Preface	xi
Reviewers' Note	xv
Main Sources of Data Used in This Publication	xvii
List of Authors	xix
chapter 1 The Czech National Cancer Control Programme	1
J. Vorlíček, J. Finek, L. Dušek on behalf of the Czech Society for Oncology	
1.1 Cancer Control Programme of the Czech Republic	1
1.2 Cornerstones of the Czech National Cancer Control Programme.....	2
1.3 The Czech National Cancer Control Programme and its target population.....	4
1.4 The Czech National Cancer Control Programme and public presentation	7
1.5 Nationwide support for the cancer control programme.....	8
Sources of information.....	9
chapter 2 The Main Medical Societies Involved in Cancer Care	10
L. Šnajdrová, L. Dušek, J. Vorlíček	
2.1 Organization of Czech medical societies	10
2.2 The Czech Society for Oncology (CSO).....	11
2.3 The Czech Society for Radiation Oncology, Biology and Physics	13
2.4 The Czech Radiological Society.....	13
2.5 The Czech Society of Palliative Medicine	13
2.6 The Czech Society of Haematology	14
2.7 The Society of Czech Pathologists.....	14
2.8 The Czech Urological Society.....	14
2.9 The Czech Surgical Society	14
2.10 The Czech Society of Dermatology and Venereology.....	15
Sources of information.....	15
chapter 3	
The Czech Health Care System	16
L. Dušek, L. Šnajdrová, J. Vorlíček	
3.1 Receiving health care	16
3.2 Funding of health care.....	17
3.3 Inpatient health care facilities	17
3.4 Outpatient health care facilities.....	18
3.5 Czech Medical Chamber.....	18
3.6 Status of oncology in the Czech health care system.....	18
3.7 Education in oncology.....	19

3.8 Certifications for oncology specialties 20
 3.9 Other specialties dealing with cancer patients..... 22
 Sources of information 23

chapter 4

Network of Cancer Care in the Czech Republic 24
 J. Finek, R. Vyzula, J. Petera, K. Indrák, J. Štěrba, J. Vorlíček, L. Dušek
 on behalf of the network of Czech Cancer Centers

4.1 Introduction 24
 4.2 Centres of Intensive Haemato-Oncological Care
 including Stem Cell Transplant Units 24
 4.3 Centres of Paediatric Haemato-Oncology
 and Solid Tumour Oncology 26
 4.4 Cancer care networks in on-line interactive maps..... 27
 4.5 Regional mapping of the cancer centres and networks..... 27
 4.6 The adopted criteria for Cancer Centres (CCs) 27
 Acknowledgements 31
 CHAPTER 4 –APPENDIX: Overview of regional
 Cancer Centres in the Czech Republic 32

chapter 5

Data and Background Information on Czech Cancer Care 61
 L. Dušek, J. Mužík, T. Pavlík, J. Koptiková, L. Šnajdrová, J. Finek, R. Vyzula

5.1 Introduction – overview of the main sources of information 61
 5.2 The main information sources of Czech oncology available on-line 63
 5.3 Demographic data and the Czech National Cancer Registry 65
 5.4 Czech clinical registries monitoring the use
 of monoclonal antibodies in cancer therapy 72
 5.5 Communication and information service
 of the Czech Society for Oncology 74
 Acknowledgements 77
 References..... 77

chapter 6

**Cancer Epidemiology in the Czech Republic:
 Current Load and the Time Trends 79**
 J. Mužík, L. Dušek, J. Koptiková, J. Finek

6.1 Introduction 79
 6.2 The Czech National Cancer Registry and records
 on malignant neoplasms..... 84
 6.3 Total cancer load of the Czech population 96
 6.4 Data on clinical stages of newly diagnosed malignant tumours 97
 6.5 Monitoring the epidemiological situation
 in individual regions of the Czech Republic 99
 6.6 Cancer patients with multiple malignancies 99
 Acknowledgements 103
 References..... 103

chapter 7	Cancer Prevention and National Cancer Screening Programmes in the Czech Republic	207
	O. Májek, L. Dušek, J. Daneš, M. Zavoral, V. Dvořák, M. Michal, M. Skovajsová, H. Bartoňková, Š. Suchánek, V. Kolek, V. Študent, M. Sachlová, L. Snajdrová	
	7.1 Introduction	207
	7.2 Projects supporting prevention of cancer	212
	7.3 The Czech national cancer screening programmes – an overview	217
	7.4 Breast Cancer Screening Programme in the Czech Republic	220
	7.5 Colorectal Cancer Screening Programme in the Czech Republic	237
	7.6 Cervical Cancer Screening Programme in the Czech Republic	245
	Acknowledgements	252
	References	252
chapter 8	Information System for Predictive Evaluation of Cancer Epidemiology and the Number of Cancer Patients in the Czech Republic	255
	L. Dušek, T. Pavlík, O. Májek, J. Koptíková, E. Gelnarová, J. Mužík, R. Vyzula, J. Finek on behalf of the expert panel of the Czech Society for Oncology.	
	8.1 Predicting the numbers of treated patients: purpose, objectives and outputs	255
	8.2 Source data for prediction analyses	256
	8.3 Reference dataset for prediction analyses of the number of cancer patients	258
	8.4 Limits of prediction analyses and possible risks of bias	258
	8.5 Methodical concept of prediction analyses	259
	8.6 Brief description of statistical methodology for the estimation of incidence and prevalence rates	262
	8.7 Examples of predictive estimates for the year 2009: selected cancer diagnoses	268
	Acknowledgements	272
	References and sources of information	272
chapter 9	Management and Control of Radiotherapy in the Czech Republic	274
	H. Stankušová, J. Petera, L. Dušek	
	9.1 Background and management of the Czech Radiation Oncology	274
	9.2 Outcomes of the audit of Czech radiotherapy departments in 2004	275
	9.3 Brachytherapy survey performed in 2007	276
	9.4 Quality assurance in Czech radiotherapy	280
	9.5 Future challenges and research priorities of the Czech radiotherapy	281
	Acknowledgements	282

chapter 10	Surgical Oncology	283
	M. Duda, J. Žaloudík, M. Ryska, L. Dušek	
	10.1 The position of surgery in oncology	283
	10.2 Historical development of surgical oncology in the Czech Republic	284
	10.3 Czech surgical oncology nowadays	284
	10.4 The perspective and priorities of Czech surgical oncology	285
	Acknowledgements	291
chapter 11	Management and Monitoring of Palliative Care in the Czech Republic	292
	O. Sláma, J. Mužík, J. Skříčková, J. Koptíková, L. Dušek	
	11.1 Advanced-stage cancer patients in the Czech Republic	292
	11.2 Population-based monitoring of tumours diagnosed in advanced stages	293
	11.3 Numbers of patient in advanced stages of cancer in predictive models and in regional surveys	297
	11.4 Availability of palliative care to Czech cancer patients in 2007	299
	Acknowledgements	301
	Used information sources	302
chapter 12	The Czech Society for Oncology Guarantees the Quality of Cancer Care	303
	J. Finek, R. Vyzula, J. Vorlíček, L. Dušek	
	12.1 Introduction	303
	12.2 Development of the cancer network	303
	12.3 Hierarchy of the cancer network	303
	12.4 Establishment of Cancer Centres	304
	12.5 The paradox of accessibility	304
	12.6 Registries of expensive anticancer treatment	305
	12.7 Guidelines for cytostatic treatment of malignant tumours	305
	12.8 The need for further centralisation	305
	Acknowledgements	306
	CHAPTER 12 – Appendix: Personnel, technical and organisational criteria defining the status of Comprehensive Cancer Centre (CCC) and Children’s Cancer Centre (ChCC)	306
chapter 13	Monitoring of the Results and Quality of Cancer Care in the Czech Republic	311
	L. Dušek, R. Vyzula, D. Feltl, M. Hajdúch, J. Finek, M. Suchý, J. Mužík, T. Pavlík	
	13.1 Available approaches to the assessment of results and quality of Czech cancer care	311
	13.2 Czech programmes focused on the development of health service standards and indicators	312

13.3 Use of population-based data for cancer care assessment in the Czech Republic	317
13.4 Monitoring of expensive anticancer treatment by means of CSO clinical registries	319
13.5 Monitoring of radiotherapy using electronic documentation of patients with head and neck cancer: a case study on hospital-based monitoring of care	326
Acknowledgements	338
Sources of information	338
Five-Year Survival Rates of Cancer Patients in the Czech Republic.....	339
T. Pavlík, L. Dušek, O. Májeek, J. Žaloudík	
chapter 14	
14.1 Introduction	339
14.2 Methodology of population-based survival analyses adopted in the Czech Republic	340
14.3 Reference dataset and the time period for assessing population-based survival in the Czech Republic	344
14.4 Survival benchmarks for Czech cancer patients	349
14.5 Survival rates achieved in all Czech cancer patients	355
14.6 Time trends in population-based survival of Czech cancer patients	364
14.7 Comparison of population-based five-year relative survival rates of Czech cancer patients with international data.....	368
Acknowledgements	373
References.....	373
eHealth Principles and their Implementation in Czech Cancer Care.....	377
chapter 15	
D. Schwarz, D. Klimeš, L. Dušek, M. Hajdúch, P. Brabec, S. Štípek, Č. Štuka, V. Mihál	
15.1 What is eHealth?.....	377
15.2 eHealth in the Czech Republic.....	379
15.3 Czech eHealth priorities	380
15.4 Czech and Slovak Medical FACulties NETwork (project MEFANET; www.mefanet.cz)	382
15.5 Electronic Library of Chemotherapy Regimens and its educational content	383
15.6 Educational and data management tools of the Czech National Cancer Registry	387
15.7 Electronically supported interdisciplinary communication in Czech cancer care	387
Acknowledgements	388
References and information sources	388
chapter 16 Cancer-Related Environmental Risk Assessment in the Czech Republic	390
I. Holoubek, L. Dušek, J. Klánová, J. Jarkovský	
16.1 Introduction	390

16.2 Management of environmental monitoring in the Czech Republic.....	391
16.3 International obligations of the Czech Republic regarding the persistent organic pollutants	392
16.4 Concept of persistent organic pollutants monitoring in the Czech Republic	392
16.5 Current status of environmental contamination by persistent organic pollutants in the Czech Republic.....	394
16.8 Summary.....	405
16.9 Index	406
Acknowledgements	408
References.....	409
Enclosure 16.1	411
Enclosure 16.2	412
Appendix I. Cancer Incidence by Age Groups and Diagnoses in the Period 2001–2005.	415
Appendix II. Cancer Incidence by Age Groups and Diagnostic Groups in the Period 2001–2005.	431
Appendix III. Summary of Predictive Analyses with Respect to the Epidemiology of Malignant Tumours and Number of Cancer Patients in the Czech Republic:	437
List of Illustrations	455
List of Tables	463
Index.....	467
