

Table of contents

Foreword	XI
Preface	XIII
Organization	XV
 <i>S1 - Mine Equipment, Design and Selection</i>	
New Bucket Wheel Excavator Commissioned at Severočeské Doly a.s. Chomutov <i>Bartoš, K.</i>	3
Reinforcing of Large-Section Coal Entry with Blot and Cable for Gob-Side Entry Retaining in Fully Mechanized Coalface with Topcoal Caving <i>Dongsheng, Z., Liangwen, W. & Liqiang, M.</i>	9
Energy-Saving Solutions for Belt Conveying <i>Gładysiewicz, L. & Kawalec, W.</i>	13
Modeling Condition and Performance of Mining Equipment <i>Golosinski, T. S. & Hu, H.</i>	17
Deformation Regularity and Protection Methods of Main Road-ways in Deep Mines <i>Jiping, D., Zaikang, L., Dianzhao, Y. & Wanlong, Z.</i>	23
Mine Automation: Russia in the World <i>Konyukh, V.</i>	27
Analysis of Rolling Resistance Coefficient of Dried Silt and Wet Silt at Laboratory Scale <i>Kramadibrata, S., Rai, M. A., Simangunsong, G. M., Mulyana, C. Y., Laksana, S. G., Widodo, N. P. & Matsui, K.</i>	33
Optimised Magnetic Defectoscope for Nondestructive Testing in Mining <i>Lesňák, M., Pištora, J. & Yamaguchi, T.</i>	39
Dimensional Stone Cutting with Water Jet: Surface Finishing <i>Martin Cortes, G. R., Hennies, W. T. & Lauand, C. T.</i>	43
Comparative Analysis of the Design Solutions in the Inductive Current Supply to the Mobile Mining Equipment <i>Pivnyak, G. G., Rybalko, A. Y., Rogoza, M. V. & Panchenko, V. I.</i>	49
About Simultaneous Operation of Pumps and Statistical Head for Technological Wells Network for Metals ISL <i>Rogov, A. Y. & Rogov, Y. I.</i>	53
The Reliability Model of Fully Mechanized Sublevel Caving Mining System <i>Shihao, T. & Gang, Y.</i>	57
A New Support Way of Soft Rock Roadway – Dynamic Stepwise Reinforcement Technology <i>Zhang, N. & Chen, Q.</i>	61

S2 - Mining Methods for Third Millennium

Aggregative Learning Method and its Applications for Geo-Engineering Data Processing <i>Akhmetov, D. F., Komazaki, M., Ito, F., Tsukazawa, S. & Ujihira, M.</i>	69
The Prediction Indexes of Gas Outburst Danger in Coal Seam and its Analysis <i>Baiquan, L., Hua, Y. & Rusheng, J.</i>	77
Principles of Strategic Planning and Control of Mining-and-Processing Systems Operation <i>Bukeikhanov, D. G., Zhanasov, M. Z., Lerman, B. D., Gabdullin, T. G. & Kulubekov, T. K.</i>	83
Personal Noise Exposure in Dimension Stone Quarries: the Role of Quarrying Technology and Quarry Design <i>Ciccu, R., Dentoni, V., Massacci, G. & Mulas, I.</i>	87
Economics of the Underground Spaces Filling in as the Mean of the Safety and Ecological Risks Elimination <i>Dvořáček, J.</i>	93
An Overview on the Dimension Stone Quarrying in Brazil <i>Hennies, W. T., Fujimura, F., Soares, L. & Stellin, Jr., A.</i>	97
New Method of Graphic Representation of Coal Deposit Data <i>Honěk, J., Hoňková, K., Staněk, F., Jelinek, J. & Schejbal, C.</i>	101
Non-explosives Rock Breaking Systems for Safe and Continuous Mining <i>Kabongo, K. K.</i>	111
Simulation of Ventilation System of Coal Mines When Underground Fires Arising <i>Koketayev, A. I.</i>	119
Influence of Fires in Coal Mines on Ventilation System <i>Koketayev, A. I. & Rogov, Y. I.</i>	121
Ranging Open Path Remote Methanometer <i>Kononov, V. A. & Germishuizen, F.</i>	125
Analysis Effect of Shock Failure and its Applications <i>Linning, D., Drzezla, B. & Kolodziejczyk, P.</i>	133
The Technology and Application of Ascending Mining in Coal Seams <i>Li-quan, W. & Jixiong, Z.</i>	139
Technology for Tomorrow and Equipment Selection for Indian coal Mines. <i>Mathur, R. B.</i>	143
Some Technological Aspects of Room-And-Pillar Mining in Estonian Oil Shale Mines <i>Nikitin, O. & Pastarus, J.-R.</i>	149
Design of Destressing Engineering in Soft Rock Roadway within Mining Influence and its Application <i>Qundi, Q., Xuehua, L. & Xikui, S.</i>	155
The Reformation and Direction of Development for Preparation in Thick Coal Seam in China <i>Shihao, T. & Yixian, C.</i>	159
Application of Mathematical Models to Solve Danger of Mining Gas Emissions <i>Šenovský, P. & Gottfried, J.</i>	163
Simulation of Continuous-Flow Technology and Underground Working Face Complexes for Hard Ores Mining <i>Tkachenko, A. M. & Streltsova, G. A.</i>	171
Negative Pressure Dual Dust Removal Technology and its Application <i>Yaoshe, X. & Xueyun, J.</i>	175
Numerical Simulation of Top-Coal's Cavability in a Lower Sub-Slice Face Using Long Wall Top-Coal Caving Mining Method <i>Zhijun, W., Changyou, L., Yangsheng, Z. & Yixing, C.</i>	179

S3 - Coal and Mineral Processing Equipment

Measurements of Gaseous Nitrogen Volumetric Flow Rate in Pipelines <i>Adamus, A.</i>	185
Wear Duribility of Discontinuous Aluminum Plated Alloys <i>Klobuc, N.</i>	193
Monitoring and Evaluation of Physical and Chemical Properties of Carboniferous Coal Wastes from Mine „Bogdanka” (Poland) <i>Bzowski, Z. & Bojarska, K.</i>	197
Centrifuge Based Pastefill Support Design <i>De Souza, E. & Dirige, A. P.</i>	201
Main Parameters of a Hydraulic Hammer Estimation <i>Poderni, R. Y., Chromoy, M. R. & Sandalov, V. F.</i>	207
Application of the Hydrocyclone in the Fine Tailings Dewatering <i>Salopek, B.</i>	211
Study on Equipment Selection and Mating in Fully Mechanized Top-coal Caving face <i>Shanming, L., Xiexing, M. & Dongsheng, Z.</i>	217
Copper Extraction Efficiency and Sustainable Development <i>Sievers, H., Meyer, F. M, Martens, P. N. & Mistry, M.</i>	221

S4 - Design and Planning of Surface and Underground Mines

Performance Evaluation of Shield Support Transporting Systems during Face Transfer Operations <i>Düzgün, H. S. B., Karpuz, C. & Erdogan, H. H.</i>	229
Enterprise Production Planning for an Enterprise with a Fuzzy-Random Environment <i>Hualing, S., Quanshun, L., Renbao, L. & Reiman, C.</i>	235
Verification and Regulation of Mining-Excavation Plan <i>Keqi, H., Gang, L., Jianfeng, S. & Jifeng, H.</i>	243
Based Management Entropy, a New Metric of Managing Complexity Assessment for Mine Organizational Design <i>Quanshun, L., Hualing, S., Zhongqi, R., Renbao, L. & Reiman, C.</i>	247
Guidelines for Scraper Cleaning in Narrow Vein Mining Layouts <i>Rupprecht, S. M.</i>	255
Push Backs Design in Songun Mine, Using Wang and Sevim's Suggested Method <i>Sattarvand, J., Yavari, M. & Sakkaki, S. H.</i>	265
Some Economic Problems Related to Re-Utilization of Post Opencast Minig Areas <i>Stodůlková, S.</i>	269

S5 - Mining Geostatistics and Mine Optimization

Reserves of the Deposits of Mineral Raw Materials as a Decisive Factor in Their Successful Development and Mining <i>Franc, L. & Sivek, M.</i>	275
Grade Interpolation Using Radial Basis Function Networks <i>Kapageridis, I. K.</i>	281
Haulage Optimisation at an Underground Metal Mine <i>Keilich, W. & Aziz, N.</i>	291
Mobile Multimedia Network Application for Geo-Engineering Data Transmission <i>Komazaki, M., Ito, F., Tsukazawa, S., Akhmetov, D. F. & Ujihira, M.</i>	299
The Method of Calculation Mining Reserve with VB in AutoCad <i>Mingyue, L., Jianguo, T., Zaikang, L., Maligiang, Qinggang, L. & Zhaoyou, Z.</i>	309

Comparative Study Between Point Cumulative Semivariogram and Kriging for a Coal Deposit <i>Öztürk, C. A. & Nasuf, E.</i>	313
Hierarchical Arrangement of Geological Object as a Basis for Mineral Exploration and Evaluation <i>Schejbal, C.</i>	319
Elaboration of System for Rapid Evaluation of Coal Deposits <i>Staněk, F., Honěk, J., Hoňková, K., Jelinek, J. & Schejbal, C.</i>	325
Pressures Optimization on Technological Wells When Mining of Uranium <i>Yazikov, V. G. & Rogov, A. Y.</i>	335
S6 - Geomechanics in Surface and Underground Mines	
Stability of Immediate Roof and Control Technology in Longwall Sublevel Caving Face <i>Deping, L.</i>	341
Stability Monitoring of the Support-Surrounding Rocks System at Long Wall Top-Coal Caving Face in "Three-Soft" and Large Slope Angle Seam <i>Changyou, L., Zhijun, W. & Peiju, Y.</i>	347
Research on Bearing Capability of Bolt Supporting System for Soft Surrounding Rock <i>Jinhai, X. & Honggang, L.</i>	351
Fracture Toughness Measurement of Rock Using Chevron-Notched Semi Circular Specimen <i>Kuruppu, M. D.</i>	355
Filling Mass Forming by a Way of Shifted Rocks Impregnation by Binding Solutions <i>Muzgina, V. S.</i>	361
Geometry of a Subsidence Trough's Surface in Real Time <i>Nazarenko, V. A. & Rogatkin, A. D.</i>	363
Estimation of Current Condition of Stripping Works at the Quarries <i>Rakishev, B. R. & Begalinov, A. B.</i>	365
Forming of the Quarry's Ore-Streams of Preassigned Quality Abstract <i>Rakishev, B. R., Lunkin, I. V. & Rakishev, E. B.</i>	369
Analysis of a Gateroad Supporting Problem Using FEM Models <i>Toraño, J., Rodríguez, R., Casal, M. & Cid, J. M.</i>	373
Numerical Simulation on Surrounding Rock Stability of Gob-Side Entry Retaining in Top-Coal Caving Mining Face <i>Wenbing, X. & Xiaoxiang, C.</i>	381
About Modelling Catastrophe Phenomena in Geomechanics <i>Zhuravkov, M. A. & Bogdan, S. I.</i>	385
S7 - Mine Maintenance and Production Management	
Condition Monitoring of Belt Conveyor Transmissions <i>Bartelmus, W. & Zimroz, R.</i>	393
Measurement of Side-Crumble Angle ψ and Energy Consumption of the Digging Process as a Function of Exploitation Pressure σ_2 <i>Bialy, W.</i>	403
Computer Models and Simulation Programs for Transport Control in Deep Mines <i>Burý, A. & Čech, R.</i>	415
The Accuracy Analysis of Strains Measurement in Conveyor Belts' Splices <i>Hardygóra, M. & Błażej, R.</i>	421
Mine Access Road Design and Modelling with IROAD <i>Kapageridis, I. K. & Tavoularis, I.</i>	427

Substantiation of Trolley Mine Locomotive Electric Feeding System Parameters <i>Pivnyak, G. G., Ivanov, A. B. & Rogoza, M. V.</i>	435
The Hierarchical Structure of an Information, Remote Control and Supervision System for Dewatering of Coal Surface Mines <i>Teodorovic, Z. M., Kecojevic, V. J. & Simic, R. D.</i>	439
S8 - Intelligent Models in the Control of Mining Technologies	
Web-Oriented Information Systems for Control Systems Design Support <i>Farana, R. & Smutný, L.</i>	445
Computer Applications in Underground Openings by Numerical Modeling Methods <i>Fujimura, F., Carnero, L. T. C., Soares, L. & Hennies, W. T.</i>	449
Educating Mining Engineers Online <i>Golosinski, T. S.</i>	453
Artificial Neural Network Technology in Mining and Environmental Applications <i>Kapageridis, I. K.</i>	457
Some Aspects of Intelligent Models in Mining <i>Kebo, V.</i>	465
Usage of Virtual Reality in Control and Monitoring of the Underground Technological Process <i>Kodym, O.</i>	469
The Utilization Statistical and Data Mining Techniques for Data-Analysis Automatically Measured from Technological Process <i>Macháčová, M. & Létavková, D.</i>	475
Roadway Maintenance Problem at Ombilin Coal Mine I, Indonesia <i>Matsui, K., Shimada, H., Kramadibrata, S., Sulistianto, B., Rai, M. A. & Anwar, H. Z.</i>	481
Modelling and Visualization of Opencast Mining <i>Neustupa, Z. & Kodym, O.</i>	489
E-learning and Mining Engineering Education <i>Panagiotou, G. N., Michalakopoulos, T. N., Tsiavos, E. & Bassanou, M.</i>	493
Smart Instruments for Measurement, Diagnostic and Control Systems with Wireless LAN <i>Smutný, L.</i>	499
A Co-operation a Parametric and Nonparametric Networks Modelling <i>Strakoš, V. & Kolomazník, I.</i>	505
Analysis of a Mine Hoisting System Using Arena Simulation and Animation Techniques <i>Temeng, V. A. & Oduro, A. K.</i>	509
Robust Control of Hoisting Machine <i>Víteček, A. & Vítečková, M.</i>	515
Digital and Analog Controller Tuning <i>Vítečková, M. & Víteček, A.</i>	521
Application of Multimedia on the Mine <i>Yongchen, Z., Huizhi, R. & Zaikang, L.</i>	527
The Model of a Future Mine <i>Zaikang, L., Jiping, D., Xigui, Z., Xingzi, T. & Wanlong, Z.</i>	531
