

Obsah - Content

Přednášková část - Part of oral presentations

Úvodní přednášky - Opening lectures

Klemšová, Z. Intensive Orchards in the Czech Republic	11
Hričovský, I. and Vargová, H. Development of Fruit Planting in the Slovak Republic after Its Accession to the European Union	13

Sekce I. Pěstitelské technologie - Session I. Orchard management

Csigai K. and Hrotkó K. Effect of Spacing on Productivity of Young Apple Orchard	18
Gündoğmuş, E., Bayramoğlu, Z. Organic Fruit Growing in Turkey: A Comparative Examination of Energy and Economics	22
Hanisko, L., Hričovský, I. and Babjak, M. First Experimental Results on Drip Irrigation Within the Pear Orchard Cultivated in Danubian Lowland, Slovakia	26
Hrotkó, K. and Magyar, L. Evaluation of Rootstocks and in Row Spacing in Intensive Plum Orchard	30
Krška, B. and Golas, K. An Evaluation of the "Solax" Training System in Apple Orchards	32
Štampar, F. and Veberič, R. Influence of Training System on Yield and Fruit Quality of 'Golden Delicious' and 'Braeburn' Apples	36
Thurzó, S., Drén, G., Zaheri, S., Szabó, Z., Soltész, M., Kocsisné Molnár, G. and Nyéki, J. Sweet Cherry Fruit Quality in a Hungarian Super-intensive Orchard	40

Sekce II. Šlechtění a pomologie - Session II. Breeding and Pomology

Blažek, J. Yields and fruit quality of 50 apple cultivars grown or tested in commercial orchards of the Czech Republic	46
Gorina, V. M., Richter, A. A. Revealing of connection of fruit maturing terms in cultivars of <i>Armeniaca vulgaris</i> L. and hybrids of <i>Prunus brigantia</i> Vill. x <i>Armeniaca vulgaris</i> L. with their biochemical features	54
Hudina, M. Growing Experience with Some Peach and Nectarine Cultivars	58
Matuškovič, J., Mičudová, O., Jurík, I., Antalíková, M., Vargová, H. and Pokorná, T. Some Well-known and Lesser-known Fruits from an Academic Point of View	62
Milatovič, D., Djurovič, D. Evaluation of Apricot Cultivars in the Belgrade area	68
Pedryc, A., Halász, J., Krška, B., Hegedűs, A. Study of self-incompatibility in apricot	72
Solar, A., Hudina, M. and Štampar, F. Promising Walnut Genotypes from Slovene Domestic Populations	76

Sekce III. Fyziologie rostlin a hnojení - Session III. Plant Physiology and Fertilization

Hanisko, L., Hričovský, I. and Hříbík, J. The Using of Fertilization Within the Productive Cultivation of Apple-trees Grown as Slim Spindle on Calcerous Chernozem in South-west Part of Slovakia	82
Mezey, J. and Pagáč, M. Evaluation of Phenological Stages Shift in Relation to Changed Agroclimatical Characteristics by Aples (<i>Malus domestica</i>)	86
Paulen, O., and Šiška, P. Exploitation of Fenological Observations in Apple Tree Regionalisation in Conditions of Changing Climate on the Territory of Slovakia	90
Veberič, R., Colarič, M., Štefančík, M., Solar, A., Mikulič Petkovšek, M. and Štampar, F. Phenolic Analysis in Different Fruit Species	94

Vičan, M., Krška, B., Usenik, V., Štampar, F.	
Prediction of graft incompatibility in young apricot trees	98

Sekce IV. Choroby a škůdci - Session IV: Pests and Diseases

Savini, R.	
CAV - Genetic and Phytosanitary Certification Scheme of Fruit Tree Species	104

Postery - Part of Posters Presentations

Sekce I. Pěstitelské technologie - Session I. Orchard management

Avanzato, D., Raparelli, E., and Meli, M.	
Agronomic Evaluation of Clover as a Cover Crop in Hazelnut Orchards	110
Blažková, J. and Hlušíšková, I.	
Improvement of Survival, Bud Uptake and Nursery Tree Quality on Dwarf Sweet Cherry Rootstocks by Drip Irrigation	114
Bublyk, M. O., Chorna, G. A. and Fryzuk, L. A.	
Scientific Fundamentals of Fruit Crops Allocation in Ukraine	120
Dimkova, S., Vitanova, I., Marinova, N. and Ivanova, D.	
Modern Technologie for Biological Production of Plum Fruits	124
Dradi, G., Roncasaglia, R. and Laghi, P.	
Commercial In-vitro Propagation of Fruit Rootstocks at "Vivai piante battistini societa' agricola s.s.", Trend of the Last 5 years	126
Gavat, C., Trandafirescu, M. and Dumitru, L. M.	
Influences of Some Soil Management Systems in a Peach Tree Orchard	130
Jurík, I. and Matuškovič, J.	
Technology of Shape Thin Stem on Apricots	134
Kosina, J.	
Performance of Four Apple Cultivars on Several Dwarf Rootstocks in the Orchard	136
Nečas, T. and Kosina, J.	
Propagation of Perspective Pear Rootstock by Hardwood Cutting	140
Nečas, T., Ondrášek, I., Krška, B. and Meisl, T.	
Simultaneously Grafted Softwood Cuttings of Rootstocks for Apricots	144
Parascovia, S.	
Propagation Capacity of Some Raspberry Varieties Introduced in the Republic of Moldova	148
Prazak, M. and Litschmann, T.	
Evaluation of Semi-operational Drip Irrigation and Fertilizer Experiment in Co-operative Farm Dolany in 2003-2005	150
Septar, L.	
The Research as Regards of Modern Irrigation Technology Impact on Apricot Tree Production	154
Spita, V.	
Results Obtained From Nectarine Orchards Systems Especially Planting Distances and Tree Crown Shapes	156
Takacs, F., Hrotko, K.	
Effect of Apple Rootstocks on Growth and Productivity	160
Vargová, H. and Matuškovič, J.	
Intensive Peach Out Planting Based on Graftlings	164
Vitanova, I., Dimkova, S., Marinova, N. and Ivanova, D.	
Trends of the Plum Production in Bulgaria	166

Sekce II. Šlechtění a pomologie - Session II: Breeding and Pomology

Benediková, D.	
Genetic Resources of Temprate Stone Fruit – Potential Source for Breeding	170
Q. H. Pan, H. Y. Sun and Y. Z. Wang	
Introduction to Special Germplasm of Chinese Jujube (<i>Ziziphus jujuba</i> Mill.)	172
Botu, I. and Giorgota, A.	
The Genetic Variability of <i>Prunus cerasifera</i> Species in the South of Romania	176

Dejampour, J. and Rahnemoun, H.	
Evaluation and Comparison of Flowering, Yielding and Fruit Traits in Iranian and European Apricot Cultivars (<i>Prunus armeniaca</i> L.)	180
Dumitru, M. L., Valentin, S., Gavat, C., Lenuta, Ch., Dorel, H and Dumitru, D.-V.	
Present Assortment of Peach Varieties from Romania	182
Fajt, N., Komel, E., Vrhovnik, I. and Kodrič, I.	
Persimmon - a Perspective Fruit Species for Litoral Part of Slovenia	184
Indreias, A.	
The Breeding Program of Peach and Apricot Rootstocks at Fruit Research Station Constanta, Romania	186
Keserović, Z., Đurić, B., Magazin, N., Korać, M. and Vračar, L.	
New Apricot Cultivars and Selections in Serbia	188
Kocsisné, M. G., Nyéki, J. and Szabó, Z.	
Comparing the Variants of the Hungarian Regional Pear Varieties	192
Kudrenko, I.	
Peach in the North of Ukraine	194
Nikolić, M., Fotirić, M., Milivojević, J. and Radivojević, D.	
Preliminary Results of Raspberry Selections with Yellow Fruit	196
Nikolić, M., Vulić, T., Milivojević, J. and Đorđević, B.	
Pomological Characteristics of Newly Introduced Black Currant Cultivars (<i>Ribes nigrum</i> L.)	200
Raddová, J., Vachůn, M., Krška, B. and Pidra, M.	
SSR analyses of two <i>Prunus armeniaca</i> progenies	204
Rahnemoun, H. and Dejampour, J.	
Characterization of five local cultivars of almond (<i>Prunus amygdalus</i> B.)	206
Scripchenko, N.	
The Results of Actinidia Selection in the National Botanical Garden of Ukraine	208
Strikić, F., Vuletin Selak, G., Čmelik, Z. and Radunić, M.	
Comparative Advantages of Sour Cherry Marassca Cultivation in Croatia	210
Topor, E.	
Apricot Germplasm Fund and the Results Issued From its Employment	212
Vachůn, M., Chroboková, E., Raddová, J., Krška, B. and Pidra, M.	
Screening of Pomological and Genetic Data in Progeny Harlyne x Hargrand Crossing	214
Vachůn, M., Minaříková, J., Raddová, J., Baránek, M. and Pidra, M.	
Comparison of Genetic Diversity in <i>Prunus</i> and <i>Glycine</i> Species	216

Sekce III. Fyziologie rostlin a hnojení - Session III: Plant Physiology and Fertilization

Andonova, M.	
Influence of the Mode of Thinning Upon the Vegetative and Reproductive Manifestations of the Redhaven Peach Variety	220
Ondrášek, I., Krška, B., Nečas, T. and Jurčák, S.	
Improving the Quality of Rootstocks Grown from Seed with Plant Hormones	223
Antalikova, M. and Matuskovic, J.	
Continuance Phenological Phase and Contents of Anthocyanins in Fruits of the Edible Honeysuckle (<i>Lonicera kamschatica</i> (Sevast.) Pojark.)	224
Colarič, M., Štampar, F. and Hudina, M.	
Content of Primary and Secondary Metabolites at Pear	226
Csiszár, L.	
Improving the Feathering of Young Apple Trees by Environmental-friendly and Cost Effective Methods	228
Doroftei, E., Trandafirescu, M. and Topor, E.	
The Cellular effect of Some Biostimulators at the Apricot Tree (<i>Prunus armeniaca</i>)	230
Jakopič, J., Colarič, M., Solar, A., Veberič, R. and Štampar, F.	
Extraction of Phenolic Compounds from Green Walnut Fruits in Different Solvents	234
Křižan, B., Ondrušíková, E., Pidra, M., Krška, B., Dradi, G., Roncasaglia, R., Benediková, D.	
Some Aspects of <i>In Vitro</i> Rooting of VVA-1® (<i>P.tomentosa</i> x <i>P.cerasifera</i>) Plum Rootstock	238
Mičudová, O., Matuškovič, J.	
Exogenous Factors Influenced on Vegetative Propagation Process of <i>Punica granatum</i> L.	242

Milatović, D. and Durović, D.	
Leaf Properties as Elements for Identification of Apricot Cultivars	244
Němcová, A., Balík, J., Mýlová, P. and Šuderlová, L.	
Post-harvest Dynamics of Malic and Citric Acid in Apricot Fruits	246
Petkovšek, M. M., Štampar, F. and Veberič, R.	
Phenolic Compounds in Resistant and Susceptible Apple Cultivars	250
Petrisor, C. and Bălan, V.	
Reflectance Spectroscopy as Useful Tool for Monitoring the Ripening and the Quality of Fruit	252
Riabtseva, T. V.	
Influence of Biological and Mineral Fertilizers on Biochemical Structure of Fruits, Leaves and Agrochemical Parameters of Soil in Apple Orchard	256
Vitanova, I. and Dimkova, S.	
Green Manure of Plum Orchards	260

Sekce IV. Choroby a škůdci - Session IV: Pests and Diseases

Blažek, J., Hlušíčková, I., Vávra, R.	
Scab (<i>Venturia inaequalis</i>) and Mildew (<i>Podosphaera Leucotricha</i>) on Cultivars Grown in Commercial Apple Orchards in the Czech Republic	264
Korba, J., Šillerová, J.	
Evaluation of cherry rootstock susceptibility to bacteria of species <i>Pseudomonas</i>	270
Mezey, J. and Labuda, R.	
<i>Penicillium implicatum</i> Causing Destructive Rot of Selected Apple Fruit Varieties (<i>Malus domestica</i>)	272
Süle, S. and Jenser, G.	
The Pear Decline Outbreak in Hungary	274
Trandafirescu, M., Doroftei, E. and Trandafirescu, I.	
Efficacy of Some Fungicides in Controlling <i>Taphrina deformans</i> (Berk) on Peach in South – Eastern of Romania	276

Abstrakty – Part of Abstracts

Budagovskay, O. N., Budagovsky, A. V.	
Laser Diagnostics of Top Fruit Plants	280
Budagovsky, A. V.	
The Effect of Coherent Light on the Increase of Plant Organisms Functional Activity	280
Budagovsky, A. V., Turovtseva, N. M.	
Laser Stimulation of Male Gametophyte of Top Fruit Plants	280
Cmelik, Z., Tojnko, S., Unuk, T.	
Effects of orchard site parameters and fruit distribution within canopy on fruit quality of 'Fuji' apple	281
Halász, J., Szabó, Z., Nyéki, J., Drén, G., Hegedűs, A., Pedryc, A.	
Determination of incompatibility genotypes in Japanese plum (<i>Prunus salicina</i> Lindl.)	281
Laimer, P., Serra, S., Dradi, G., Musacchi, S.	
A new budding technique for cherry and peach rootstocks	282
Marandel, G., Sicard, O., Lalli, D. A., Lambert, P., Pascal, T., Abbott, A., Krska, B., Salava, J., Badenes, M.-L., Decroocq, V.	
Application of molecular markers in breeding for resistance to the <i>Plum pox virus</i> in <i>Prunus</i> spp.	282
Milenkovic, S., Cerovic, R. and Lukic, M.	
Resistant cultivars in fruit protection	283
Milenković, S., Cerović, R. and Lukić, M.	
Resistant Cultivars And Biological Insecticides In Integrated Fruit Production In Serbia	284
Savelyev, N.	
Breeding of Apple Cultivars with Genetical Scab Resistance in Russia	285
