

Table of contents

Preface	4
1. Basic notions of linear algebra	5
2. Direct methods for the system of linear algebraic equations	9
3. Iterative methods for the system of linear algebraic equations	18
4. Systems of non-linear algebraic equations	29
5. Interpolation and approximation	39
6. Initial Value Problem for ordinary differential equations and their systems	53
7. Boundary Value Problem of second order	69
8. Elementary problems of mathematical physics	80
Elliptic equations	82
Parabolic equations	90
Hyperbolic equations	98
Bibliography	107
