

CONTENTS

MODULE I

BASIC CONCEPTS OF INFORMATION TECHNOLOGY

1.1.	Introduction	1
1.1.1.	What is it a computer?	1
1.2.2.	Computer history	3
1.1.3.	Price reduction and performance growth	5
1.1.4.	Computer networks	6
1.1.5.	The Internet and information age	6
1.1.6.	Information processes	8
1.2.	Hardware	10
1.2.1.	Computer types	10
1.2.2.	Hardware	11
1.2.3.	Main parts of the computer	14
1.3.	Data storage	16
1.3.1.	Bits and bytes	16
1.3.2.	Byte	16
1.3.3.	Memory types	16
1.4.	Disk drives	17
1.4.1.	Floppy drive	17
1.4.2.	Hard drive	17
1.4.3.	CD and DVD drives	17
1.4.4.	ZIP drive	17
1.4.5.	Other backup media	17
1.5.	Software	18
1.5.1.	Software types	18
1.5.2.	Shareware	18
1.5.3.	Freeware	18

1.5.4.	Public domain.....	18
1.5.5.	Operating systems.....	19
1.5.6.	Applications.....	19
1.5.7.	Text editors.....	19
1.5.8.	Spreadsheets.....	20
1.5.9.	Presentation programs.....	20
1.5.10.	Internet-operating programs.....	20
1.5.11.	Databases.....	20
1.5.12.	Accounting software.....	20
1.5.13.	DTP programs.....	20
1.5.14.	Graphic editors.....	20
1.5.15.	Multimedia programs.....	20
1.5.16.	Games.....	21
1.5.17.	Maintenance programs.....	21
1.6.	Information networks.....	22
1.6.1.	The Internet.....	22
1.6.2.	E-mail.....	22
1.7.	Computers are omnipresent – so how to use them?.....	23
1.7.1.	Computers at home.....	23
1.7.2.	Computer at schools and offices.....	23
1.7.3.	Other use of computers.....	23
1.7.4.	Computers as compensation and aid tools.....	23
1.7.5.	Information society.....	23
1.8.	What you shouldn't forget about.....	24
1.8.1.	Health protection related to computer operations.....	24
1.8.2.	Data protection.....	24
1.8.3.	Computer protection.....	24
1.8.4.	Computer viruses.....	24
1.8.5.	Data backup.....	25
1.8.6.	Copyright.....	25
1.8.7.	Personal data protection.....	25

5.7.9.	Organization chart	173
5.8.	Graphic adjustments of presentations	174
5.8.1.	Design templates	174
5.8.2.	Slide color scheme	174
5.8.3.	Background	174
5.8.4.	Master	175
5.9.	Text formatting	176
5.9.1.	Font format	176
5.9.2.	Paragraph format	176
5.10.	Slide operations	178
5.10.1.	Switching between slides	178
5.10.2.	Select multiple slides	178
5.10.3.	Copy and move slides	179
5.10.4.	Remove slides	179
5.11.	Text box operations	180
	Insert date and time	180
5.12.	Insert graphic elements	181
5.13.	Object operations	182
5.14.	Slide show	183
5.14.1.	View the slide show	183
5.14.2.	Switching between slides	183
5.15.	Effects, animation, and timing	184
5.15.1.	Transition effects	184
5.15.2.	Custom slide animation	184
5.15.3.	Slide show timings	185
5.16.	Printing options, print and slide show setup	186
5.16.1.	Header and footer	186
5.16.2.	Presenter's notes	186
5.16.3.	Page setup	186
5.16.4.	Print	187
5.16.5.	Slide show settings	188
5.16.6.	Summary slide	188

MODULE VII**THE INTERNET**

7.1.1.	The history of the Internet	189
7.2.	Internet services	190
7.2.1.	Web services	190
7.2.2.	E-mail	190
7.2.3.	FTP	190
7.2.4.	Telnet	190
7.2.5.	Instant messaging	190
7.2.6.	E-business	191
7.2.7.	News	191
7.2.8.	Chat	191
7.2.9.	Other services	191
7.3.	Internet connection	192
7.3.1.	Dial-up connection	192
7.3.2.	ADSL	192
7.3.3.	Wireless connection	192
7.3.4.	Other types of connection	193
7.4.	Internet addresses	194
	Top-level domains	194
7.5.	WWW	195
	Web browsers	195
7.6.	Internet Explorer	196
	The environment	196
7.7.	Internet Explorer operations	197
7.7.1.	Enter the address	197
7.7.2.	Move between pages	197
7.7.3.	Searching the page for particular information	198
7.8.	Search for information	199
7.9.	Portals	200
7.10.	Search servers	201
	Search centers	201

7.11.	Page operations	202
7.11.1.	Save the page	202
7.11.2.	Save a picture	202
7.11.3.	Print	203
7.11.4.	History	203
7.11.5.	Favorites	203
7.12.	Internet Explorer configuration	204
7.12.1.	Home page	204
7.12.2.	History and contents	205
7.12.3.	Picture viewing	205
7.12.4.	Cookies	205
7.13.	E-mail	206
7.14.	MS Outlook	207
	The environment	207
7.15.	Mail folders	208
7.15.1.	Inbox	208
7.15.2.	Sent items	208
7.15.3.	Outbox	208
7.15.4.	Drafts	208
7.15.5.	Deleted items	208
7.16.	Mail window	209
7.16.1.	Attachments	209
7.16.2.	Move to the next mail	209
7.17.	Replies to e-mails	210
7.17.1.	Reply to all	210
7.17.2.	Forward	210
7.18.	Create a new mail	211
7.18.1.	Select the right address	211
7.18.2.	Check names	211
7.18.3.	Attachments	211
7.19.	Message options	212
7.19.1.	Message format	212

7.19.2.	Importance	212
7.19.3.	Read receipt	212
7.20.	Contacts	213
	Create a contact from the message	213
7.21.	Distribution lists	214
7.22.	Arrangements and rules	215
	7.22.1. Create a folder	215
	7.22.2. Move a message	215
	7.22.3. Rules to move messages	215
7.23.	Netiquette	216
	7.23.1. The ten commandments for computer ethics	216
	7.23.2. Emoticons	216
7.24.	Internet security	217
	7.24.1. Viruses	217
	7.24.2. Hoax	217
	7.24.3. Spam	217
	7.24.4. Pop-up windows	217
	7.24.5. Spyware	218

MODULE II

COMPUTER OPERATIONS AND FILE MANAGEMENT	27
2.1. Turning on the computer	27
2.2. Keyboard and mouse	29
2.2.1. Using the mouse	29
2.2.2. Mouse functions	29
2.2.3. Meaning of cursor icons	31
2.3. Keyboard operations	32
2.4. Correct restart and shutdown of the computer	33
2.5. Desktop	34
Desktop and Start menu	34
2.6. Icons	35
2.6.1. Icon overview	35
2.6.2. Shortcut	36
2.6.4. Move	36
2.6.5. Create new icons (folders and files)	36
2.6.6. Rename	37
2.6.7. Copy	37
2.6.8. Delete	38
2.7. Windows	39
2.7.1. Open the window	39
2.7.2. Minimize the window	40
2.7.3. Maximize the window	40
2.7.4. Restore the window size	40
2.7.5. Switch between windows	40
2.7.6. Change the window size	41
2.7.7. Move the window	41
2.7.8. Close the window	41
2.8. Folders	42
2.8.1. Purpose of the folders	42
2.8.2. Windows Explorer	42
2.8.3. Create a folder	43

2.9. File operations	44
Renaming, moving and deleting the files	44
2.10. File order	45
2.10.1. File attributes	45
2.10.2. File order in a folder	45
2.11. Searching for files	46
File attributes	48
2.12. Edit the files	49
2.13. Backup	50
2.13.1. Format the floppy disk	50
2.13.2. Free disk space	51
2.14. Print	52
2.14.1. Print the document	52
2.14.2. Selection of the printer and printing parameters	52
2.14.3. Setup of the default printer	53
2.14.4. Printing status	54
2.15. System configuration	55
2.15.1. Information on system configuration	55
2.15.2. MS Windows Setup – Control panels	57
2.16. Desktop settings	58
2.17. Using help	59

MODULE III

TEXT EDITORS

3.1.1. Run the program	61
3.1.2. MS Word versions	61
3.2. The environment	62
3.3. Layout customization	63
3.3.1. Layout	63
3.3.2. Zoom	63
3.3.3. Toolbars	63
3.3.4. Ruler	63

3.4.	Document operations	64
3.4.1.	Create and open documents	64
3.4.2.	Save documents	65
3.4.3.	Save as	65
3.4.4.	Auto Recovery	66
3.4.5.	Close documents	66
3.4.6.	Swapping documents	67
3.5.	Text operations	68
3.5.1.	Undo operations	68
3.5.2.	Browse through the text	68
3.5.3.	Type the text	68
3.5.4.	Select the text	69
3.5.5.	Changes in the text	70
3.5.6.	How to delete the text	71
3.6.	Font format	72
3.6.1.	Basic font format options	72
3.6.2.	Advanced font format settings	73
3.6.3.	Format painter	74
3.7.	Paragraph format	75
3.7.1.	Advanced paragraph format settings	75
3.7.2.	Indent settings using ruler	77
3.7.3.	Style	77
3.7.4.	Outline	78
3.8.	Bullets and numbering	79
3.9.	Tabs	81
3.10.	How to insert special characters	82
	AutoCorrect	83
3.11.	Unprintable characters	84
3.12.	Headers and footers	86
3.13.	Drawing	87
3.14.	Insert pictures	89
3.15.	Tables	90

3.16.	Mail merge	92
3.17.	Spell check	94
3.17.1.	Ongoing control	94
3.17.2.	AutoCorrect function	94
3.17.3.	Spelling and Grammar	95
3.18.	Page setup	96
3.18.1.	Margins setup	96
3.18.2.	Paper size settings	97
3.18.3.	Paper source settings	97
3.19.	Print	98
3.19.1.	Preview	98
3.19.2.	Print the document	98

MODULE IV

SPREADSHEETS

4.1.1.	MS Excel	99
4.1.2.	Run the program	99
4.1.3.	MS Excel versions	99
4.2.	The environment	100
4.2.1.	The environment	100
4.2.2.	File operations	100
4.2.3.	Automatic recovery	101
4.2.4.	Switching between documents	101
4.2.5.	Cursors and selections in MS Excel	101
4.3.	Cell selection	102
4.4.	Basic operations	103
4.4.1.	How to move within a sheet	103
4.4.2.	View a cell	103
4.5.	How to enter, edit or delete data	104
4.5.1.	Enter the data	104
4.5.2.	Data correct	104
4.5.3.	Delete the cell contents	104

4.6.	Size adjustment	106
4.7.	Basic sheet operations	107
	Use of multiple sheets	107
4.8.	Formulas and functions	109
4.8.1.	Sum	109
4.8.2.	Cell addressing	109
4.8.3.	Easy functions	109
4.8.4.	Multi-sheet references	110
4.8.5.	Easy functions overview	110
4.9.	Formula errors	111
4.9.1.	#DIV/O	111
4.9.2.	#Value!	111
4.9.3.	#Name?	111
4.9.4.	####	111
4.9.5.	Circular reference	111
4.10.	Copy and move	112
4.10.1.	Copy and move	112
4.10.2.	Copy formulas	112
4.10.3.	Absolute links	113
4.11.	Fill handle	115
4.11.1.	The fill handle and formula copying	115
4.11.2.	Sequence development	115
4.12.	Cell formatting	117
4.12.1.	Font	117
4.12.2.	Alignment	118
4.13.	Format of numbers	119
4.14.	Table formatting	120
4.15.	Charts	121
4.16.	Chart formatting	124
4.17.	Lists	125
4.17.1.	Create a list	125
4.17.2.	Autofilter	125

4.17.3.	Data sort	126
4.17.4.	Split window	126
4.18.	Print	127
4.18.1.	Preview and print	127
4.18.2.	Page break indicator	127
4.19.	Page setup	128
Sheet	129	

MODULE V

DATABASE

		131
6.1.1.	About MS Access	131
6.2.	Create a new database	132
6.2.1.	Start the program	132
6.2.2.	Save the database	132
6.3.	Tables	133
6.3.1.	Definition	133
6.3.2.	Create a new table	133
6.4.	Field entry	134
6.5.	Save the table	135
6.6.	Changes in table design	136
6.7.	Data types	137
6.8.	Field properties	138
6.8.1.	Field size	138
6.8.2.	Format	139
6.8.3.	Default value	139
6.8.4.	Validation rule	140
6.8.5.	Input mask	140
6.8.6.	Required	140
6.8.7.	Allow zero length	140
6.8.8.	Caption	140
6.9.	Index	141
6.9.1.	Indexed	141

6.9.2.	Primary key	141
6.9.3.	Multiple field indexing	142
6.10.	Table data operations	143
6.10.1.	Enter the data to the table	143
6.10.2.	Sort order	143
6.10.3.	Delete records	144
6.10.4.	Search the records	144
6.11.	Relationships	145
6.11.1.	Definition	145
6.11.2.	Link types	146
6.11.3.	Relationship types	146
6.12.	Queries	147
6.12.1.	Definition	147
6.12.2.	Types of queries	147
6.12.3.	Select query	148
6.12.4.	Create a select query with totals	150
6.13.	Forms	151
6.13.1.	Definition	151
6.13.2.	Create a form	151
6.14.	Edit the form	152
6.15.	Form operations	154
6.15.1.	Switch between records	154
6.15.2.	Move within a record	154
6.15.3.	Sort records	154
6.15.4.	Record lookup	154
6.15.5.	Filters	154
6.15.6.	Datasheet view	155
6.16.	Reports	156
6.17.	Database utilities	158
6.17.1.	Compact and repair database	158
6.17.2.	Database startup	158

MODULE VI

ELECTRONIC PRESENTATION

		159
5.1.1.	Definition	159
5.1.2.	Why presentations?	159
5.1.3.	About PowerPoint	159
5.2.	Create a presentation	160
5.2.1.	The preparation process	160
5.2.2.	Making up the presentation	161
5.3.	PowerPoint	162
5.3.1.	Start the program	162
5.3.2.	The environment	162
5.3.3.	Slide	162
5.4.	File operations in MS PowerPoint	163
5.5.	Enter the text	164
5.5.1.	Frame operations	164
5.5.2.	Enter the text	164
5.6.	View options	165
5.6.1.	Normal 	165
5.6.2.	Slide sorter 	165
5.6.3.	Outline 	165
5.6.4.	Slide 	165
5.6.5.	Notes page	166
5.6.6.	Slide show 	166
5.7.	Slides	167
5.7.1.	New slide	167
5.7.2.	Title slide	167
5.7.3.	Slide layout change	167
5.7.4.	Bulleted list	168
5.7.5.	Text and Clip Art	168
5.7.6.	Text and object	169
5.7.7.	Table	170
5.7.8.	Chart	171
