the Cancer and Leukemia Group B 301–308
- Variation in false-positive rates of mammography reading among 1067 radiologists: a population-based assessment** A Tan, DH Freeman Jr, JS Goodwin, JL Freeman 309–318
- Is risk of axillary lymph node metastasis associated with proximity of breast cancer to the skin?** JE Cunningham, AL Jurj, L Oman, AE Stonerock, DK Nitcheva, TE Cupples 319–328

Letters to the Editor

- Albumin-bound paclitaxel, ABI-007 may show better efficacy than paclitaxel in basal-like breast cancers: association between caveolin-1 expression and ABI-007** K Altundag, N Bulut, O Dizdar, H Harputluoglu 329–330
- Lack of association between NOS3 Glu298Asp and breast cancer risk: a case-control study** JL Royo, JA Moreno-Nogueira, JJ Galán, A González-Martín, A Ruiz, R González-Mancha, LM Real 331–333
- A high risk of occurrence of sporadic breast cancer in individuals with the 104NN polymorphism of the COL18A1 gene** GJ Lourenço, C Cardoso-Filho, NSL Gonçalves, JY Shinzato, LC Zeferino, H Nascimento, FF Costa MSC Gurgel, CSP Lima 335–338

Abstracts

- Late-breaking abstracts** 339–349
