

# Content

Dear students,

The authors of this manual wish to acknowledge their thanks to the following:	
Introduction	5
<i>Chapter 1 MENDELIAN INHERITANCE</i>	7
<i>Chapter 2 GENEALOGY AND MENDELIAN INHERITANCE IN MAN</i>	15
<i>Chapter 3 MITOSIS</i>	23
<i>Chapter 4 MEIOSIS</i>	28
<i>Chapter 5 HUMAN CYTOGENETICS</i>	40
<i>Chapter 6 MULTIFACTORIAL INHERITANCE, GENE INTERACTIONS</i>	92
<i>Chapter 7 LINKAGE AND CHROMOSOME MAPPING</i>	99
<i>Chapter 8 MOLECULAR GENETICS</i>	106
<i>Chapter 9 METABOLIC INBORN ERRORS – GENE COUNSELLING</i>	133
<i>Chapter 10 POPULATION GENETICS</i>	138
<i>Chapter 11 IMMUNOGENETICS</i>	150
<i>Chapter 12 ONTOGENESIS</i>	159
<i>Chapter 13 ONCOGENETICS</i>	168
Addendum	191

Students will find some basic, more advanced and also more specialized topics in the following sections. These topics are not included in the main text, but may be of interest to those who have a particular interest in these areas. They are also intended to provide a basis for further study in these fields. The following sections include: immunogenetics, body fluid genetic analysis, and molecular genetics. There are also some additional sections and some brief descriptions of other topics for interested students.

We would like to thank our colleagues at the Department of Genetics for their help in the preparation of the book, and thank them for their contributions to the success of the book.

In the development of the book, we have tried to keep it simple and easy to understand, and hope that you will find it useful.
