

## Contents

<b>1. Linear algebra .....</b>	<b>3</b>
1.1. Matrices .....	3
1.1.1. Definitions .....	3
1.1.2. Basic Properties of Matrices .....	3
1.2. Determinants .....	5
1.2.1. Definition and Basic Properties .....	5
1.2.2. Evaluation of Determinants .....	6
1.2.3. Matrix Inversion .....	7
1.3. Systems of Linear Equations .....	9
1.3.1. Definition .....	9
1.3.2. Gaussian Elimination .....	10
1.3.3. Cramer's Rule .....	13
<b>2. Differential Calculus Functions of one real variable.....</b>	<b>14</b>
2.1. Functions of One Real Variable.....	14
2.1.1. Definitions and Basic Properties.....	14
2.1.2. Elementary Functions .....	16
2.2. Limit of the Function .....	21
2.2.1. Definition .....	21
2.2.2. Basic Rules .....	23
2.2.3. Limits of Selected Functions .....	23
2.3. Continuity of Functions .....	24
2.4. The Derivative of Function.....	25
2.4.1. Definition.....	25
2.4.2. Basic Rules for Differentiation .....	27
2.4.3. Derivatives of Selected Functions .....	27
2.4.4. Differential of the Function .....	30
2.4.5. Highes-Order Derivative.....	30
2.4.6. Parametric Differentiation .....	30
2.5. Applications of the Derivatives .....	31
2.5.1. Basic Theorems.....	31
2.5.2. Monotonic Functions and Extremes of Function.....	31
2.5.3. Convexity and Concavity of a Function .....	33
<b>3. Literature .....</b>	<b>35</b>
