

Content	3
Conference objectives	5
I. BLOCK: FOREST MANAGEMENT SYSTEMS	7
1. Tomáš Blaha	9
Forest Management Systems of Floodplain Forests in the Forest Enterprise Židlochovice (LZ LČR Židlochovice)	
2. Jiří Eichler	19
Systems of Floodplain Forest Management in the Protected Landscape Area of the Litovelské Pomoraví Giving the State-Owned Forest as an Example	
3. Igor Anić	31
Forest Management Systems in Lowland Forests of Croatia	
4. Herbert Hager, Helmut Schume, Herbert Tiefenbacher, Ernst Buchleitner	41
The Management of Floodplain Forests in Austria	
5. Andreas Sickert	61
Forestry Management Systems Applied to Leipzig's Floodplain Forest	
II. BLOCK: REGENERATION OF FLOODPLAIN FOREST SITES	73
6. Pavel Hobza, Oldřich Mauer, Pavel Fibich, David Jirman	75
Effect of the Size of Regeneration Elements (Clearcut Areas) on the Growth of Pedunculate Oak (<i>Quercus robur</i> L.) in Artificial Regeneration	
7. Kateřina Houšková, Eva Palátová, Oldřich Mauer	89
Possibilities and Procedures for the Natural Regeneration of Pedunculate Oak (<i>Quercus robur</i> L.) in South Moravia	
9. Milan Oršanić, Ramie Drvodelić	99
Natural Regeneration of Pedunculate Oak	
10. Oldřich Mauer, Jiří Libus, Eva Palátová, Alena Rychnovská, Petra Mauzerová	107
Emergence of Above-Ground Part and Root System in Pedunculate Oak (<i>Quercus robur</i> L.) after Whole-Area Site Preparation by Plough and Rotary Cultivator and after Regeneration by Sowing and Planting	
11. Jiří Libus, Oldřich Mauer, Dušan Vavříček	121
Impact of the Whole-Area Soil Preparation by Ploughing and Agroforestry on Some Characteristics of Floodplain Ecotopes	
12. Oldřich Mauer, Petra Mauzerová	133
Eliminating the Negative Influence of Forest Weeds in the Pedunculate Oak (<i>Quercus robur</i> L.) Regeneration on Alluvial Sites by Mowing to „High Stubble“	

13. Zdeňka Procházková	143
The Quality of Acorns and their Storage	
14. Ladislav Varga	151
Artificial Poplar Regeneration	
15. Zdeněk Vícha	161
Regeneration of Poplars from Coppice Shoots in the Forest Enterprise Židlochovice	
16. Michal Hrib	169
Regeneration of Noble Broadleaves on Alluvial Sites of the Židlochovice Forest Enterprise	
17. Petr Maděra	183
Problems of Floodplain Forest Classification	
18. Pavel Hadaš, Tomáš Litschmann	195
Moisture Conditions and Hydrological Regime of Floodplain Forests in the Territory of Southern Moravia	
19. Josef Suchomel	209
Vertebrate as Pests in Forest Plantations and Floodplain Forest Stands	
20. Miloš Pařízek	221
Possibilities to Assure Resources and Reproduction Material for the Regeneration of Floodplain Forests in the Czech Republic	
III. BLOCK: COOPERATION IN DECISION-MAKING WITH PUBLIC ADMINISTRATION AUTHORITIES	235
21. Martin Vlasák	237
Floodplain Forest Management from the Point of State Forestry Administration
