

## CONTENTS

### I. DEVELOPMENT IN AGROCHEMICALS CHEMISTRY AND TECHNOLOGY

1	H. Górecki, <b>Phosphorus - the other side of the element</b>	1
2	K. Gorazda, M. Jodko, Z. Kowalski, Z. Wzorek, <b>Phosphorus compounds extraction from ashes after sludge combustion</b>	18
3	K. Hoffmann, J. Hoffmann, <b>Studies on nutrients activation in brown coal</b>	25
4	A. Chojnacki, A. Matynia, H. Górecki, <b>Model experiments of phosphate rock decomposition in the presence of spent sulfuric acid</b>	30
5	M. Tomaszewska, <b>The coating of nitrogen fertilizer with polysulfone</b>	38
6	P. Malinowski, A. Biskupski, <b>Nitrogen release from the fertilizers containing various forms of calcium sulphate</b>	42
7	A. Biskupski, A. Ochał, P. Malinowski, <b>Laboratory and full-scale research results of nitro-chalk with sodium production in the mechanical granulation system</b>	46
8	A. Pawełczyk, M. Steininger, B. Trefler, M. Chryplewicz – Kałwa, <b>Sulfur organic compounds in phosphate raw materials</b>	53
9	J. Hoffmann, K. Hoffmann, <b>Development tendencies in technologies of feed phosphates production</b>	60
10	A. Biskupski, P. Malinowski, A. Kopeć, <b>The utilization of waste post-nitration acids during the production process of phosphorus containing fertilizers</b>	65
11	B. Cichy, S. Folek, <b>Multicomponent liquid fertilizers with polyphosphates</b>	70
12	B. Grzmil, B. Kic, <b>Single-stage process for manufacturing of potassium sulphate</b>	77
13	B. Walawska, <b>The effect of urea on products from phosphate rock decomposition with nitric acid</b>	83
14	A. Biskupski, Z. Malczewski, M. Borowik, P. Malinowski, <b>The possibility of industrial wastes utilization during the production process of suspension fertilizers</b>	89
15	A. Matynia, J. Koralewska, M. Małasińska, <b>Struvite precipitation from diluted solutions</b>	95
16	A. Matynia, J. Koralewska, A. Głuchy, <b>The influence of residence time on the growth of hydroxyapatite and struvite crystals</b>	102
17	B. Picur, P. Ruchała, M. Lisowski, M. Cebrat, P. Stefanowicz, R. Zbozień-Pacamaj, A. Pasternak, T. Goszczyński, Ł. Tarnawski, <b>Cyclic peptides from plants of genus linum (i)</b>	110
18	C. Wawrzeńczyk, Małgorzata Grabarczyk, A. Szumny, B. Gabryś, K. Danciewicz, J. Nawrot, A. Prądkyńska, A. Halarewicz-Pacan, <b>Lactones 19[1]. Synthesis and antifeedant activity of lactones with methyl-, dimethyl- and trimethylcyclohexane system</b>	117

19	E. Sikorska-Sobiegraj, S. Zieliński, A. Biskupski, P. Malinowski, <b>Suitability assessment of fly ashes as a source of potassium and other nutrient elements for the plants</b>	130
20	M. Borowik, A. Biskupski, Z. Malczewski, <b>Micronutrient chelates for fertigation of horticultural cultivations</b>	136
21	P. Wieczorek, I. Jasicka-Misiak, J. Lipok, <b>Potential use of allelochemicals as biopesticides in agrosystems</b>	143
22	D. Kalembasa, B. Wiśniewska, <b>The content of nitrogen and carbon in acid extracts from vermicomposts</b>	152
23	E. Krzywy, J. Krzywy, <b>Chemical composition of composts from municipal sewage sludges and possibility of utilization in agricultural production</b>	160

## II. DEVELOPMENT IN AGRICULTURAL PRACTICE

24	A. Rudnicka, Z. Dobrzański, T. Skiba, <b>Content of fatty acids in laying hen eggs fed with fish oil</b>	166
25	A. Korniewicz, Z. Dobrzański, R. Kołacz, D. Korniewicz, <b>Bioavailability of zinc, selenium and chromium from yeasts <i>saccharomyces cervisiae</i> for swine</b>	171
26	B. Patkowska-Sokoła, Z. Dobrzański, E. Bodak, P. Ph. Panyiotu, R. Kołacz, <b>Comparative study on the concentration of elements in the wool of sheep of cyprus and poland origin</b>	182
27	B. Patkowska-Sokoła, R. Bodkowski, K. Aniołowski, <b>The content of l-carnitine in products of different animal species</b>	190
28	B. Patkowska-Sokoła, D. Jamroz, R. Bodkowski, A. Ćwikła, T. Wertelecki, W. Walisiewicz-Niedbalska, <b>The influence of sheep race upon composition of fatty acids and content of conjugated dienes of linoleic acid c9t11 in meat fat</b>	195
29	D. Jamroz, B. Patkowska-Sokoła, R. B., A. Ćwikła, T. Wertelecki, W. Walisiewicz-Niedbalska, <b>Influence of feeding upon the composition of fatty acids and the content of conjugated dienes of linoleic acid c9t11 of lambs' fat</b>	200
30	M. Słupczyńska, S. Kinal, <b>Organic and inorganic zinc and copper compounds applied in mineral mixtures and premixes for animal</b>	207
31	M. Stechman, D. Różycka, J. Sołtys, <b>Halloysite as a carrier of bioactive substances for feed premixes</b>	212
32	R. Bodkowski, B. Patkowska-Sokoła, D. Jamroz, T. Wertelecki, Andrzej Ćwikła, Wiesława Walisiewicz-Niebalska, <b>The influence of feeding upon the profile of fatty acids and the content of conjugated dienes of linoleic acid c9t11 in sheep's milk</b>	219
33	A. Grzelak, Z. Dobrzański, H. Sztuder, M. Świerczewska, <b>Composts from post-slaughter wastes – production technology and agricultural assessment</b>	226
34	R. Kołacz, T. Grudnik, H. Górecka, Z. Dobrzański, <b>The content of thallium and selenium in muscles of hens chronically intoxicated with thallium</b>	235

35	R. Kołacz, T. Grudnik, Z. Dobrzański, H. Górecka, <b>The influence of higher content of thallium in feed on its content in hen eggs</b>	239
36	S. Kinal, M. Słupczyńska, A. Szyszkowska, D. Korniewicz, <b>A review on the application of supplements containing organic forms of trace elements in sows nutrition</b>	243
37	S. Kinal, A. Korniewicz, D. Jamroz, B. Patkowska-Sokoła, M. Słupczyńska, <b>The effect of application OF some trace elements on physiological and productive effect on ruminants</b>	250
38	Z. Usydus, H. Górecki, Z. Dobrzański, W. Malarz, H. Sztuder, <b>The influence of biocompost from fish wastes on spring wheat yield</b>	257
39	A. Grenda, <b>Tytanit – activator of the metabolic processes</b>	263
40	A. Winiarski, <b>Investigation of correlation between results of solubility tests of slow–release fertilizers and vegetation test</b>	270
41	A. Wójcikowska-Kapusta, S. Baran, <b>Effect of fertilization of light soil with sewage sludge vermicompost on cooper content in soil and plants</b>	279
42	B. Breza-Boruta, Z. Paluszak, B. Szala, <b>Effect of varied fertilization on the count of microorganisms in soil environment</b>	289
43	B. Jarociński, <b>Soil ph and micro-element content of three layers (a, b, c) of soil from 72 sour cherry and sweet cherry orchards</b>	296
44	M. Świerczewska, H. Sztuder, <b>Fertilization value of granular NPK fertilizers supplemented with NPK</b>	306
45	J. Krzywy, E. Krzywy, <b>Changes of some chemical indicators of soil fertility after four-year fertilization and cultivation of plants</b>	311
46	S. Rólski, K. Heller, <b>Effectiveness of the use of fertilizing components (NPK and Mg) in flax cultivation on various soils</b>	316
47	W. Szczepaniak, J. Potarzycki, <b>Sugar beets response to nitrogenous fertilizers against the background of potassium-sodium-magnesium fertilization. Part I. An assessment of plants nutritional status</b>	321
48	W. Szczepaniak, J. Potarzycki, <b>Sugar beets response to nitrogenous fertilizers against the background of potassium-sodium-magnesium fertilization. Part II. Macronutrients uptake</b>	328
49	W. Szczepaniak, J. Potarzycki, <b>Sugar beets response to nitrogenous fertilizers against the background of potassium-sodium-magnesium fertilization, part III. Micronutrients uptake</b>	335
50	W. Szczepaniak, J. Potarzycki, J. B. Diatta, <b>Yielding effect of plant residues of legume-grass mixtures as a source of nitrogen for winter wheat</b>	342
51	Z. Spiak, Ł. Wall, <b>The influence of mineral, organic-mineral and organicpreparations on the activity of chromium in serpentine soils</b>	353
52	R. Bodarski, T. Krzyśko-Łupicka, M. Słupczyńska, S. Krzywiecki, S. Kinal, <b>The influence of different ensiling agents' application on microbiological composition of worsening quality silage made from red clover-grass mixture</b>	361
53	T. Krzyśko-Łupicka, R. Stempniewicz, S. Kinal, M. Słupczyńska, <b>The growth of fusarium solani in presence of glyphosate in dependence of temperature and ph of environment</b>	367
54	H. Sztuder, M. Świerczewska, <b>The influence of foliar fertilizers on the crop and the quality of grain of spring barley and winter triticale</b>	372

55	J. Lipok, <b>The response of black bean aphid <i>aphis fabae</i> to the presence of phosphonate herbicides in the broad bean <i>vicia faba</i> plants</b>	377
56	J. Potarzycki, <b>The influence of diversified phosphorus fertilization on the crop yield and the quality of winter wheat grain</b>	384
57	M. Biber, J. Potarzycki, W. Szczepaniak, <b>Dynamics of phosphorus uptake from various sources by <i>lolium perenne</i> i <i>trifolium repens</i></b>	392

### III. ENVIRONMENTAL IMPACT OF CHEMICAL INDUSTRY AND AGRICULTURE

58	B. Kozłowska, <b>Directive IPPC – the challenges and the threats</b>	399
59	A. Pawełczyk, H. Górecki, J. Hoffmann, H. Górecka, A. Chojnacki, <b>Commercial scale test on mercury removal from industrial waste waters with the use of natural zeolite</b>	404
60	A. Kozak, M. Kozak, L. Domka, <b>Underground dumping sites – an ecological bomb with delayed ignition</b>	410
61	D. Przado, M. Steininger, <b>Biodegradation of the polychlorinated biphenyls in water environment</b>	415
62	D. Przado, S. Skoczylas, M. Steininger, <b>Biodegradation of chloride organic pesticides in water environment</b>	421
63	J. Rosada, <b>Influence of eco-friendly activities of copper foundry „Głogów” on condition of agricultural environment</b>	426
64	J. Rosada, J. Grzesiak, <b>Basic characteristics of soils in the emission region of copper foundry “Głogów”</b>	430
65	J. Podlasińska, A. Koćmit, M. Podlasiński, <b>Differentiation of mercury content in eroded soils of end moraine of Western Pomerania</b>	434
66	M. Podlasiński, J. Podlasińska, <b>Mercury content differentiation in soils in catchment without flow in Western Pomerania</b>	439
67	P. Grzesiak, M. Grobela, <b>Condition of environment in metallurgical industry zone</b>	446
68	S. Baran, P. Oleszczuk, E. Baranowska, T. Milczarek, <b>Effect of soil fertilization with sewage sludge on dependence between pah content and lead and cadmium content</b>	450
69	S. Baran, A. Wójcikowska-Kapusta, T. Milczarek, <b>Sanitation of cadmium contaminated soil with use of willow</b>	461
70	S. J. Strączyński, S. Strączyńska, <b>Profile distribution of chromium in weather sod soil</b>	469
71	S. Strączyński, <b>Agroecological aspects of applicability of fiber crops for reclamation of lands polluted by copper industry</b>	474
72	Z. Zabłocki, J. Podlasińska, P. Pieńkowski, <b>Changes of nitrogen and phosphorus deposition on the area affected by emissions from power plant “Dolna Odra” in 1977-2000 years</b>	478
73	Z. Zabłocki, J. Podlasińska, P. Pieńkowski, <b>Phosphorus and nitrogen deposition in years 1977-2000 on the area affected by emissions from “Police” chemical works</b>	483

74	A. Pawełczyk, B. Trefler, <b>Asbestos environmental hazard and new prospects for asbestos waste neutralization</b>	491
75	A. Pawełczyk, Anna Czarny, B. Trefler, E. Zaczyńska, <b>Effect of products obtained in the process of chemical neutralization of asbestos wastes on human lung cells</b>	497
76	A. Czarny, E. Zaczyńska, B. Kołwzan, A. Pawełczyk, <b>Production of cytokines and nitrate oxide by lung cells treated with air pollutants</b>	503
77	A. Kiepas-Kokot, Z. Zabłocki, <b>Limitation in application of sewage sludge within the area of cable factory „Zalom” located in Szczecin vicinity</b>	511
78	B. Kucharczyk, J. Zabrzeski, D. Sobańska, <b>Effect of doping with rare earth metals on activity of platinum catalyst in removal of carbon oxide from exhaust gas</b>	519
79	Z. Dobrzański, K. Chojnacka, H. Górecka, . Chojnacki, J. Wiśniewski, <b>Chemical content of waterfowl eggs from industrial and agricultural regions</b>	524
80	K. Chojnacka, A. Noworyta, <b>Mechanisms of self-control of cells concentration in microalgal culture used in microbiological wastewater treatment</b>	530
81	B. Kuziemska, S. Kalembasa, <b>Adsorption and desorption of nickel from the soil materials</b>	536
82	D. Kalembasa, M. Becher, K. Pakuła, <b>The content of phosphorus and sulphur in benzene-ethanol extracts from wastes</b>	541
83	S. Kalembasa, B. Symanowicz, <b>The content of phosphorus in Polish brown coal and their ashes</b>	546
84	D. Jamroz, <b>Nutrition ways of reduction of unutilized nutrients emission into environment</b>	551
85	M. Rościszewska, S. Łapiński, F. Borowiec, W. Popek, E. Draj, <b>Relationship between the contents of some heavy metals in substrate and their accumulation in the bodies of <i>dendrobaena octaedra</i> (sav.)</b>	557
86	A. Czarny, B. Kołwzan, E. Zaczyńska, <b>Cytotoxicity and antibacterial activity of synthetic surfactants</b>	563
87	B. Kołwzan, K. Grabas, E. Śliwka, <b>Selection of surfactants for the hydrocarbon biodegradation stimulation</b>	568
88	T. Rzepecki, K. Gorazda, M. Jodko, Z. Wzorek, <b>Biological phosphorus recovering from municipal and industrial sewage mixture with high nitrate content</b>	576
89	M. Klimek-Ochab, A. Obojska, B. Lejczak, <b>Biodegradation of organophosphorus compounds containing a direct p-c bond. Utilization of 2-aminoethylphosphonic acid by soil microbial consortium</b>	583
90	M. Brzezińska-Rodak, E. Żymańczyk-Duda, A. Niewiadomska, B. Lejczak, <b>The influence of organic solvents on reductive activity of <i>rhodotorula sp.</i></b>	590
91	W. Popek, E. Draj – Kozak, M. Rościszewska, F. Borowiec, S. Łapiński, <b>The flowing of heavy metals from ground to the fish muscles</b>	594
