PHOTOGRAPHS

1. Southern part of the main shaft with fragments of Lesbian amphorae	
2. Numerous fragments of amphorae were found in the intact filling of the main shaft above the burial chamber of Iufaa	
3. The area behind the burial chamber was extremely rich in the occurrence of Aegean amphorae	
4. Upper part of a Samian amphora with the sign “M” incised on the shoulder	
5. A Samian amphora was found intact in the original filling of the small western lateral shaft	
6. Upper part of Zeest’s ‘Samian’ amphora with both handles	
7. Upper part of a Clazomenian amphora	
8. Upper part of a Clazomenian amphora	
9. Lower part of a Clazomenian amphora with the rest of decoration	
10. Upper part of a Milesian amphora	
11. Sherd from a shoulder of Chian amphora which served to the thieves as a shovel	
12. Some fragments from the upper part of a Chian amphora	
13. Body sherds with the lower part of a handle of a Chian amphora	
14. Almost complete upper part of a Chian amphora	
15. Lower part of a Lesbian amphora which was found in the filling of the southern lateral shaft	
16. Partly reconstructed amphora of a Lesbian provenance	
17. Upper part of a Lesbian amphora
