| 1 INTRODUCTION | 7 |
| 1.1 Spatial Development Policy of the Czech Republic | 8 |
| 1.2 Links of the Spatial Development Policy of the Czech Republic to international agreements, to documents of international organizations, and of neighbouring States | 8 |
| 1.3 Relation of the Spatial Development Policy of the Czech Republic to other development instruments..... | 8 |
| 1.4 Structure of the document entitled Spatial Development Policy of the Czech Republic | 9 |
| 2. NATIONAL SPATIAL PLANNING PRIORITIES TO ENSURE THE SUSTAINABLE DEVELOPMENT | 11 |
| 2.1 Objective..... | 12 |
| 2.2 Proposal..... | 12 |
| 3. DEVELOPMENT AREAS AND DEVELOPMENT AXES | 15 |
| 3.1 Objective..... | 16 |
| 3.2 Proposal..... | 16 |
| 3.2.1 Development areas..... | 16 |
| 3.2.2 Development axes..... | 21 |
| 4. SPECIFIC AREAS | 27 |
| 4.1 Objective..... | 28 |
| 4.2 Proposal..... | 28 |
| 5. TRANSPORT CORRIDORS AND AREAS | 37 |
| 5.1 Objective..... | 38 |
| 5.2 Proposal..... | 38 |
| 5.2.1 Transport corridors and areas of international importance | 38 |
| 5.2.1.1 Multimodal corridors | 38 |
| 5.2.1.2 Railway transport..... | 38 |
| 5.2.1.3 Road transport..... | 42 |
| 5.2.1.4 Waterway transport | 43 |
| 5.2.1.5 Combined transport..... | 44 |
| 5.2.1.6 Airports | 44 |
| 5.2.2 Transport corridors and areas of nationwide importance..... | 45 |
| 5.2.2.1 Road transport..... | 45 |
| 5.2.2.2 Waterway transport | 48 |
| 5.2.2.3 Combined transport..... | 49 |
| 6. TECHNICAL INFRASTRUCTURE CORRIDORS AND AREAS | 55 |
| 6.1 Objective..... | 56 |
| 6.2 Proposal..... | 56 |
| 6.2.1 Technical infrastructure corridors and areas of international importance..... | 56 |
| 6.2.1.1 Energy industry..... | 56 |
| 6.2.1.2 Gas industry | 57 |
| 6.2.1.3 Long distance oil pipelines | 58 |
| 6.2.2 Technical infrastructure corridors and areas of nationwide importance | 58 |
| 6.2.2.1 Energy industry..... | 58 |
| 6.2.2.2 Gas industry | 60 |
| 6.2.2.3 Long distance oil pipelines | 61 |
| 6.2.2.4 Electronic communications..... | 61 |
| 6.2.2.5 Water resources management..... | 61 |
| 6.2.2.6 Waste management | 62 |

| | |
|---|----|
| 7 EXPLANATION OF CONCEPTS | 67 |
| 8. RELATION AMONG DEVELOPMENT AREAS, DEVELOPMENT AXES AND SPECIFIC AREAS..... | 69 |

INTRODUCTION

LIST OF CHARTS

- Chart 1: Development areas and development axes
- Chart 2: Specific areas
- Chart 3: Trans-European multimodal corridors
- Chart 4: Railway transport
- Chart 5: Road transport
- Chart 6: Waterway and air transport
- Chart 7: Energy industry
- Chart 8: Gas industry
- Chart 9: Long distance pipelines

EDITORIAL REMARK:

The material Bases and Starting Points, mentioned in the article (12) of the Spatial Development Policy of the CR includes an abstract from the file of information which were collected and assessed during the elaboration of the Spatial Development Policy of the CR.

CONTENTS OF THE MATERIAL BASES AND STARTING POINTS:

| | |
|---|----|
| 1. INTERNATIONAL CONTEXT AND LINKS | 4 |
| 2. DRAWING PRESENTING PROBLEMS AND CONFLICTS – COMMENTARY | 13 |
| 2.1 Spatial problems | 13 |
| 2.1.1 Spatial problems in the field of transport | 3 |
| 2.1.2 Spatial problems in the field of power engineering | 14 |
| 2.1.3 Spatial problems in the field of risks in an area | 14 |
| 2.1.4 Spatial problems in the field of raw materials extraction..... | 14 |
| 2.1.5 Spatial problems in the field of social care and economy..... | 15 |
| 2.2. Spatial conflicts..... | 16 |
| 2.2.1 Spatial conflicts between the transport investment projects and the land use limits in the field of landscape and nature protection..... | 16 |
| 2.2.2 Spatial conflicts between the transport investment projects and the flood areas affected in 1997 and 2002..... | 19 |
| 2.3 Drawing of limits and land use restrictions – commentary..... | 20 |
| 3 DRAWING PRESENTING PROBLEMS AND CONFLICTS..... | 25 |
| 4 LIST OF BASE MATERIALS AS TO THE November 30, 2005..... | 27 |

LIST OF CHARTS

- Chart 1: Typology “MEGA” and regional situation
- Chart 2: European context
- Chart 3: Road and railways TEN-T networks
- Chart 4: Power supply system – European context
- Chart 5: Transit and very high pressure gas lines – European context
- Chart 6: Oil pipelines – European context
- Chart 7: Drawing of limits and land use restrictions
- Chart 8: Drawing of investment programmes
- Chart 9: Drawing of social and economic issues
