TABLE OF CONTENTS	3
LIST OF FIGURES	5
LIST OF TABLES	7
KEYWORDS.....	7
ACKNOWLEDGEMENTS	7
A NOTE OF APPRECIATION	8
PREFACE.....	9
1. INTRODUCTION	10
2 DETERMINATION OF MOISTURE TRANSPORT AND MOISTURE STORAGE PARAMETERS OF BUILDING MATERIALS– STATE-OF-THE-ART.....	11
2.1 MOISTURE TRANSPORT IN THE POROUS MATERIALS.....	11
2.1.1 <i>Basic physical transport mechanisms</i>	11
2.1.2 <i>Models of water and water vapour transport</i>	13
2.2 MEASUREMENTS OF MOISTURE CONTENT IN POROUS BUILDING MATERIALS.....	14
2.2.1 <i>Definition of moisture</i>	14
2.3 BASIC METHODS FOR MEASURING MOISTURE STORAGE AND TRANSPORT PARAMETERS 15	
2.3.1 <i>Moisture storage characteristics</i>	16
2.3.2 <i>Moisture transport parameters</i>	18
2.4 ADVANCED METHODS FOR MEASURING MOISTURE STORAGE AND TRANSPORT PARAMETERS	21
2.4.1 <i>TDR and TDT</i>	21
2.4.2 <i>Experimental set-up</i>	21
2.4.3 <i>The experimental output</i>	23
3 EXPERIMENTAL METHODS.....	24
3.1 EXPERIMENTAL METHODS FOR DETERMINATION OF BASIC PARAMETERS OF BUILDING MATERIALS	24
3.1.1 <i>Determination of density and porosity</i>	24
3.1.2 <i>Measurement of water vapour and liquid water transport parameters</i>	28
3.1.3 <i>Determination of moisture storage parameters</i>	34
3.2 APPLICATION OF TDR MICROPROBES, MINITENSIMETRY AND MINIHYGROMETRY TO THE DETERMINATION OF MOISTURE TRANSPORT AND MOISTURE STORAGE PARAMETERS OF BUILDING MATERIALS	40
3.2.1 <i>Conversion function</i>	41
3.2.2 <i>Description of the instrument and probes used to perform the measurement</i> ..	44
3.2.3 <i>Instrument/Probe Calibration</i>	49
3.2.4 <i>Installation of probes and measurement</i>	51
3.2.5 <i>Estimation of Errors</i>	52
3.2.6 <i>Influence of experimental conditions</i>	52
4 MATERIALS AND SAMPLES	52
4.1 TESTED MATERIALS	52
4.1.1 <i>Insulating materials</i>	52
4.1.2 <i>Mortars and plasters</i>	53
4.1.3 <i>Materials of load bearing structures</i>	55

4.2	THE PREPARATION OF SAMPLES	55
4.3	THE PROBLEM OF MATERIAL DRYING.....	56
5	EXPERIMENTAL CONDITIONS AND RESULTS.....	57
5.1	BASIC PARAMETERS.....	57
5.1.1	<i>Density and open porosity.....</i>	57
5.1.2	<i>Water vapour transport parameters.....</i>	58
5.1.3	<i>Water suction experiments.....</i>	59
5.1.4	<i>Adsorption and desorption isotherms.....</i>	65
5.1.5	<i>Moisture retention measurements.....</i>	71
5.1.6	<i>Moisture storage function measurements.....</i>	73
5.2	ADVANCED METHODS.....	75
5.2.1	<i>Vertical suction.....</i>	75
5.2.2	<i>The suction and drying experiments.....</i>	76
5.2.3	<i>Water vapour diffusion experiments.....</i>	87
6	DISCUSSION.....	91
7	CONCLUSIONS.....	97
8	REFERENCES.....	98
