List of Abbreviations 17

1. Introduction 19

1.1 (Digital) communication and representation 19
1.2 Research questions 20
1.3 Aims of the study 21
1.4 Relevance for politics and political science 22
1.5 Parliamentary communication goes online 25
1.6 Parliamentarians on the web 27
1.7 MEPs as distinctive parliamentarians 28
1.8 The dataset 30
1.9 Structure of the study 31

2. Theory and Context 35

2.1 Overview 35
2.2 Whom do MNPs represent? Struggles and challenges 37
2.2.1 MNPs and representation 41
2.2.2 The challenge of double-hatting 44
2.3 Making balancing acts visible – (Digital) communication of MNPs 48
2.3.1 Parliamentary communication – Relevance, aims and MNP behaviour 48
2.3.2 Aims and tools of political and parliamentary communication 50
2.3.3 Obstacles to parliamentary communication 53
2.3.4 Communication behaviour of individual MNPs 56
2.4 Digital communication – Politics and parliaments on the internet 58
2.4.1 What is new compared to the traditional media? 58
2.4.2 Potential and pitfalls for politics 60
2.4.3 Use in parliaments and by MNPs 66
2.5 A special context for communication – The European Parliament 73
2.5.1 Why the European Parliament is a special context for communication 73
2.5.2 Double-hatting of MEPs – a balancing act across political levels 76
2.5.3 (Digital) Parliamentary communication in the European Parliament 81
2.5.4 MEPs and digital communication 85

3. Framework of Analysis 89

3.1 Research questions 89
3.2 The potential of personal websites 90
3.3 Types of parliamentarian communication 93
3.3.1 Ensuring the feedback loop 93
3.3.2 Informing 95
3.3.3 Signalling territorial representation cues 97
3.4 Hypotheses 103
3.4.1 Political level differences 103
3.4.2 Institutional differences on the national level 107
3.4.3 Ideological differences 109

4. Methodology 113

4.1 Research design 113
4.2 The internet as a tool for research 113
4.3 Chosen nationalities & sample 114
4.4 Instrumentation and measures 116
4.5 Intercoder reliability 119
4.6 Procedures 122
4.7 Data processing and analysis 123

5. Patterns of Variation 125

5.1 Structural elements 125
5.2 Ensuring the feedback loop 129
5.3 The Transparency Index 138
5.4 Informing 140
5.4.1 The Information Index 145
5.5 Signalling territorial representation cues – European symbolism and content 147
5.5.1 The European Index 151
5.6 Signalling territorial representation cues – National symbolism and content 153
5.6.1 The National Index 159
5.7 Conclusions 161

6. Analysis 163

6.1 Pre-political effects? The possible influence of demographic variables 163
6.2 Political level differences 168
6.3 Institutional differences on the national level 196
6.4 Ideological differences 210

7. Conclusions 227

7.1 Results 227
7.2 Digital representation through personal websites 230
7.2.1 Ensuring the feedback loop 230
7.2.2 Informing 232
7.2.3 Signalling territorial representation cues 232
7.3 Contributions of the study 234
7.4 Practical implications 235
7.5 Outlook and further research 238
