Introduction (A. Lebeda)	17

Scientific contributions

I. General aspects, culture and management

J. Moravec, A. Lebeda and E. Křístková (Czech Republic) History of growing and breeding of cucurbitaceous vegetables in Czech Lands	21
J. Lužný, A. Lebeda and E. Křístková (Czech Republic) A dedication to Franz Frimmel, a Czech leader of cucurbit breeding	39
L. Nowaczyk and P. Nowaczyk (Poland) Cucumber fruit size and seed yield affected by growth regulators	45
N. Biriukova and E. Maslovskaia (Russia) The influence of cultivation conditions on parthenocarp of cucumber	51
G. Baysal, R. Tipirdamaz and Y. Ekmekci (Turkey) Effects of salinity on some physiological parameters in three cultivars of cucumber (<i>Cucumis sativus</i>)	57
M. Edelstein, M. Ben-Hur, R. Cohen, Y. Burger and I. Ravina (Israel) Comparison of grafted and non-grafted melon plants under excess of boron and salinity stress	63
A.M. Granero, J.M.G. Sanz, J.L.M. Vidal, A.G. Frenich, A.R. Serrano and F.J.E. González (Spain) Sugars and volatiles composition of nectar of zucchini flowers	69
J.M.G. Sanz, A.R. Serrano and A.M. Granero (Spain) Pollination of zucchini culture by bumblebees: Advance of results of quality production	75
 <i>II. Germplasm</i>	
V.S. Seshadri and T.A. More (India) History and antiquity of cucurbits in India	81

W. van Doonijeweert (the Netherlands) The status of the cucumber (<i>Cucumis sativus</i>) collection of CGN	91
V. Vinter, A. Křístková, A. Lebeda and E. Křístková (Czech Republic) Descriptor lists for genetic resources of the genus <i>Cucumis</i> and cultivated species of the genus <i>Cucurbita</i>	95
H. Pavlikaki, C. Ponce Navarro and N. Fanourakis (Greece) Genetic relationships of different Greek landraces of cucumber (<i>Cucumis sativus</i>) as assessed by RAPDs	101
T.C. Andres (USA) Diversity in tropical pumpkin (<i>Cucurbita moschata</i>): a review of infraspecific classifications	107
T.C. Andres (USA) Diversity in tropical pumpkin (<i>Cucurbita moschata</i>): cultivar origin and history	113
E. Křístková, A. Křístková and V. Vinter (Czech Republic) Morphological variation of cultivated <i>Cucurbita</i> species	119
M.L. Gomez-Guillamón, E. Moriones, M.S. Luis-Arteaga, V. Carnide, A. Börner, N. Sari, K. Abak and J.M. Alvarez (Spain, Portugal, Germany, Turkey) Management, conservation and valorization on genetic resources of <i>Cucumis melo</i> and wild relatives	129
V. Carnide, S. Martins, F.J. Vences, L.E. Sáenz de Miera and M.R. Barroso (Portugal, Spain) Evaluation of Portuguese melon landraces conserved on farm by morphological traits and RAPDs	135
M.R. Barroso, S. Martins, F.J. Vences, L.E. Sáenz de Miera and V. Carnide (Portugal, Spain) Comparative analysis of melon landraces from South Portugal using RAPD markers	143
Y. Burger, Y. Yeselson, U. Saar, H.S. Paris, N. Katzir, Y. Tadmor and A.A. Schaffer (Israel) Screening of melon (<i>Cucumis melo</i>) germplasm for consistently high sucrose content and for high ascorbic acid content	151
M.A. Queiroz, M.L. Silva, L.M. Silveira, R.C.S. Dias, M.A.J.F. Ferreira, S.R.R. Ramos, R.L. Romão, J.G.A. Assis, F.F. Souza and M.C.C.L. Moura (Brazil) Pre-breeding in the watermelon germplasm bank of the Northeast of Brazil	157

M. Koutsika-Sotiriou, E. Traka-Mavrona, A.L. Tsivelikas, G. Mpardas, A. Mpeis and E. Klonari (Greece) Use of genetic resources in a dual approach toward selecting improved scion/rootstock grafting combinations of melon (<i>Cucumis melo</i>) on <i>Cucurbita</i> spp.	163
A. López-Sesé and J.E. Staub (USA) Effects of seed maturation and temperature in germination of squash accessions: implications for gene flow	169
M. Sugiyama, K. Sugiyama, T. Ohara, M. Morishita and Y. Sakata (Japan) Characteristics and inheritance of a high hermaphroditic flower-bearing accession of watermelon (<i>Citrullus lanatus</i>)	175
Y. Tadmor, N. Katzir, S. King, A. Levi, A. Davis and J. Hirschberg (Israel, USA) Fruit coloration in watermelon: lessons from the tomato	181
III. Diseases and pests, disease resistance	
J.F. Chen, G. Moriarty and M. Jahn (China, USA) Some disease resistance tests in <i>Cucumis hystrix</i> and its progenies from interspecific hybridization with cucumber	189
T. Montoro, S. Sánchez-Campos, R. Camero, C.F. Marco, P. Corella and M.L. Gómez-Guillamón (Spain) Searching for resistance to cucumber vein yellowing virus in <i>Cucumis melo</i>	197
C. Mallor, J.M. Álvarez and M. Luis-Arteaga (Spain) Behaviour of <i>Cucumis melo</i> 'Cantaloup Haogen' against melon necrotic spot virus (MNSV)	203
J. Garcia-Mas, M. Morales, H. van Leeuwen, A. Monfort, P. Puigdomenech, P. Arús, C. Nieto, M.A. Aranda, C. Dogimont, G. Orjeda, M. Caboche and A. Bendahmane (Spain, France) A physical map covering the <i>Nsv</i> locus in melon	209
B.S. Daryono, S. Somowiyarjo and K.T. Natsuaki (Japan, Indonesia) Detection of resistant melons to the Indonesian isolate of KGMMV	213
J.D. McCreight (USA) Progress in breeding melon for resistance to lettuce infectious yellows virus	219
N. Guner and T.C. Wehner (USA) Resistance to a severe strain of zucchini yellow mosaic virus in watermelon	223

J. Svoboda and J. Polák (Czech Republic) Preliminary evaluation of squash cultivars for resistance to a Czech isolate of zucchini yellow mosaic virus	231
M. Pachner and T. Lelley (Austria) Different genes for resistance to zucchini yellow mosaic virus (ZYMV) in <i>Cucurbita moschata</i>	237
H. Olczak-Woltman, M. Bakowska, M. Schollenberger and K. Niemirowicz-Szczytt (Poland) Cucumber screening for resistance to angular leaf spot	245
D.L. Hopkins (USA) Characteristics of resistance to <i>Acidovorax avenae</i> subsp. <i>citrullii</i> in the <i>Citrullus lanatus</i> accessions PI 482279 and PI 494817	251
D. Kenigsbuch, D. Taler, M. Galperin, I. Benjamin and Y. Cohen (Israel) Plant <i>eR</i> genes encoding for glyoxalate aminotransferase enzymes confer resistance against downy mildew in melon	257
A. Lebeda and J. Urban (Czech Republic) Disease impact and pathogenicity variation in Czech populations of <i>Pseudoperonospora cubensis</i>	267
J. Urban and A. Lebeda (Czech Republic) Differential sensitivity to fungicides in Czech populations of <i>Pseudoperonospora cubensis</i>	275
A. Lebeda and B. Sedláková (Czech Republic) Disease impact and pathogenicity variation in Czech populations of cucurbit powdery mildews	281
B. Sedláková and A. Lebeda (Czech Republic) Variation in sensitivity to fungicides in Czech populations of cucurbit powdery mildews	289
T. Montoro, M. Salinas, J. Capel, M. Gómez-Guillamón and R. Lozano (Spain) Genetic variability in <i>Sphaerotheca fusca</i> as determined by AFLPs: the case of race 2 as a causal agent of powdery mildew in melon	295
R. Song, G. Gusmini and T.C. Wehner (China, USA) A summary of eleven preliminary studies of greenhouse and field testing methods for resistance to gummy stem blight in watermelon	301
L. Perchepped, C. Dogimont and M. Pitrat (France) Genetic analysis of resistance to <i>Fusarium oxysporum</i> f.sp. <i>melonis</i> race 1.2 in melon	307

R. Cohen, Y. Burger, C. Horev, A. Porat, U. Saar and M. Edelstein (Israel) Reduction of <i>Monosporascus</i> wilt incidence using different Ga- lia-type melons grafted onto <i>Cucurbita</i> rootstock	313
M. Grinberg, V. Soroker, E. Palevsky, I. Shomer and R. Perl-Treves (Israel) Response of cucumber to the broad mite (<i>Polyphagotarsonemus latus</i>)	319
J. Pauquet, E. Burget, L. Hagen, V. Chovelon, A. Le Menn, N. Valot, S. Desloire, M. Caboche, P. Rousselle, M. Pitrat, A. Bendahmane and C. Dogimont (France) Map-based cloning of the <i>Vat</i> gene from melon conferring resistance to both aphid colonization and aphid transmission of several viruses	325
IV. Breeding and genetics	
K. Bartoszak (Poland) Performance of pickling cucumber cultivars presently on the Polish National List	333
U. Klosinska and E.U. Kozik (Poland) Suitability of new cucumber F ₁ hybrids for open-field cultivation	337
J. Berenji and D. Papp (Serbia, Hungary) The effect of ethephon on the sex expression of naked seeded oil pumpkin	341
N. Ercan, M. Temirkaynak, F. Şensoy and A.S. Şensoy (Turkey) Evaluation of some inbred lines of summer squash for plant, flower, fruit and seed properties	345
P. Gómez, A. Peñaranda, D. Garrido and M. Jamilena (Spain) Evaluation of flower abscission and sex expression in different cultivars of zucchini squash (<i>Cucurbita pepo</i>)	347
L. Perchepied, C. Périn, N. Giovanazzo, D. Besombes, C. Dogimont and M. Pitrat (France) Susceptibility to sulfur dusting and inheritance in melon	353
B. Kowalczyk (Poland) Distinctness, uniformity and stability testing of cucumber culti- vars in Poland	359
Z. Sun, R.L. Lower and J.E. Staub (USA) Generation means analysis of parthenocarpic characters in a pro- cessing cucumber (<i>Cucumis sativus</i>) population	365
J.E. Zalapa, J.E. Staub and J.D. McCreight (USA) Genetic analysis of branching in melon (<i>Cucumis melo</i>)	373

J.E. Staub, J.E. Zalapa, M.K. Paris and J.D. McCreight (USA) Selection for lateral branch number in melon (<i>Cucumis melo</i>)	381
H.S. Paris, A. Hanan and F. Baumkoler (Israel) Assortment of five gene loci in <i>Cucurbita pepo</i>	389
L. Wessel-Beaver, H.E. Cuevas, T.C. Andres and D.R. Piperno (USA) Genetic compatibility between <i>Cucurbita moschata</i> and <i>C. argyrosperma</i>	393
M.D. Robbins and J.E. Staub (USA) Strategies for selection of multiple quantitatively inherited yield components in cucumber	401
V. Tissue culture, biotechnology, molecular genetics and mapping	
J. Sztangret, J. Wronka, T. Galecka, A. Korzeniewska and K. Niemirowicz-Szczytt (Poland) Cucumber (<i>Cucumis sativus</i>) haploids developed from partheno- carpic hybrids	411
D. Sk·lov·, A. Lebeda and B. Navr·tilov· (Czech Republic) Embryo and ovule cultures in <i>Cucumis</i> species and their utiliza- tion in interspecific hybridization	415
H. Ezura and Y. Akasaka-Kennedy (Japan) Somatic embryogenesis in a model cultivar, PI 161375 (<i>Cucumis</i> <i>melo</i> subsp. <i>agrestis</i>), of melon	431
E. Kiss-B·ba, S. P·ncz·El, V. Zarka, Gy.D. Bisztray and I. Velich (Hungary) Regeneration ability of some Hungarian melon varieties	437
J. Gajdov·, A. Lebeda and B. Navr·tilov· (Czech Republic) Protoplast cultures of <i>Cucumis</i> and <i>Cucurbita</i> spp.	441
G. Bartoszewski, S. Malepszy and M.J. Havey (Poland, USA) Mosaic (MSC) cucumbers regenerated from independent cell cul- tures possess different mitochondrial rearrangements	455
S. Curuk, S. Cetiner, C. Elman, X. Xia, Y. Wang, A. Yeheskel, L. Zil- berstein, R. Perl-Treves, A.A. Watad and V. Gaba (Turkey, Israel) Wounding by vortexing with carborundum facilitates <i>Agrobacte-</i> <i>rium</i> -mediated transformation of melon (<i>Cucumis melo</i>)	459
A. AtarÈs, B. GarcÌa-Sogo, B. Pineda, P. Ellul and V. Moreno (Spain) Transformation of melon via PEG-induced direct DNA uptake into protoplasts	465

Z. Gao, M. Petreikov, Y. Burger, S. Shen and A.A. Schaffer (Israel) Stachyose to sucrose metabolism in sweet melon (<i>Cucumis melo</i>) fruit mesocarp during the sucrose accumulation stage	471
S-M. Chung and J.E. Staub (USA) Consensus chloroplast primer analysis: A molecular tool for evolutionary studies in Cucurbitaceae	477
Y. Brotman, I. Kovalski, C. Dogimont, M. Pitrat, N. Katzir and R. Perl-Treves (Israel, France) Molecular mapping of the melon <i>Fom-1/Prv</i> locus	485
Y. Yariv, V. Portnoy, Y. Burger, Y. Benyamini, E. Lewinsohn, Y. Tadmor, U. Ravid, R. White, J. Giovannoni, A.A. Schaffer and N. Katzir (Israel, USA) Isolation and characterization of fruit-related genes in melon (<i>Cucumis melo</i>) using SSH and macroarray techniques	491
I. Eduardo, P. Ar's and A.J. Monforte (Spain) Genetics of fruit quality in melon. Verification of QTLs involved in fruit shape with near-isogenic lines (NILs)	499
N. Fukino, M. Kuzuya, M. Kuniyama and S. Matsumoto (Japan) Characterization of simple sequence repeats (SSRs) and development of SSR markers in melon (<i>Cucumis melo</i>)	503
A. Zraidi and T. Lelley (Austria) Genetic map for pumpkin <i>Cucurbita pepo</i> using random amplified polymorphic DNA markers	507
A. Levi, C.E. Thomas, J. Thies, A. Simmons, Y. Xu, X. Zhang, O.U.K. Reddy, Y. Tadmor, N. Katzir, T. Trebitsh, S. King, A. Davis, J. Fauve and T. Wehner (USA, China, Israel, France) Developing a genetic linkage map for watermelon: polymorphism, segregation and distribution of markers	515
P.A. Rajagopalan, T. Saraf-Levy, A. Lizhe and R. Perl-Treves (Israel, China) Increased femaleness in transgenic cucumbers that overexpress an ethylene receptor	525
Authors index	533
