

CONTENTS

INTRODUCTION	4
Chapter I. BASIC EQUATIONS DESCRIBING FLOWS	7
1.1 Conservation Laws	8
1.2 Constitutive Relations	13
1.3 Thermodynamic State Equations	16
1.4 Boundary and Initial Conditions	18
Chapter II. EULER EQUATIONS AND THEIR NUMERICAL SOLUTION	22
2.1 Theoretical Results	22
2.2 Finite Volume Method	41
2.3 Boundary Conditions	62
2.4 Second Order Method	64
Chapter III. TUTORIALS	71
REFERENCES	78
